

WHEAT PRICES TOBAGAN ON ARMISTICE TALK

CHICAGO, Nov. 26.—Wheat prices fell down today with a crash, breaking in some cases as much as 2 3/4 cents a bushel. Big sales by some of the leading houses started a general movement to unload holdings and gave an opening for aggressive selling by bears.

Talk of the likelihood of an armistice in Europe had considerable to do with weakening the market, and also had warnings of the presence of a fighting submarine in the Atlantic. Continued reference to a possible embargo by the United States was likewise a factor.

July wheat, in which the greatest decline took place, fell to \$1.45, as compared with \$1.54 3/4 to \$1.54 3/4 at the finish on Saturday.

In later dealings the market scored rallies. The greatest recovery was in the last hour and was due to an unexpected falling off shown in the United States visible supply. Prices, however, closed weak at net losses of 1/2 cent to 4 1/2 cents a bushel, with December at \$1.73 1/2 to \$1.73 1/2, May, \$1.80 to \$1.80 1/2, and July \$1.48 1/2 to \$1.50.
