MAMMA! DON'T YOU SEE YOUR CHILD IS SICK, CONSTIPATED

Look at Tongue! Move Poisons From Liver and Bowels at Once.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, bad breath, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food, which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company," (Adv.)

Advertise With Electric Signs

The best way to prove the value of advertising is to use the right kind of publicity—

With an **Electric Sign** you can tell the public who you are, where you are and what you have to sell—

Good advertising easily overcomes a bad location—

Electric Signs and show windows are most attractive at night, because then the people on the streets are less hurried and are in a receptive mood—

What they see makes a deep impression and lingers in their memory.

Up-to-date merchants realize this and keep their Electric Signs and windows lighted long after their stores are closed.

You can use 25 ten-watt lamps in sign or window for \$2.50 per month.
