EM-TEES

Possibly More So. Malcolm Hyatt, who has not back from a trip to New York, says that as far as he could see every woman there wore silk stockings.—Preston (Iowa) Herald.

It had been a very trying case for everybody concerned. The plaintiff and the defendant were both countrymen and had to have everything explained to them at least twice.

"Do I understand, my man," said the magistrate at one point, "that the defendant hurled invectives at you?"

The plaintiff scratched his head wildly. Then slowly a look of understanding dawned in his eyes as he replied:

"No, sir. To tell the truth, it was only bricks as he threw at me; but wot I complain about was the terrible way he swore at me when they missed!"

Her Plan

"Why," said she, "it's all nonsense to say a woman can't buy her husband's cigars. As for me, I never have the least difficulty."

"No? What's your system?" she was asked.

"I just take along a sample stump," she said, "and there's never the least trouble about matching the shade!"

PROSPEROUS YEAR ALASKA CANNERS

County Commissioner Frank H. Madden has returned from Seattle where he wound up the business for the Hanley-Madden canneries for the season. E. B. Hanley has also returned from a summer spent at the canneries. While the pack at both the Copper River and Pointe Verde canneries was considerably smaller than a year ago the output was sold at nearly a dollar a case higher.

At the copper river plant, 29,000 cases of Sockeye were canned as against 40,000 a year ago, and at Pointe Verde 34,000 cases were packed as against 50,000 last year.

The firm is now erecting a third cannery on Prince Williams Island, one hundred miles east of Cordova.

WARSHIP PATROL FOR SUBMARINES

WASHINGTON, Oct. 9.—No orders were sent to the Atlantic fleet or commanders of the navy yards but department officials began taking steps making ready all craft of the active reserve fleet which could be assigned to the patrol duty, should developments make it necessary to establish a watch along the three mile limit. American officials are determined that no ship shall be attacked in American waters.

AN INSIDE VIEW

UNITED STATES SENATOR GEORGE E. CHAMBERLAIN will speak to the people of Ashland Monday evening and to the people of Medford Tuesday evening. As chairman of senate committee on military affairs, Senator Chamberlain occupies a most important position. Were war to be declared, perhaps the most important in the government.

Senator Chamberlain is in a position to explain, from the inside, the administration's foreign and domestic policies. He can tell of the many times war threatened to become an actuality and how crisis after crisis was successfully passed through the coolness and skill of the nation's pilot. He can outline the old, old struggle between privilege and the people and the triumph of the latter in progressive legislation.

"Our George" is always an interesting speaker, but his present speech is a vital message to the people and the people should hear him.

GERMANY REPLIES TO ROOSEVELT

THE sinking of ten British vessels off the coast of Newport, R. I., by German submarines constitutes a most effective answer to Colonel Roosevelt's bluff and bluster about seizing the German merchantmen interned in the ports of the United States.

It is very evident from the colonel's argument as to the course he would have pursued were he in office, and the course to be pursued by Mr. Hughes in the event of his election, i. e.: to take the same action as that of Portugal—i. e.: confiscation of German merchantmen.

Let the voter now contemplate the result, with our ports blockaded, our vessels being torpedoed at sea and our exports rotting in the granaries and warehouses, factories closed and our best blood fertilizing the beet fields of Belgium and France.

This is not a fanciful picture created for political effect—it must inevitably follow, once in war with Germany, that we must bear our equal share of the burden in the trenches. Germany has answered Mr. Roosevelt's campaign jingoism with "deeds, not words," and the voter may now thank God that neither Mr. Roosevelt nor Mr. Hughes are guiding the American ship of state into German torpedoes, nor are they likely to be given the opportunity.

Trouble in the Rear Ranks

(From the New York World.) Senator Cummins of Iowa and Senator La Follette of Wisconsin are so remote from republican headquarters and the tributary financial interests that they cannot be expected to understand the moral and intellectual forces of which Mr. Hughes has become the chief spokesman.

In his ignorance, Mr. Cummins believes that the national child labor law is honest and humane, a greatly needed piece of legislation and a credit to President Wilson and the democrats and republicans in congress who enacted it. Mr. Hughes has sneered at it and derided it. In opposition to the candidate of his party, the Iowa senator denies that the measure contains a joker or any other evidence of insincerity.

WILSON APPEALS TO HIGHEST IDEALS OF THE REPUBLIC

LONG BRANCH, N. J., Oct. 9.—Returning from the middle west, President Wilson Saturday appealed to independent voters to support the democratic party in November on the ground that it presents a united front for progressive legislation.

