

# VINING ADDRESSES ELKS IN BEHALF OF BIG BROTHER IDEA

Pleasure and profit to an uncommon degree were combined in the meeting addressed last night by Professor Irving Vining of Ashland. The beautiful hall of the Elks Temple was filled with fathers and mothers and young people. The first half hour was devoted to music, Mr. Root's wonderful orchestra of boys giving a splendid account of themselves in selections from the "Bohemian Girl," and the "Tales from Hoffman." Miss Geraldine Theiss sang with fine interpretive ability and artistic finish, and Master Riley Davis as violin soloist was loudly applauded. This little fellow bids fair to make a violinist much above the average, judging from his present attainment.

Professor Vining delivered his lecture on "Important Periods of Life." The speaker showed his appreciation of boy psychology by emphasizing at once the attention of a large number of boys in the audience with a striking story of a visit to a settlement house in the gas tank section of the East Side of New York City, and his discovery among those juvenile outlaws of society that underneath they have the same feelings, the same desires, the same springs of action as boys and girls reared in the average home, and that somewhere in their minds and hearts is a point where contact can be established between themselves and better things.

The speaker divided his subject into four periods, time limitations alone preventing his carrying the subject into any further divisions. The first period was made to cover from one to six years of age, the period of infancy. In this period there are two great mandates that should be fulfilled in every life, one that a child should never be taught to fear. The early natural faith and trust of the child should be encouraged and applied to everything, and those things which children are commonly taught to fear like reptiles and the dark they should be taught to look upon as something of which they are the masters.

The next period was that between six and eleven years of age. The 11-year old boy is the race child, he is not an individual, he is just one of the great mass. This period is the nature period, the Gipsy period. Some people never grow out of it and they become hoboes. Every boy of eleven likes to cook a meal in an oyster can, and to dig a cave, to hunt and fish, and to revel in nature. Following this wonderful age comes a new birth and another period, that from eleven to fourteen, sex development, the development of the individual consciousness. The subjective mind cleaver work on ten drums by John change in the body takes place and he grows like a weed. He begins to wonder what he is going to be like, and what he is going to grow up to be. The speaker's plea for sympathy with the boy's life, his interests and plans, and warning of the danger of shutting a boy out from this right, were made in a very telling and impressive manner.

The next period referred to was that on to 21 or 22, with school finished, confidence tested, and the great battle of life begun.

## YOU CAN'T FIND ANY DANDRUFF, AND HAIR STOPS COMING OUT

Save Your Hair! Make it Thick, Wavy, Glossy and Beautiful at Once.

Try as you will, after an application of Danderline, you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderline immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderline and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25-cent bottle of Knowlton's Danderline from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment. A 25-cent bottle will double the beauty of your hair.

A feature of the musical program was the playing of his own musical composition, "The Crater Lake March," by Mr. Root's orchestra of boys. It is a striking composition with a strain that strikes the ear pleasantly as something new and fresh in march music. The piece is full of spirit and action and with clever work on the drums by John Neff and a fine first violin lead. The piece was a great hit with the audience and was loudly cheered. It is a piece of march music that should prove a distinct contribution in its class and it has merit and originality enough in it to make its way to popular favor throughout the country.

## Local and Personal

F. M. McKeany spent Wednesday in Grants Pass attending to business matters.

Spider Leg Tea, 28c pound. Fouts Grocery Co.

Highest price paid for strictly fresh ranch eggs. Cafe Holland.

Fouts Grocery Co., the only strictly cash and no delivery grocery in Medford.

# COUNCIL PASSES DIMMING LAW FOR AUTOMOBILES

Two important ordinances were passed at their second and third readings by the city council in their regular mid-monthly session last night. The first of these relates to vehicle traffic within the corporate limits of Medford. The changes made in the ordinance, which repeals the former traffic rules, are that all vehicles, whether or not they are motor vehicles, which would include buggies, wagons and pushcarts in operation between sundown and sunrise, must carry a light, one only being necessary on other than motor vehicles providing it throws a white light to the front and a red light to the rear.

