

FEDERAL DEADLINE FOR FISHING AT MOUTH OF ROGUE

GOLD BEACH, Or., Oct. 1.—(Correspondence.)—At the request of the Maelley Estate company, the United States government, after an examination by Engineer Schubert of the war department, has established a dead-line at the mouth of Rogue river at a point 500 feet east of the narrows, beyond which commercial fishing operations cannot be conducted.

The federal deadline will settle the matter for good and all, and fishermen violating this order will be prosecuted by the federal government, which provides a penalty of from \$500 to \$2500 or a year's imprisonment or both.

The operations of the commercial fishermen at the Rogue's mouth have kept many fish from entering the stream, as at times the narrows have been virtually fenced with gill-nets. Wardens have been handicapped in attempts to enforce the law by speedy acquittals in the justice court. The establishment of the federal deadline takes the matter out of local jurisdiction. One of the best seining grounds of the Maelley company is eliminated by the deadline and two set-nets, while a score of gillnetters are out out.

The war department order reads as follows:

"The attention of those engaged in fishing in the waters of the Rogue river, Oregon, in the vicinity of its mouth, is called to the following provisions in the act of congress approved March 3, 1899, entitled: 'An act making appropriations for the construction, repair and preservation of certain public works on rivers and harbors and for other purposes':

"Sec. 10. That the creation of any obstruction not affirmatively authorized by congress to the navigable capacity of any of the waters of the United States is hereby prohibited; and it shall not be lawful to excavate or fill, or in any manner to alter or modify the course, location, condition or capacity of any port, roadstead, haven, harbor, canal, lake, harbor of refuge, or inclosure within the limits of any breakerwater, or of the channel of any navigable water of the United States, unless the work has been recommended by the chief of engineers and authorized by the secretary of war prior to beginning the same.

"Sec. 12. That every person and every corporation that shall violate any of the provisions of sections 9, 10 and 11 of this act . . . shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by a fine not exceeding \$2500 nor less than \$500, or by imprisonment (in the case of a natural person) not exceeding one year, or by both such punishments, in the discretion of the court.

"All persons are hereby notified that net fishing of every description at the mouth of the Rogue river, Oregon, in an area 150 feet wide, 75 feet on each side of the center line of the channel, which area shall extend from deep water in the Pacific ocean to a true north and south line located 500 feet east of the inner end of 'the Narrows,' is considered an unreasonable obstruction to navigation prohibited by the above provisions of law.

"By authority of the secretary of war: ARTHUR WILLIAMS, Major, Corps of Engineers."

LOVER RESCUES GIRL THIEF, THEN MARRIES

NEW YORK, Oct. 5.—Dorothy Bornholz, 21 years old, was called to the bar in court of general sessions here today to be sentenced for the theft of \$5000 from the lace manufacturers who employed her as a bookkeeper.

"Is there anybody in the court who is interested in the prisoner?" asked Judge Wadhams.

"I am, your honor," replied a young man.

"Do you realize that this young woman stands here confessed to stealing \$5000 from her employers?" asked the court.

"I do, sir, but that makes no difference to me. I believe that she is honest at heart. I love her and I want to marry her."

Sentence was suspended when the young man, who said he was Harry Richard Mattison, produced a marriage license.

EAGLE POINT EAGLETS

By A. C. Howlett

Last Sunday, Oct. 1, was quite a noted day at Eagle Point. In addition to our usual routine of Sunday religious work at the close of the Sabbath school, Mrs. Jennie M. Kemp, president of the Oregon W. C. T. U. came in and favored us with a good sensible talk on the rise and advancement of the W. C. T. U. way back in my childhood days, originating in a family of a noted drunkard, when a young man was raised by a pious mother and as he grew to manhood realizing the fearful results and consequences of the use of booze, started out with the determination to use all his influence to abate the curse. In one of his meetings he suggested to the mothers that they take the matter up and commence a series of prayer meetings in the saloons and asked how many of the mothers would start the ball in motion and every mother rose to their feet. He then asked how many of the men would back them in their undertaking and about all of the men pledged their support, and thus started the W. C. T. U. in an Ohio town some sixty or more years ago, and the movement has spread until now the W. C. T. U. has girdled the globe and extends almost from "pole to pole." She then gave us an account of the workings of the prohibition move, calling attention to the fact that we now have nineteen states that have adopted the dry amendment and assured us that we had a very good prospect for five more states joining the dry ranks, etc. She then paid her respects to the brewers' amendment, calling especial attention to that coming that is so placed as to destroy the present dry amendment and make the state of Oregon as wet as a "drowned dog." She spoke very encouragingly of the prospect of our final victory, not only here in Oregon, but of a thoroughly dry nation, assuring us of a bright prospect for having the entire Pacific coast without a black spot on the map this year.

Mrs. Kemp is a very forceful speaker and held her audience's attention from first to last. She was accompanied by Attorney O. C. Hogg and wife, and Mrs. L. A. Howell, the county superintendent of the W. C. T. U. of Medford. There was not the usual good for Eagle Point, as there are a number here who are a little skittish about going to such places for fear they will have their corns hurt.

The next day, Monday, we were favored with another fine speaker on a similar subject, Phillip Dechner, the Texas cowboy. Instead of him following the old ruts he started off by showing that there were other things connected with the liquor traffic that was worse than the open saloon, and then we all began to take notice for if there is anything in the world worse than the saloon we all wanted to know what it was. He then called attention to the power the brewers exerted politically and told how they through the use of money and political patronage managed to elect men to office, and especially to the legislature and congress of the U. S. relating an incident that occurred in Texas where there was an amendment to be ratified by the legislature that required a two-thirds majority and the friends of the move labored until they secured a good two-thirds of the house and about the first thing they did was to commence to debate and they kept that up for about four weeks and finally when the vote was taken they found that they lacked just three votes, and upon investigation found that three of their men had been bought off and received the neat little sum of \$40,000 each for their votes. He related another incident where a case was in the courts, a lawyer was engaged to carry up a case to the higher courts and just as he was going into the court house there were two men standing one on each side of the door and just as he was entering they each fired three shots into his breast, killing him dead. They were indicted and brought to trial, the jury hung in the first, second, third and fourth trials, with the same result, and finally after the fourth trial the prosecutor asked how they could always bring in a disagreement and one of the jurors stood up and said that he could tell as far as he was concerned, that he had a wife and three children at home and that he thought too much of them to forfeit his life, as each one of the forty eight jurors had received a letter stating that if they convicted these men that each one would pay for it with their lives and that they did not care to make the sacrifice, so finally the case was dismissed and the two men went free. He also related a case in Portland where justice was thwarted in a case where the superintendent of the anti-saloon league had a case in court and a thug struck him on his glasses and thus disabled him so that the case had to be postponed and they would not let it come up again. And I will add that we don't have to go outside of Jackson county to find cases where the liquor power has thwarted justice.

Miss Corney Higgins, Miss Nell Thomson and her sister Ruth of Derby came out Saturday evening, attended the movie show and dance, and Wm. Cameron also of Derby, was with us Saturday and Sunday nights and Monday went to work on the Corbin orchard picking apples.

INDIAN "DEATH GOD" A WATER JAR

This lunch-baked "God of Death" was brought to New York from the West Indies by Captain de Booy, a Dutch explorer. It is an Indian water bottle of pottery made. Captain de Booy says, long before the days of Christopher Columbus. Only one other "Death God," the explorer says, exists. This one will be placed in the American Indian museum, New York.