Criticizing the "old guard" of the republican party, the president by inference attacked both Charles E. Hughes and Theodore Roosevelt and declared that while every line of his national policy has been assailed, "no diagrams have been drawn of any other."

President Wilson said in part: "And one of the things that threaten us in the future if the republican party is successful is a conflict between capital and labor, not because any new lines will be drawn but because so far many representatives of capital have refused to regard the laborer as a fellow human being, just as much interested in the welfare of business and the progress of society as those who organize business and conduct it."

"When we take each other into partnership there will be no more war between labor and capital. And the acts of co-partnership must be written with the heart, not with the brain. They must be written because we mean it, not because we think it is expedient. They must be written because America, founded in that day of vision, depends for her growth and her glory upon the realization of that vision of the rights of mankind. We were born not to pile up material

BELL-ANS Absolutely Removes Indigestion. One package proves it. 25c at all druggists.

With equal intention to Mr. Hughes' speeches, the fulminations of the railroad press agents and prevailing opinion in Wall street, Mr. La Follette characterizes as false the statement that when congress, a large number of republicans voting in the affirmative, passed the eight-hour law it was intimidated and coerced by the railway brotherhoods. On the contrary, he charges the company interests with "the expenditure of millions of dollars in an effort to create a public opinion that would defeat the demands of the men."

Unless Chairman Willcox can provide better team work than this between the reactionary and the progressive elements of his party, it will be difficult to say whether republicans are fighting democrats or ripping one another up the back.

wealth but to see that the spirits of mankind did not lose heart. We were born to prefer justice to power, humanity to any form of selfish achievement. We raised up, as we have raised up in efficiency and in the harbor of New York an image of liberty enlightening the world, showing a lustrous light across the waters which we said if men follow, it would lead them to a land of justice, to a land of brotherly love, to a land where men cooperated because they believed in each other's rights, to a land where no man sought to be another man's master, but where all men were united together in a like comradeship and affection.

STOCK MARKET DEMORALIZED BY SUBMARINE RAID

NEW YORK, Oct. 9.—The stock market was demoralized at today's opening, standard issues as well as war stocks breaking 5, 10 and even 12 points at the outset on enormous liquidation.

The break was attributed to submarine activities and their possible consequences.

The foremost feature was United States Steel on an offering of 30,000 shares at 112 to 109, representing a loss over the week end of slightly more than seven points.

The mercantile marine issues, common and preferred, were lower by 7 1/2 to 12 points. Distinctive munitions yielded 3 to 8 points.

Even standard railway stocks such as Union Pacific were subjected to tremendous selling pressure, Union Pacific losing almost 6 points.

After the most exciting half hour seen in the stock market since the panic of 1907 the tide of liquidation was stemmed by heavy volume of buying orders reported to have been sent to the market by important banking interests.

Recoveries ranged from 4 to 8 points, while Republic Steel virtually regained its 18-point decline. Sales in the first hour reached the unprecedented total of approximately 900,000 shares.

BRITISH STEAMER JUPITER BELIEVED TO BE SUNK

LONDON, Oct. 9.—The British steamship Jupiter, of 2824 tons gross, is believed to have been sunk, according to an announcement made today at Lloyd's shipping agency. The Jupiter was 285 feet long, built at Greenock in 1901 and owned by the Hessler Shipping company of West Hartlepool.

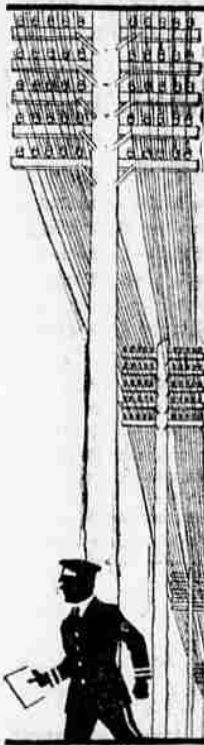

COMPLICATIONS BOOM AS RESULT OF SUBMARINES

WASHINGTON, Oct. 9.—Possibilities of diplomatic complications over the German submarine raid along the New England coast seemed today to point toward the allies as well as Germany.

State and navy officials, scanning the unofficial reports of the destruction of ships within sight of American shores found no reason today to

change their first impression that the submarine operations had been conducted so far within the limitations of international law, but they were fully alive to the dangerous possibilities. Destruction of an American ship carrying contraband might easily cause another Frye case and any loss of life at all in any case might easily reopen the whole submarine question.

The threatened complication with the allies lies in their contention that submarines, because of their nature, should be excluded from all neutral ports. Today's London dispatches quoting the Manchester Guardian to the effect that such a view has been set out in the recent memorandum sent by the allies to neutral governments, contain the first intimation received here that anything in the nature of a formal representation had been made.
