FATAL HERO WORSHIP

FOR many years the Portland Oregonian has belabored, belittled and besmirched Gifford Pinchot on account of the latter's construction policy. Mr. Pinchot is one of Roosevelt's blind hero-worshippers and has followed the Colonel into the Hughes fold, and is sincerely supporting the latter. The Oregonian is therefore joyously acclaiming the greatness of Pinchot, with characteristic campaign hypocrisy.

The Oregonian is the recognized organ of the power trust, as well as of other branches of plutocracy, now in full cry for Hughes. Its tall tower is a citadel of privilege and its policy the loot of the public domain by special interests. It has nothing in common with Mr. Pinchot or the policies which have become identified with his name, all of which are repugnant to plutocracy.

A few years ago Mr. Pinchot, also upon Mr. Roosevelt's recommendation, campaigned for William Howard Taft as he is now campaigning for Hughes. Only a little while after the election Mr. Pinchot was forced to resign as chief of the bureau of forestry and the Ballinger scandal broke over the loot of the public domain.

The same crowd that controlled the Taft administration and repudiated Pinchot are still in control of the republican party. There is every reason why the Oregonian should support Hughes—there is no valid reason why any believer in conservation should. Wall street doesn't believe in conservation—and Wall street is financing the Hughes campaign, according to Mr. Pinchot's brother. Mr. Pinchot and his policies will be pigeonholed in case of Hughes' election.

The men who nominated Mr. Hughes are the same men who nominated and renominated Mr. Taft. They are the same men who controlled congress when Mr. Taft was president. The list of republican candidates for congress is a roll call of the old guard. The stand-pat Tories are lined up to a man for Hughes. They will shape and control legislation if Mr. Hughes is elected—and the Oregonian knows it and wants it.

It is true that Mr. Hughes, as governor of New York, fought invisible government, but invisible government triumphed and Mr. Hughes had to give up the fight. He proved that he did not have leadership capacity to rout it. Special interests controlled, as they will in case of his election to the presidency. If he could not master the partnership between special privilege and politics as governor—he will not be able to as president.

As president, Mr. Wilson has destroyed invisible government in Washington, routed the lobby and emancipated the people from the rule of special privilege. Mr. Hughes, after two terms as governor in New York, left the system intact, and it still governs the Empire state.

If Mr. Hughes were president, the reactionary republicans would wreck his administration as they wrecked Taft's, and as they wrecked his own in New York, for the old guard will boss the job. And in the debris will be the conservation policies of Gifford Pinchot.

Hero worship is leading Mr. Pinchot into the dismal swamp.

TWO CUPS NOT ENOUGH

COLONEL ROOSEVELT is proving himself a true disciple of Bernhardi, advocating war for war's sake. Each speech is more bloodthirsty than the last. The Colonel wants war, not only with Germany, but with Mexico and every one else.

A dispatch from El Paso reads as follows: "Villa drinks every morning, a refugee reports, two cups of blood, hot from freshly slaughtered bulls to give him the strength and ferocity of such animals."

The Colonel has many characteristics in common with Villa, and evidently is indulging in the same diet—though two cups were never enough for Terrible Teddy—it is doubtful if even a third would satisfy—he is evidently drinking a bucket of blood before breakfast.

ITALIAN CAVALRY FROM ALBANIA JOIN THE ALLIES

PARIS, Oct. 25.—Italian cavalry from Southern Albania formed a junction yesterday with cavalry and artillery from the entente forces on the Macedonian front, the war office announced today.

Italian forces occupied the Albanian seaport of Aolona before Italy entered the war against Austria. No further operations of consequence were undertaken by the Italians for some time, but in the last few months there have been occasional reports that reinforcements were being sent to Albania and that Italian detachments were pushing their way eastward. Southern Albania is regarded by Greece as within its sphere of influence and towns in this region have been under control of Greek officers. The Greek representatives were required to withdraw from the towns taken over by the Italians.

There has been no accurate information heretofore as to the extent of the Italian advance, but it is evident from today's French announcement that this movement, as well as the extension westward of the Macedonian front, has been carried forward more rapidly than previous advances had indicated. The entente allies now have an unbroken front across the Balkan peninsula from the Aegean sea to the mouth of the Struma river, to the Adriatic at Avlona, a distance of 750 miles.

STUDENTS STAGE PAJAMA PARADE

Three hundred high school students will take part in a pajama parade through the downtown streets Friday night at 8 o'clock. Following the parade a bonfire rally will be held with members of the alumni, prominent townsmen and members of the team speaking. An effort is being made to get permission to hold the rally on Haymarket square.

Interest in the game with Klamath Falls on the home grounds Saturday is reaching a high pitch, over 200 tickets being already sold. It is now thought that Medford has an even chance for winning the game, two freshmen, Leigh Stringfellow and Russell Sherwood having been given positions on the first squad. If Klamath Falls takes the games with Medford she will take the Southern Oregon championship. In event she defeats Ashland tomorrow and does not defeat Medford the following Saturday, the Klamath and Medford teams will be tied for the championship.