The ordinance also provides for the dimming of auto headlights, stating that they must be so fronted as not to blind, dazzle or confuse occupants of other vehicles or pedestrians. The maximum punishment for infraction is \$100 or 90 days in jail.

Another provision is for the establishment of a safety zone on the streets near public schools wherein the speed limit is ten miles per hour during school hours. These zones will be marked by signs.

Fire Prevention Law.

The second ordinance passed is a safety measure designed for the lowering of the fire loss within the city limits. It provides that all buildings within the city shall be inspected by the fire chief or some member of the department twice a year in the outlying districts and four times a year in the closets built section. This ordinance met with considerable opposition from Councilman Keene and Mayor Emerick who contended that the property owner should assume the responsibility of inspecting his own home. They objected to the additional expense which they considered the measure involved. Both, however, stated they would be glad to have their own homes inspected.

The measure was passed upon Fire Chief Lawton's explanation that the inspection will necessitate no additional expense, and said that the work is in line with modern fire department methods, that the chief should spend his time in the prevention of fire, not in waiting for fires to come and then put them out. The fire two weeks ago on Geneva street, he explained, would never have occurred had the fire place been inspected, as it was plainly defective.

Petitions Received.

A number of petitions were read.

## WOMAN AVOIDS OPERATION

Medicine Which Made Surgeon's Work Unnecessary.

Astoria, N. Y.—"For two years I was feeling ill and took all kinds of tonics. I was getting worse every day. I had chills, my head would ache, I was always tired, I could not walk straight because of the pain in my back and I had pains in my stomach. I went to a doctor and he said I must go under an operation, but I did not go. I read in the paper about Lydia E. Pinkham's Vegetable Compound and told my husband about it. I said 'I know nothing will help me but I will try this.' I found myself improving from the very first bottle, and in two weeks time I was able to sit down and eat a hearty breakfast with my husband, which I had not done for two years. I am now in the best of health and did not have the operation."—Mrs. JOHN A. KUMING, 502 Flushing Avenue, Astoria, N. Y.

Every one dreads the surgeon's knife and the operating table. Sometimes nothing else will do; but many times doctors say they are necessary when they are not. Letter after letter comes to the Pinkham Laboratory, telling how operations were avoided and were not performed; or, if performed, did no good, but Lydia E. Pinkham's Vegetable Compound was used and good health followed.

If you want advice write to Lydia E. Pinkham Medicine Co., confidential, Lynn, Mass.

For Thin, Nervous MEN AND WOMEN

nothing equals or compares with the rich food properties in

## SCOTT'S EMULSION

It makes other foods do good. It sharpens the appetite; stimulates the circulation and helps overcome catarrhal troubles. If you are rundown, anaemic or nervous, the benefits you will receive from Scott's Emulsion will surprise you.

Scott & Bowne, Bloumfield, N. J.

# G. O. P. SPENT \$925 IN ELECTION-SHERIFF RACE EXPENSIVE

According to a report filed with the county clerk Tuesday by County Chairman Bert Anderson, the total contributions were \$1099.25 and the total disbursements \$925.41 for the republican campaign in Jackson county. A balance of \$84.34 is now on hand.

The report shows that the county central committee received but \$109 from the state campaign fund, and that it came in the last days of the campaign. All the rest came from the rank and file of the party who gave for the cause of Charles Evans Hughes and represents sums ranging from \$25 to one dollar. Most of the donations were in amounts of \$5 and \$1. There were 174 contributions to the fund, including most of the county candidates.

Expense statements as filed by candidates are as follows: G. A. Gardner, county clerk, \$180.62; Chamney Florey, county recorder, \$69.75; Joe Beeman, county commissioner, \$9.45; W. H. Miller, county clerk, \$142.55; George W. Owen, county commissioner, \$4.75; J. B. Coleman, county assessor, \$39; Clint Gallatin, county assessor, \$146.25; E. W. Wilson, sheriff, \$222.47; R. G. Jennings, sheriff, \$233.70; J. S. Gerking, county recorder, \$14; G. W. Ager, county school superintendent, \$49.25.

