

LOCAL CANNERY GREAT ASSET FOR ENTIRE VALLEY

Medford has in the Rogue River Valley Canning Company what promises to become a great asset to this city and all the surrounding country. Packing all the tomatoes which could be bought and paying to the growers the record price of \$10 per ton for the product, the season of this company was abruptly cut off last week by the heavy frost which destroyed the tomato vines with less than one-third of the crop picked. Only a few days before the disastrous freeze, came an order from Sioux City, Iowa for 19,000 cases at the record price of \$1 per dozen cans at the factory.

Next year it is the plan of the company to lease a tract of 60 acres and raise a large crop of tomatoes themselves. This crop will be scientifically protected both by smudging and by the use of sheets to spread over the vines. The officers of the company estimate that in this way they will be enabled to raise the tomatoes at a cost of approximately \$6 per ton. However, they will continue to take the farmers' product at the price of \$10 per ton.

Tomato Pack Light.
The tomato pack this year was very light. Two carloads were sent to Portland, 1,000 cases each were sold to local wholesalers and 750 cases were sent to Klamath Falls. The market on cider and canned apples promises to be good and it is the expectation of the managers to produce 10 or more car loads of those products. They are paying a price of \$6.50 per ton for cider apples, which price has been agreed upon by the Medford and Talent canneries.

Other packs for the season include 500 cases of pumpkin, 2,000 cases of beans, 500 cases of cherries, 2,000 gallons of loganberry juice and 400 cases of pears.

In the cannery from 50 to 60 people are employed, the weekly payroll amounting to over \$400. Next year it is expected that two shifts will be run, employing over 100 persons.

The plant is modern in every respect, the cans not being touched from the time they are filled until they are stacked ready for packing in the cases.

Plant Is Most Modern.
Tomatoes are received on the outside platform where they are placed on a moving belt and sorted, the first grade going into a solid pack and the second grade going into the makeup of pures. After being sorted the tomatoes are scalded in large wire baskets hung in a vat of boiling water. They are then put upon another conveyor belt, which carries them to the crew of women, who receive them in porcelain lined sinks and there peel them. As each tomato is finished, it is put on the conveyor, which carries it to the fillers. Still another belt takes the can into the heater from which it goes to a machine, which automatically places the caps on the cans. From this machine the can is carried through the cooker, where it is treated by both hot water and superheated steam, finally emerging into a cooling vat from which it rolls down a long incline to be stacked.

In the receiving room are stacked tier after tier of filled cans higher than a man's head until it seems as though enough are there to feed the entire West, and yet the amount represents only the tail end of one-third a normal season's pack.

RAID SEATTLE LIQUOR JOINTS

SEATTLE, Wash., Oct. 11.—The police raids on liquor joints in the south end of town last night and today followed an address delivered last night at the Young Men's Christian association by Police Sergeant V. R. Putnam, who told an audience that a carload of liquor had been shipped into Seattle yesterday morning and distributed. It is alleged by the police that former policeman E. J. Margrett, who was arrested today, is at the head of one of three rings of liquor importers operating in Seattle. Margrett is held on an open charge. On his person were found \$2,500 cash and papers showing large transactions with a San Francisco wholesale liquor house. Among the papers was a bill for 200 cases of whiskey shipped from San Francisco October 3, and which apparently has not yet reached Seattle.

S. G. Lindon, professional bondsman for women arrested on charges of disorderly conduct, was arrested last night and held on an open charge. Sewed in his clothing the police found \$1,000.

CAPTAIN HALL DEAD OF INJURIES IN JITNEY FALL

Captain Jasper N. Hall, father of Court Hall of this city, died at Sacred Heart hospital last night, the indirect cause of death being injuries received when he was thrown from a jitney during fair week.

Captain Hall was born near Urbana, O., October 1, 1835.

Captain Hall, who was an officer in the 113th regiment, O. V. I., was taken prisoner at the battle of Chickamauga, September 20, 1863, and was confined in both Andersonville and Libby prisons. While confined in these prisons he made three attempts to escape, being captured and returned to prison each time.

In 1880 Captain Hall wrote a history of his war time experiences, entitled, "Our Knosovok." The book enjoyed a large sale and only a few copies can be had at the present time.

