

NEW APPLIGATE LUMBER MILL BEING STAKED OUT

Shipping bills for five carloads of machinery for the new mill of the Appligate Lumber company were received this morning and officers of the company expect the machinery to arrive in Medford within a week. This morning also the plans for the mill were received, and today the site, lying to the west of the Trail Lumber company mill, is being staked out in preparation for the beginning of work next Monday by a large crew of men.

Business men who are interested in the creation of a payroll in the city, and have subscribed for stock in the new mill company, are asked by the company officials to pay up their subscriptions without delay, that money may be on hand for the payment of the freight on the machinery and for paying the men who will work in the erection of the plant. The company officials will be busy superintending the erection of the mill, and ask that the money be sent in without personal solicitation.

Work is well advanced in the preparations for shipping logs to the mill. It is thought that logs will be started rolling within three weeks.

"We are now engaged in perfecting our marketing organization," stated S. S. Bullis this morning. "I believe that within a short time our selling orders will enable us to operate the mill at top capacity, or 100,000 feet per day. This capacity would necessitate the employment of 200 men in the woods alone."

Conferences will be held next week with officials of the Ewanna Box factory of Klamath Falls, who will erect a factory in Medford and will take a large share of the output of the mill.

CLEARING GERMANS OUT OF AFRICA

LONDON, Nov. 18.—Further spirited fighting, the outcome of which was favorable to the British has taken place in the campaign for the clearing of German East Africa, according to an official announcement today.

After the recent attack by the Germans on Ngonini the bulk of their force, says the statement, moved southwest and invested a small British post at Malangshi, falling in three efforts to capture it. A British relief column arrived and defeated the besiegers, killing and capturing some of them and taking booty.

WILSON'S PLURALITY 3500

(Continued From Page One)

demand the rejection of the whole precinct. So far, however, no whole precinct has been thrown out.

Don't Need California.

The electoral college is required by statute to meet at Washington on the second Monday in January following the election of its members. This would give the California courts nearly a month and a half in which to determine the Los Angeles controversy and permit the issuance of the certificates of election to the California electors.

Even if California's vote were thrown out in its entirety, or the electors were not to be able to reach the meeting of the electoral college, it would not change the result of the election. Hughes, with the entire electoral vote of Minnesota would have but 255 votes, while Wilson without California would have 263 votes, which would still give him a majority of the college and insure his election by it.

VILLA SLAYS FOREIGNERS

ry Kuendig, Henry Sainmer, also of Santa Barbara, and August Gammending, who was located at a sub-station three miles from Parral. With him was thought to be an artist from Los Angeles named Schmoll. A French citizen is also thought to have been in Parral.

BERLIN, Nov. 17, via London, Nov. 18.—With reference to reports from the United States of the murder of Edgar Koehl, said to be German consul at Parral, Mex., it is stated here that there is no German consul of that name in Parral or elsewhere in Mexico.

HOOD RIVER, Or., Nov. 18.—A quarter-inch coating of sheet ice covered Hood River yesterday today, following an all-night drizzle of rain and sleet. Numerous narrow escapes from falls were reported by pedestrians. A silver thaw was believed threatening today by the precipitation and chilled condition of the earth.

GREATEST WARSHIP PASSES TALLEST BUILDING ON FIRST TRIP OUT

U.S.S. ARIZONA

The U. S. S. Arizona, mightiest battleship in the world, is shown here passing the world's tallest building, the Woolworth tower, in New York. The Arizona is passing under the Brooklyn bridge to enter the United States service for the first time. The ship is a superdreadnought, fitted with twelve fourteen-inch guns and can go twenty-one knots an hour. The contract price for hull and machinery was \$7,325,000, which would make its entire cost about \$12,000,000.

DISCRIMINATION IN RATES TO ALASKA

JUNEAU, Alaska, Nov. 18.—Charles Goldstein, a merchant of Juneau, was the principal witness yesterday in the inter-state commerce commission hearing on railroad and steamship rates to Alaska, conducted by H. C. Wilson, an agent of the commission. Goldstein said that \$7.50 to \$9 a ton was charged from United States interior points to Juneau, which rates included general merchandise from eastern and western cities to Juneau. He told of contracts with various steamship companies, whereby a special rate of \$4 a ton was made to canning and mining corporations, which conduct stores.

Witness said that he did not regard the higher rate as unjust, although he thought it "pretty stiff," but an equal rate was what he desired, and the discrimination in favor of other corporations was unjust. Goldstein said that by reason of such lower rates the favored corporations undersold merchants and had caused him a personal loss of \$15,000 the past year. He said he was routing his eastern freight via the Grand Trunk lines because they were making it rate of \$4 a ton. By having his goods shipped via Vancouver and Prince Rupert he was saving more than \$3.50 a ton.