Raymond Fish is working in a large orange grove in California, where he expects to remain for the winter.

Following the regular meeting, the council met in closed session with Colonel Howard A. Hanson to consider the budget for the coming year under the plan of financing the city worked out by Colonel Hanson. Tonight the council will discuss the plan

and referred to various committees for action. The Applegate Lumber Co. asked that the city water mains be extended to the city limits near the mill. From this point they will extend the main to the mill. They desire water for keeping up the level of their log pond and for supplying the boilers. They did not ask for free water, leaving that matter up to the city after intimating that it would be acceptable. They desire the water also for fire protection, stating that good protection will be one of the best inducements for the building of a box factory near the mill.

A petition was read from the Newtown bakery asking the city to bear half the expense of repairing their delivery car which bumped into a hydrant near the bakery. The hydrant, they claim, is situated in the center of the street and is a menace to traffic.

O. N. Wilson asked for a remittance of the fine of \$10 imposed for buying junk from minors. A street light was asked for the corner of Eighth and Peach streets.

O. C. Boggs presented his resignation as a member of the library board. The resignation was accepted and Mayor Emerick will appoint another member to fill the vacancy this week.

Light Contract Renewed.

City Electrician Hanson presented a communication to the council, advising a continuance of the present contract with the California-Oregon Power Co., which provides that the city shall receive a discount of 15 per cent of their current bill in return for making all replacements in the street lighting system. The replacements since December, 1915, have been made by the electrician and under the contract the city since that time effected a saving of \$847.50. It was decided to continue the contract.

Following the regular meeting, the council met in closed session with Colonel Howard A. Hanson to consider the budget for the coming year under the plan of financing the city worked out by Colonel Hanson. Tonight the council will discuss the plan

# PHOENIX BAND GIVES CONCERT FRIDAY EVE

The Phoenix band will give a concert Friday evening. This concert will be held in the school auditorium and will be the first of a series to be given throughout the year. Entirely new music has been secured, and the band boys are bending every effort to make this and the coming concerts thoroughly worth while.

At present there are eighteen members on the roster, and one or two additions are expected. The membership is as follows: Director, W. E. Dolbe, Walter Allen, Harry Rice, Albert Henry, Charlie Ferns, Robert Furry, George Bourne, Raymond Furry, Berthold Hearn, Charley Wilson, Lawrence French, Chester Bourne, Fred Fry, Aubrey Furry, Fred Johnson, Leo Furry, Glen Rice, H. H. Matthews.

The program for Friday night includes these numbers: March, "Officers of the Day" - Hall; Overture, "Suebera" - Dalbey; Waltz, "Rose Leaves" - Brown; March, "War Correspondent" - Holmes; Caprice, "Solitude" - Mercadante; Humoresque, "Who's Next?" - Bell; Waltz, "Loveland" - Holzmann; March, "National Emblem" - Bagley.

Attention Fishermen! Important meeting of all fishermen, business men, farmers, and all others interested in fishing in Rogue River and its tributaries. We want the opinions of everyone. Place, basement of library, Time, Friday, November 24th, at 7:30 p. m. W. E. ISAACS, President Rogue River Fish Protective Association. 211

# Which Do You Prefer?

It is important for reasons of health and practical economy for every housekeeper to ask herself this question: "Do I prefer a pure baking powder like Royal, made of cream of tartar derived from grapes, or am I willing to use a baking powder made of alum or phosphate, both derived from mineral sources?"

The names of the ingredients printed on the label show whether the kind you are now using or any brand, new or old, that may be offered is a genuine cream of tartar powder or merely a phosphate of alum compound.

Royal Baking Powder contains no alum or phosphate.

ROYAL BAKING POWDER CO. New York