Last night the first and second teams played a hard game together. Recent showings have forced coach Kilm to decide on an entire rearrangement of the team for the coming game.

PAROLE IS ASKED FOR M'NAMARA, TIMES DYNAMITER

SAN FRANCISCO, Oct. 25.—Parole for John J. McNamara, who was involved in the dynamiting of the Los Angeles Times building in 1910, probably will be asked Saturday from the state board of prison directors.

McNamara, although indicted and put on trial for murder in connection with the Times dynamiting, eventually pleaded guilty to dynamiting the Llewellyn iron works in Los Angeles and was sentenced to fifteen years in prison with allowances for good behavior. His time is now half up.

Warden James Johnston of San Quentin prison said today that McNamara had inquired as to his eligibility to parole and had been directed to file his petition with the board.

The International Association of Bridge and Structural Iron Workers and Local 22, its Indianapolis body, have sent to all California labor bodies a request that McNamara's application be endorsed. He is still in good standing in his union, and the Indianapolis letter says it is felt to be the "duty" of the California labor organizations to assist him.

"We would like to make it plain that this letter emanates from the local union, of which Brother McNamara has been for years and still is an honored member," the Indianapolis union wrote. "We feel strongly that it would be a beautiful thing for his home local to take the preliminary steps in the campaign for his release."

"While a continent divides us, we feel that the toilers of the Pacific coast are actuated by the same high ideals, cherish the same hopes and aspirations, and stand ready to answer our plea in no uncertain manner."

COTTON HIGHEST SINCE CIVIL WAR

NEW YORK, Oct. 25.—Cotton in the futures market sold today above 20 cents a pound, the May option rising 23 points to 20.91, the highest price it has touched since the civil war.

The advance carried prices \$7.00 a bale above the low level of last Wednesday. The strength in the late trading yesterday seemed to attract many overnight buying orders and the demand was further stimulated by the census report on ginning to October 18. Few traders had anticipated that the output would amount to less than 7,500,000 bales, but the official figures placing the total at 7,291,000 bales seemed to increase the confidence in bullish estimates of the crop.

A sensational break in the cotton market today carried prices down \$4.50 a bale after an early advance to above the 20 cent level.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards' produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "back brown mouth" now and then—a bad breath—a dull, tired, feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them, 10c and 25c per box. All druggists.

KEEL IS LAID OF SUPER DREADNAUGAT AT MARE ISLAND

SAN FRANCISCO, Oct. 25.—The battleship Oregon, built on the Pacific coast many years ago, was the guest of honor today at the keel laying of the superdreadnaught California at Mare Island navy yard.

The Oregon, carrying the California congressional delegation, headed by Senator James D. Pugh, with some 800 civilian guests, left San Francisco early today and headed up San Pablo bay.

Captain Frank M. Bennett, commandant, welcomed the visitors at Mare Island. The town of Vallejo, directly across a narrow channel from the navy yard, took a general holiday and most of the inhabitants were on hand to attend the keel laying ceremonies. These centered about the driving of the first rivet. Congressmen Charles F. Curry of Sacramento held the tongs which held the rivet. It was passed to him by Mayor G. G. Russell of Napa, from Mayor W. L. Crooks of Benicia, who heated it, and Mayor James Rooney of Vallejo drove it into place. The hammer he used was presented by Senator Phelan to Naval Constructor Henry M. Gleason.

The California should be ready for launching January 1, 1918, and in commission the following year. She will have a displacement of 32,000 tons, a speed of twenty-one knots, and will carry 58 officers and 1022 men.

RENEWED ACTIVITY EXPECTED IN MEXICO

COLUMBUS, N. M., Oct. 25.—Heavy shipments of entrenching tools, picks, shovels, crowbars and sandbags have arrived here. It is said they are for the use of the punitive expedition in Mexico. Officers take the shipments as an indication of a possible renewal of activity in the field.

CLEANSER YOUR HAIR, MAKES IT BEAUTIFUL, THICK, GLOSSY, WAVY

Try This! All Dandruff Disappears and Hair Stops Coming Out.

Surely try a "Danderine Hair Cleanser" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy, and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.—(Adv.)

TIGHTEN GRIP ON RUMANIA (Continued From Page One).

the campaign against Rumania, but appear confident that all will come in due time.

With the capture of Constanza, the Rumanians lost their principal seaport, while the taking of Medjidie and Rasheva now places Tchernavoda in a critical position, and, in military opinion here, threatens Rumania more than ever.

Comes as Climax.

The capture of Proedol comes as a climax to the recent lowering of a number of important mountain passes from Transylvania into Rumania, so that the central powers appear to be nearly in a position to swoop down upon the Rumanian plains and attack the heart of the country.

Proedol and the passes behind it spell the loss to Rumania of its natural western fortifications formed by the mountains of Transylvania, Medjidie and Rasheva; if they lead to the capture of Tchernavoda, denote with Turtulcar and Silistria, the removal of the artificial barriers. To access into Rumania across its other natural fortification, the Danube river.
