ASHLAND AND VICINITY

Rev. M. C. Reed, local resident, but who serves as pastor of the Methodist church at Talent, has added accomplishments of playwright to those of preacher and business occupation of realty agent. He is now reviewing and placing the finishing touches on a play incorporating some startling situations in addition to melodramatic phases. The plot is laid "somewhere in the United States," and the manuscript introduces a number of novel features which it is safe to assume will pass the censorship. The initial presentation will be by the young people at Talent, though authors' copyrights does not preclude the possibility of the attraction being staged in adjacent towns also. Some time during the autumn or winter months.

ACIDS IN THE SYSTEM

Acids accumulating in the system in excess, poison the blood and cause a great variety of diseases, affecting the skin and other mucous surfaces, the heart and arteries, brain and general nervous system, joints and muscles. Some of these diseases are Rheumatism in its many forms, Catarrh, Eczema, Hives, itching and burning of the skin, dizziness, mental depression and a variety of other ailments. You must eliminate the acid from your system and purify your blood before you can be rid of your trouble. S. S. S. has been purifying and nourishing the blood for over half a century. It is also a very efficient tonic and being purely vegetable, it is the most efficient agent known in the cleansing of the blood, and toning up of the system. Call for it at your druggists and don't accept a substitute. If special medical advice is desired write Medical Department 93, Swift Specific Co., Atlanta, Ga.

is also clerk of the First Christian church, one of the leading denominations of that Washington town. Johnny Whipple of Medford, wanted on a charge of fracturing the liquor laws, was arrested here on Monday and turned over to the police authorities of that city. Mrs. Sherman Hayes of Independence, a sister of Mrs. Geo. W. Dunn, arrived Tuesday for a visit with the Dunn family. Edgar Sheldon, son of Miles Sheldon of this city, is now with the Royal Mail Line. His ship is the "Mallia," plying between San Francisco and Wellington, New Zealand, in the fruit and coconut trade, stopping at American, English and French ports among the South Pacific group of islands. Edgar writes his father that he has a good job at \$45 per month and his "keep," and is going to stick to it until he secures command of a vessel. It takes 22 days to make the trip one way. Edgar has not been in Ashland for four years.

The bid promise to be notified in Ashland at an early date, notably in regard to several important realty deals which are pending, developments to be forthcoming within a few days. In selling out his Ford agency in this city, it is conceded that F. L. Camps will align himself with the same interests on a bigger scale and in a larger town. L. Hall, of Armadillo, Texas, bought Camps' agency here. George Robin, chief of the fire department, is taking a fifteen day vacation. In the meantime Russell Chaney is substitute on the force. Specifically, the Ashland school budget calls for \$44,225 the forthcoming year, the amount called for by taxation being \$27,758. The balance is available from various apportionments. Teachers' compensation requires \$28,275, and redemption of bonds and payment of interest, \$6,250. A. F. Hunt is still engaged in transporting fruit from this center to Yreka and intermediate points. He uses an auto as a common carrier and loads a cargo of 1400 pounds at a trip, which is made by the way of Montague.

Poison is being scattered broadcast in several localities, presumably on the trail of dogs. To the ordinary toxic doses has been added powdered glass as a chaser, according to an analysis made of the deadly chemicals. Jim Ferguson has resumed a position at the roundhouse in local railroad yards. With the opening of the Grants Pass sugar factory great rivalry is manifest among commercial organizations in regard to obtaining the first sack. There's a cozy corner at the new commercial club headquarters here where a generous sample might be exhibited to great advantage. Percy Grisez, a former jitney driver here, now engaged in a similar capacity on the run from Yreka to Montague, was recently fined \$25 for accepting 50 cents as fare from a passenger, instead of collecting 75 cents, the regular rate as fixed by Yreka city ordinance. A detective figured in the trip as a casual passenger. Grisez pleaded guilty. An inept blaze at the home of C. H. Gillette, city recorder, on High street, early Monday evening, called out the fire department. The cause was roofing composition boiling over kettle blights on the family cook-stove. Slight damage resulted. Mrs. Mary A. Donahue, of Chehalis, died in this city last Sunday. She came to Ashland some time ago for a change of scene on account of failing health conditions. Her remains were taken to Chehalis on Monday evening, accompanied by her husband. Henry Miller, of the Miller & Lux corporation, the name of which firm is a household word throughout this territory as stock dealers and land investors, died in San Francisco recently at the age of 90 years. His partner, Charles Lux, died years ago. Hi Evans left for Placerville, Cal., and vicinity on Wednesday of this week to visit relatives and may remain indefinitely. Robert van Buskirk accompanied him. Mr. Evans was a former mayor of this city. He is in feeble health and makes the change for a social visit and change of climate. A son has been born to Mr. and Mrs. Beck Bellett of Yreka. Beck formerly resided here and is a son of Harry Bellett of Medford. H. T. Wyatt died in this city October 15. He was a native of Indiana and 72 years of age. He was a widower, the father of 12 children.

11 of whom are living. One son is in China, and three sons and two daughters reside here. Funeral services were held on Wednesday this week at the home of his son, Lewis, on A street. Interment was at Talent in Street's cemetery. For years Mr. Wyatt followed mining and ranching west of Ashland in the territory near what is now Frederick station. James Yoe leaves this week for Marshfield to investigate opportunities of establishing a barber shop in that city. Mrs. Agnes Herndon has returned from a visit with her son, Goldie, at Seattle, also visiting her, Walter and John, the former living at Springfield and the latter near that city. George W. Kennard and his daughter, Charlotte, left on Wednesday of this week for their new home in Virginia. J. M. Rennie, traveling man, whose home is at Eugene, was here early in the week. His wife has been visiting in Ashland for some time past. A freak of nature is to be seen in Al Kinney's garden on Granite street in the way of an exemplification of rotation of crops. A prolific squash vine has taken possession of a large trellis devoted to clambering berry growths, with the result that clusters of fine squash are to be seen ripening under ideal conditions in the autumn sun, the specimens being suspended about five feet from the ground, some of them weighing 10 pounds. Ray Murphy of this city won the cowboy relay race on the last day of the Albany round-up, but even this victory was not sufficient to clinch the honors in that event for the three-day trials. Scoop Martin of Dayton, Wash., took the first prize of \$150. Eighteen men students of O. A. C. at Corvallis have signed up, not for positions on the football squad, but to develop all their latent energies in pursuing a thorough course in domestic science.

WHY?
NOW TIME TO TRADE
I have a 160-acre stock ranch; good location; 100 acres in grain; some alfalfa. This place recently sold for \$12,000; no incumbrance. Will trade for good orchard, prefer pears, or would take city property. Would trade even or assume some incumbrance on orchard proposition.
