

GOMPERS PRAISES FOREIGN POLICY OF PRESIDENT

BALTIMORE, Md., Nov. 12.—Secretary of Labor William B. Wilson delivered the principal address at the opening here today of the thirty-sixth annual convention of the American Federation of Labor. He said he was present for the purpose of showing which side he was on.

"The greatest of all the functions of the department of labor," said the secretary, "is that of having the hopes, aspirations, and philosophy of the wage-earners of the country come into the councils of the president of the United States."

Of the 300 disputes between labor and capital that had come before his department, Mr. Wilson said 275 had been settled in a manner satisfactory to both sides and before a strike had been reached.

President Samuel Gompers, in an address, declared that in the relations between the United States and Mexico, the American Federation of Labor had a part in counselling the Mexican workmen so that they might exert a steady influence upon the people and government of Mexico and that the exploiters of Wall street should not drive us into a position and anger and competition with our much weaker sister republic of Mexico.

This statement evoked long-continued applause.

"The situation was taken well in hand by the officials of our government," Mr. Gompers added, "and instead of declaring war with bluster, the aims and purposes of that diplomacy have accomplished all that a war could secure."

The passage by congress of the senator's act and the Clayton anti-trust law was vindicated by the people of the United States last Tuesday, Mr. Gompers declared.

TRAVELING MAN HELD IN JUAREZ

EL PASO, Tex., Nov. 12.—William Hs. a traveling man, who registered at a local hotel from New Orleans, and who disappeared on November 7, has been located in Juarez, where he is said to be held by the military authorities, a report made to the hotel management today stated. He, according to the report, was charged with having made statements against the Carranza government.

MONTANA FACING COAL SHORTAGE

HELENA, Mont., Nov. 12.—While the stocks of coal on hand at Helena have been very small, there has been no coal famine here, but reports to the public utilities commission today from Glasgow and Poplar said there was not a pound of coal at either town, and on account of the severe cold, the situation had to be relieved immediately. This is due to the failure of the Great Northern railroad to deliver cars of coal from the mines.

DRASTIC IMMIGRANT LAW, SOUTH AMERICA

BRUNOS ARIES, Argentina Nov. 12.—On the representations of the British, Italian, Dutch and Spanish ministers to the Argentine, the drastic restricting immigration to this country, which was to take effect this month, has been postponed for four months, which means until the new administration has had time to consider, and possibly repeal it. The decree, which was recently issued in these dispatches, was of a very drastic nature, aimed particularly against a possible influx of undesirable after the war.

HISTORIC SCENES IN OLD NEW ENGLAND

THE MOST FAMOUS ROAD IN AMERICA

The accompanying illustration is of the road from Lexington to Concord in Massachusetts. Over this road, now a fine state boulevard, the British regiment marched on the morning of April 19, 1775, after their movement of the colonists on Lexington Green, to Concord in search of the ammunition hidden there by the British colonists.

While the British searched for the stores of powder and shot, minutemen hastened from the surrounding country. A company of them gathered at the bridge over Concord river, and here Americans for the first time were ordered to fire on British troops. Defeated at the bridge, the British retreated over the road to Lexington.

The minute men attacked them from trees, fences, rocks and buildings, the whole distance to Lexington, where the British were joined by reinforcements and saved from complete destruction. The British lost 273 men in their retreat over the road, and the colonists 49.

This road is now a part of one of the fine state boulevards that extend from the Atlantic ocean to the New York state boundary and is attractive to tourists from all parts of the country, not only on account of its natural scenic beauty, but because of its historic associations as well.

RAILROAD HEARING IN SUPREME COURT

WASHINGTON, Nov. 12.—Further hearing of the New Haven railroad's application for permission to retain ownership and continue operations of its Long Island Sound steamers, despite the prohibition in the Panama canal act, was set today for December 14 in Washington by the interstate commerce commission.

Hearing of proposed western trunk line freight rate increases involving almost all west-bound trans-continental traffic, was fixed by the interstate commerce commission for December 2 at Kansas City Mo.

WASHINGTON, Nov. 12.—Re-arrangement was ordered today by the supreme court of cases testing the constitutionality of the Washington, New York, New Jersey and local workmen's compensation laws. No date was set for rehearing.

WASHINGTON, Nov. 12.—Chief Justice White today announced that the supreme court would recess for two weeks from November 20 to December 9, over the Thanksgiving holidays, with options and orders next Monday.

BRUNOS ARIES, Argentina Nov. 12.—On the representations of the British, Italian, Dutch and Spanish ministers to the Argentine, the drastic restricting immigration to this country, which was to take effect this month, has been postponed for four months, which means until the new administration has had time to consider, and possibly repeal it. The decree, which was recently issued in these dispatches, was of a very drastic nature, aimed particularly against a possible influx of undesirable after the war.

TALENT TALK

The hot lunch department is working its own way and is by far the most popular resort during the noon hour. About sixty are taking advantage of it every day. The department has been under the direction of Miss Curran during the past week and with her careful guidance has been placed on a paying basis. Twenty meals are sold for one dollar, and with sixty taking lunch every day, enough can be made to net the one in charge about fifty cents a day. This amount will enable the management to secure the services of an assistant, as the extra work is altogether too much to expect of Miss Curran, who now has her time taken up with other duties. During the past four days 226 meals have been served at a cost of \$9.28. This will net the department \$12.92 which amount will be used to secure much needed equipment for successfully managing the department.

The boys and girls have both organized basketball teams and work will begin at once. Harry Gleim will coach the boys while Miss Hazel Lova will coach the girls. Both coaches are experienced hall players and will undoubtedly do their part in producing good teams for the series of championship games to be held soon after the holidays.

The ones on the debating team are now looking up material regarding the interesting subject for discussion this year. Plans are under way.
