CANUCK KILLS 19 GERMANS, TAKES TRENCH AND CAPTIVE

OTTAWA, Ont., Oct. 3.—A tale of an unnamed corporal in an eastern Ontario battalion of the Canadian forces in France, who, single handed, captured a party of 22 Germans advancing to an attack and killed or wounded all of them except one, whom he took prisoner, is related by the official Canadian "eye witness" in a dispatch received today.

"The case of a corporal of an eastern Ontario battalion is one of the most extraordinary ever recorded. The battalion had successfully captured a line of German trenches when a party of the enemy, consisting of two officers and about 20 men, began a counter-attack.

"The corporal advanced alone against the whole party, emptied his revolver, picked up first one and then another German rifle, each of which he emptied, accounting for the two officers and 16 of the men. While he was shooting, one of the officers attacked him with a bayonet and pierced him in the leg below the knee, but the corporal shot him dead. The rest of the enemy attempted to escape. The corporal shot four of them and made the fifth a prisoner. Although wounded in two places, he remained in the trenches until his battalion was relieved."

MYSTERIOUS DEATH OF THREE SISTERS

LANCASTER, O., Oct. 3.—James A. Tobin, prosecuting attorney, announced today that a rigid investigation of the mysterious deaths of Misses Agnes and Alice Smetters and Miss May Smetters, who were found dead on three chairs in the parlor of the old Smetters mansion here last night, upon the theory that the women were the victims of a triple murder. Twenty-four hours after the tragedy the police and coroner's inquiry had failed to disclose any substantial evidence of how the three women met their death.

Preliminary search of the mansion for leaking gas or damps of a fatal nature has failed to show any permanent source of such danger.

Official investigation is marking time pending a report of the state chemist upon the contents of the stomachs of the three women and a piece of pie from which they are believed to have eaten.

Officers from the prosecutor's office and the police have canvassed the private relations of the three women and found no possible motive to sustain the theory of murder. Suicide is not considered.

EAGLE POINT EAGLETS

By A. C. Howlett

W. C. Clements, our postmaster and manager and principal owner of the telephone business here, has caused to be erected on the rear end of the post-office and telephone building a neat porch that will probably be needed this winter to protect the stovewood from the storms and lessen the burdens of the phone girls in keeping the room warm.

Fred Dutton has finally succeeded in getting moved from the Frank Brown farm, a part of the old James Matney place, into one of the James Owens houses in our town. He had hardly got moved before he renewed his subscription with me for the Daily Mail Tribune.

Our new depot agent, Ames Ayres, and his wife went to Medfodr last Thursday evening and took in the show.

Miss Coney, who is teaching school in the Persist district, came out Tuesday, visited Medford and Friday returned, taking the Eagle Point and Persist auto stage, under the management of the owner, Henry Trusty, and returned to her school.

W. M. Benedict of Jacksonville came out Thursday, took the Eagle Point-Lake Creek auto stage for Lake Creek.

Mr. and Mrs. O. L. Peelys and two sons, Lawrence and Howard, and Milton York of Ortang, Cal., passed through here Friday on their way to Crater Lake. They came from their home in the southern part of the state of California via the San Juaquim valley, up the Sacramento valley to this valley, having a trail attachement to their auto, but found that when they reached the hilly part of the road that they had too much of a load for their auto and that the coupling to the auto was not strong enough to bear the strain, so they packed up every superfluous article except two dogs and shipped them from here back home, and then went on their way, intending to go on to Crater lake, thence via Klamath Falls, back to Ashland, and from there to Crescent City down the coast to San Francisco, still following the coast route south to their home. Mr. Peeley said that they were looking over the country with a view of some day coming back and settling in Oregon.

Thomas Stanley and his father passed through our town on their way to the valley Friday.

Mike Sidley of Lake Creek was doing business with our business men Friday evening.

Gus Ditsworth of Prospect brought out a load of potatoes Friday evening, spent the night with us and went on to Central Point with them, but thought that he might go on to Medford with them.

E. A. Hildeth of Butte Falls also spent the night with us at the same time.

George Guarins, who is engineering Frank Brown's auto truck, took in four tons of the product of the Snowy Butte flour mill Saturday morning, thus butting the ball in motion to start a big business in the milling line in our town again. With the new water wheel and other machinery, the new owners seem to think that they will be able to secure water enough to run the entire machinery in the mill the most of the time, if not all the time, as they find that with their modern improvements that they will not require the same amount that was required under the old system.

Among the passengers on the P. & E. railway Saturday morning on the eastern trip were: E. A. Hildreth, who came out on the P. & E. jitney Friday; M. D. Stoddard, wife and son; Alex. Hubbard, Jerry Bishop, H. D. Mills, all of Butte Falls, and Miss Nydah Neil of Derby.

I also noticed the smiling features of Richard (Dick) Diamond, who has been taking a layoff for the past few months, enjoying a trip back east visiting friends and relatives. He has been in the employ of the P. & E. Railway company for some years, and has been taking a rest from his arduous duties. Dick is a fine fellow and has many warm friends in these parts.

Lemon Charley of Brownsboro and James Kershaw of Wellen, both of them are prominent stockmen. Mr. Charley is interested in cows and horses and Mr. Kershaw is interested in cows, sheep and goats. While they were here for dinner Saturday Mr. Charley related one of the most remarkable incident on record. During the construction of the Rogue River canal on Little Elbutte creek, that supplies the valley with water, and Dan Morris was superintending the work, Mrs. Morris lost her watch and Mr. M. offered a reward of $20 for its recovery, but all in vain. But some three or four weeks afterward as Mr. Charley's two daughters were riding through a gate that was used and had been used daring all that time as a passage for all the horses and wagons in use on the canal, and there were at least fifty horses passed through that gate twice or three times a day, going to and from work, and the mud was six or eight inches deep as the two girls were riding through the gate and one of them was in the act of shutting it, on horse back, her horse, by a move of the foot, brought the watch to the surface, and it was found to be uninjured. What some would call a streak of luck, while others might call a mysterious act of Providence.

The other day I met Ed Dutton and after he had renewed his subscription to the D. M. T. he remarked that he had just sold thirteen head of beef cattle for over $800, and I thought that it was no wonder that Mrs. H. has to pay so high for beef—over $60 apiece.

C. Hoogerhyde has moved his family to Grants Pass. They will be missed, as Mr. H. has been the superintendent of our Sunday school and Mrs. H. will be missed from the social circles.

WHY?

NOW TIME TO TRADE.

I have a 160-acre stock ranch; good location; 100 acres in grain, some alfalfa. This place recently sold for $12,000; no incumbrance. Will trade for good orchard, prefer pears, or would take city property. Would trade even or assume some incumbrance on orchard proposition.