ASK INCREASE FOR CIVIL SERVICE LIST

BALTIMORE, Md., Nov. 18.—The convention of the American Federation of Labor today adopted a resolution instructing its president and executive council to endeavor to have congress enact a law granting to all government employees in the classified civil service a horizontal increase in salaries of at least \$200 a year.

The resolution declared "that it is now almost impossible for a classified civil service employee to support himself and family on the wages paid by the United States."

Several hundred delegates will be received at the white house by President Wilson at five o'clock.

PORTLAND ATTORNEY GUILTY OF FRAUD

PORTLAND, Or., Nov. 18.—W. J. Probst, a Portland attorney, was found guilty by a jury in a federal court here last night of using the mails to defraud. The jury's verdict was returned sealed and was not read until today.

Government attorneys claimed he netted over \$1,000 from Portland victims by collecting rents in a fraudulent credit system by making threats through the mails. Probst's wife, who was in the courtroom, fainted when the verdict was read.

GERMANY IN GRIP OF SEVERE WINTER

LONDON, Nov. 18.—Germany is in the grip of winter, the Exchange Telegraph company's Berlin correspondent reports. Several trains from Berlin are stopped near the East Prussian frontier, where extreme cold prevails.

YALE DEFEATS PRINCETON; BROWN DOWNS HARVARD

PRINCETON, Nov. 18.—Yale showed what was in her today and defeated Princeton in their annual game in the Palmer stadium today by a score of 10 to 0. A field goal by Braden, touchdown by Lapore and goal from touchdown by Conover represented Yale's ten points. The first two periods of the game were poorly played, each team missing good chances to score on drop-kicks. In the last two periods Yale showed that she had the power. The largest crowd that ever saw a game in Princeton witnessed the contest.

CAMBRIDGE, Mass., Nov. 18.—

Brown defeated Harvard today 21 to 0, its first victory over a Crimson football team. The individual prowess of the Brownians' negro back, Pollard, was largely responsible for their victory, as he scored two touchdowns and made the third possible by brilliant running. The Harvard team was largely composed of substitutes, but several of the players had figured prominently in earlier games of the season.

Harvard made its most effective rushing attempt of the game in the final period and after forwarding the ball 40 yards Pollard intercepted a pass on his 22-yard line and ran 17 yards through short rushes. Another run by Pollard netted 40 yards, carrying the ball to within two yards of the goal. Purdy made the touchdown and Devitalis the goal. Both teams tried forward passes unavailingly in the closing moments of play.

Frank Preston has returned from a business trip to San Francisco.

MORE PACKAGES TONIGHT'S ACUTION

Twenty-five additional packages arrived this morning and will be auctioned tonight at the bazaar being given for the benefit of St. Mary's academy in the Cuthbert building. Among the packages to be sold are one from Mrs. Woodrow Wilson and one from Charles Evans Hughes.

This noon a turkey dinner was given, a large number of people attending. Last night the feature was progressive 500, with Mrs. Burkland and Mrs. John Wilkerson acting as hostesses. Another feature of last night's program was the musical program with a song by Winifred Chaney and a duet by Gene Steel and Neva Samuels.

Tonight is the last of the bazaar, and a large attendance is expected.

Doubly Attractive

Natural hair is always attractive but it becomes doubly so when it is abundant and well cared for.

Besides being a source of the greatest attractiveness and personal charm, nice clean hair is a badge of distinction. It indicates habits of cleanliness and the intelligent use of that best known scalp prophylactic, Newbro's Herpicide.

It stops itching—prevents falling hair. Guaranteed by THE HERPICIDE COMPANY, Dept. 149-B, Detroit, Mich.

Send ten cents for trial size bottle and booklet.

Sold everywhere.

Sturdiness

A big, husky carcass built up with extra plies of stoutest fabric—
An ample cushion of great resiliency that absorbs the road shocks—
A tough, road-gripping tread of durability way beyond the ordinary—
Easy riding, big mileage and a low price—

That sums up the Savage Tire. And the Savage Grodite Tube is its best running mate.

Errors Are Ancient History

Error-proof bookkeeping is just as necessary for the protection of your money on deposit with us as is a modern burglar-proof safe.

The Burroughs Bookkeeping Machine which we have recently installed, handles our figure work with absolute accuracy. Its calculations are done by parts of hardened steel—it can't make a mistake.

The operator feeds the figures into the machine, which makes all additions and subtractions automatically. A completely posted ledger sheet or depositor's statement, with every item printed in the proper column, comes out.

An absolute and automatic proof of every entry is given by the machine method. There is no danger of a mistake being made in your account, or in the account of any other of our depositors.

Besides affording this accuracy insurance to you and to us, the Burroughs handles our figure work in about half the time formerly needed. This gives us time to do other things—to improve our service to customers in every department of the bank.

Come in, any time, and see the Bookkeeping Machine at work.