In 1887 Captain Hall came to Oregon and settled at Myrtle Creek. In 1889 he returned to Dayton, O., to take an official position at the Dayton Military Home, which position he held until 1906, when he retired to private life. July 5, 1916, he returned to Medford to make his home with his son, Court Hall.

Captain Hall was a well-educated man and for many years taught school in both Jackson and Douglas counties. He also had charge of the Indian school at Klamath agency.

Funeral services will be held at the Weeks & McGowan chapel Thursday afternoon at 3 p. m., Rev. Hamilton officiating. Interment will be in the L. O. O. F. cemetery, Medford.

COUNCIL DISCUSSES REBONDING PROBLEM

The city council met in special session last night and discussed the plans of both Koehler Bros. and Howard A. Hansen, former counsel of the city of Seattle, for the solution of the paving problem. An entire new start will be made, it was announced, but no promises were made as to when action might be expected. The 50-50 plan is the only measure now being considered by the council, although the Medynski plan will again be presented to the people, probably at a special election held early in January.

The problem was talked over in closed session, the council filing out of the recorder's office only to adjourn until next Monday night.

Women Once Invalids

Now in Good Health Through Use of Lydia E. Pinkham's Vegetable Compound. Say it is Household Necessity. Doctor Called it a Miracle.

All women ought to know the wonderful effects of taking Lydia E. Pinkham's Vegetable Compound even on those who seem hopelessly ill. Here are three actual cases:

Harrisburg, Penn.—"When I was single I suffered a great deal from female weakness because my work compelled me to stand all day. I took Lydia E. Pinkham's Vegetable Compound for that and was made stronger by its use. After I was married I took the Compound again for a female trouble and after three months I passed what the doctor called a growth. He said it was a miracle that it came away as one generally goes under the knife to have them removed. I never want to be without your Compound in the house."—Mrs. FRANK KNOLL, 1942 Fulton St., Harrisburg, Penn.

Hardly Able to Move.
Albert Lea, Minn.—"For about a year I had sharp pains across my back and hips and was hardly able to move around the house. My head would ache and I was dizzy and had no appetite. After taking Lydia E. Pinkham's Vegetable Compound and Liver Pills, I am feeling stronger than for years. I have a little boy eight months old and am doing my work all alone. I would not be without your remedies in the house as there are none like them."—Mrs. F. E. YOST, 911 Water St., Albert Lea, Minn.

Three Doctors Gave Her Up.

Pittsburg, Penn.—"Your medicine has helped me wonderfully. When I was a girl 18 years old I was always sickly and delicate and suffered from irregularities. Three doctors gave me up and said I would go into consumption. I took Lydia E. Pinkham's Vegetable Compound and with the third bottle began to feel better. I soon became regular and I got strong and shortly after I was married. Now I have two nice stout healthy children and am able to work hard every day."—Mrs. CLEMENSINA DEKRAUSE, 24 Gardner St., Troy Hill, Pittsburg, Penn.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice.—It will be confidential.

CHAMBERLAIN OUTLINES ISSUES OF CAMPAIGN

(Continued From Page One.)
The declaration of the republican campaigner that President Wilson had been coerced into the framing of the bill was shattered when Chamberlain explained that not a railroad man or employe was in Washington at the time; that the situation was considered from every angle by the president in a conference with the steering committee of the senate, of which committee Senator Chamberlain was a member. Hughes, he declared, at first denounced the measure, but later, the senator declared, has come out in favor of the eight-hour principle following the adoption of the eight-hour day with increased wage by some of the largest industrial establishments in the country.

Other measures passed by the administration and treated by the senator were those for the election of senators by direct vote, the federal road building act, the parcels post act, the rural credits law and the appointment of the tariff commission, which he declared had taken the strength from the principal plank in the republican platform.

Objects of Administration.
It is the declared purpose of Hughes, continued the senator, to wipe out all this legislation, if the reins of government are placed in his hands, but this the people will not stand for. The forces behind Hughes, he stated, were the reactionary interests of Wall street, who oppose progressive legislation and seek exploitation of Mexico as well as of the people.

