ASHLAND AND VICINITY

The big rooming house on Fourth street has been sold by Sam Potter to Mrs. Belle Butcher of Gazley, Or. who is now in possession. The building is of concrete, 50x100 feet, with seventeen finished rooms upstairs and abundant space on first floor. The consideration was a favorable one. O. L. Young negotiated the deal. There will be a normal school meeting on a campaign scale in this city Wednesday evening, November 1, when this vital topic will be discussed to the exclusion of all others. Several

JUST ON THE BORDER!!
THOUSANDS OF PEOPLE ARE "JUST ON THE BORDER" of bad health, a crisis which, unless speedily and effectively averted will throw them into a long conflict with disease. Behind the largest per cent. of physical breakdowns, BAD BLOOD will be found embushed. You can not reach and overcome this outlaw of your system with ordinary medicinal ammunition. You must hunt him down and get him hand to hand with S.S.S., a POWERFUL CLEANSER OF THE BLOOD. Write for our FREE books on Blood and Skin Diseases and our Medical Advisory Department for advice. GLASS OF SALTS IF YOUR KIDNEYS HURT

Eat less meat if you feel Backachy or have Bladder trouble—Salts fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush of the body's urinous waste about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

Boyd Tucker stayed several days

Bertelson are on the ground in charge of the work. The Rainer vein was thought by the examining engineers to promise some wonderful possibilities and much attention will be given it.

With the thirty-8x claims, 730 acres, comprising what is locally known as the Utah quicksilver group, under heavy development, and the strong financial people behind the reported purchase of the Mountain King mine, where 1200 acres are involved, the promise of mining in the Meadows is most flattering.

Misses Viola and Thelma Wylaud have gone to Agate to attend high school. They are living with the Kincaid family there.

Misses Violet and Zelde Mayfield are going to Central Point for school the coming week.

The Moore family have gone to the valley, having secured a good ranch lease east of Medford. Lane Wylaud, who bought their old place from Bill Cottrell, is making some marked improvements in way of new fences, etc. Lane is a good farmer.

Dave and Bill Cottrell are up at the Sky ranch rounding up some of their beef, and also such few deer as the law allows, this week.

Miss Vera Mitchell has so far recovered she has started to school to finish the term.

Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast as the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.

AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Weyth's Sage and Sulphur Compound." You will get a large bottle of this old time recipe improved by the addition of other ingredients for about 50 cents. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy, and you look years younger. Weyth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.