The great constructive measures enacted had been promised by political parties for many years, but it remained for President Wilson to force their passage as laws. The child labor law was cited as an instance and the farm loan act as another.

Speaking of the attitude taken by President Wilson in his treatment of international complications, the position of the United States in regard to Mexico and the belligerent nations across the water was defined.

"This country," he said, "must be in a position at the end of hostilities to help others, to lend up the wounds of war, and when peace comes on the horizon to act as arbitrator. It is not for us to mingle in the strife, but to stand to the side where we may be of more service to others and at the same time be of more benefit to ourselves. The president has kept us out of war during these last four trying years,

and if it is your pleasure to again return him to the white house he will keep us out of war the next four years."

Mexican Situation.
Intervention in Mexico was shown to be the desire of the moneyed interests and not of the people, that this country should not mingle in Mexico's family quarrel and that the sacrifice of thousands of America's young men could not atone for the loss of a few lives on the border. The same line of reasoning applies to the Lusitania incident. War was not the desire of the people, and reparation was demanded and made to the families of those who were lost.

The Golden Special.
Oregon women, declared the senator, will not be misled by the cruise of the Golden Special, will not be subjected to advice from women who come from a state where women are denied the ballot. The personnel of the crew of the special were shown to be the exponents of wealth and privilege, who, in spite of their wealth, are not as well versed upon the issues of the day as the Oregon mother who has an opportunity of reading of public events only after she returns to her room at night.

"Women of this country," concluded the senator, "will vote for Wilson that he may carry out for four more years his policy of peace. And of the women of this country I have no doubt, they, too, as a part of this great country, will do their part in returning to the white house our beloved President Wilson."

NO SUBMARINE LURKING OFF SAVANNAH HARBOR
SAVANNAH, Ga., Oct. 11.—Reports of a submarine lurking outside the harbor failed to materialize today and were discredited by shipping men. The British steamer Nova cleared during the morning.

NEW PRESIDENT FIRST NATIONAL BANK ELECTED

The board of directors of the First National bank announces to its patrons and friends what it considers a valuable addition to its executive staff and to Medford's financial circles.

William G. Tait, a banker of some

twenty years' experience, the last ten in Washington and Oregon, has purchased a substantial interest in the institution and has been elected president and manager.

This addition to the bank's already efficient force—M. L. Alford as cashier, Oris Crawford and H. S. Deuel as assistant cashiers—the board feels, gives the banking house a force of unusual strength and efficiency. Mr. Tait is thoroughly familiar with banking in all its details and until about one year ago was president and principal owner of the First National bank of Tillamook, Or.

Jack Harvey was a business visitor in the city Tuesday from Grants Pass.

SOME cigars might blush to tell you their family history. The OWL publishes its history gladly, because the more you know about the OWL, the better you like it.

A Distinctive Reason

What is the chief reason for the superiority of Royal Baking Powder?

There are several good reasons, but there is one which distinguishes Royal from other baking powders.

This reason, which every woman should know, is that Royal Baking Powder is made from cream of tartar, which comes from grapes. This means a healthful fruit origin. It means natural food as distinguished from mineral substitutes used in other baking powders.

There is no alum nor phosphate in Royal Baking Powder.

An Inside Bath Makes You Look and Feel Fresh

says a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

GIM CHUNG China Herb Store

Herb cures for Earache, Headache, Catarrh, Diphtheria, Sore Throat, Lung Trouble, Cancer, Kidney Trouble, Stomach Trouble, Heart Trouble, Chills and Fever, Cramps, Coughs, Poor Circulation, Carbuncles, Tumors, Caked Breast, Cures of all kinds of Goitres—No Operation.

To Whom It May Concern: I am free from rheumatism. You can be the same by taking treatments from Gim Chung, the herb doctor. My rheumatism was so bad that it made me so weak that I could scarcely get up when I was down and the pain I suffered one could hardly know unless one had the same disease. I was truly dissatisfied and disgusted with life in my condition and trying to live. Now to my friends that care to be cured and would like to be free, try the herb doctor. He can certainly relieve in a very short time. Very truly yours, MRS. M. L. KOLE.
