EAGLE POINT EAGLETS

By A. C. Howlett

Thursday, December 7, Mrs. Eugene Bellows, Mrs. Greyham and Mrs. Isabel and a stranger dropped in for dinner. Mrs. Bellows had come in to bring cream from the Bellows farm and the other two ladies to do some shopping.

Mrs. J. H. Trusty, of Trail, who had been out to Central Point to visit relatives, came in on the motor and took passage on the stage, with her son, Henry, for her home on Elk Creek. Speaking about the stage from here to Persist, Mr. Trusty tells me that, on his round trip from here to Persist and back, he does not return all the way on the same route, but crosses the Rogue River going by way of the Dodge-French bridge, and returning by the Free Ferry road, and on the entire route has to deliver 85 individual sacks of mail. He has been running an auto stage up to today, Saturday, but finds that the roads are so bad that he has to put on his team again. Although Dave Pence, the road supervisor of the Trail district, has made wonderful improvements in the road on that side of the river, still there are so many bad mud holes on the entire route that it is not considered prudent, to say the least, to trp to keep running the auto.

C. A. Colby of Lake Creek started with his family for San Diego, Cal., Thursday. He has rented his farm in the Lake Creek section, but I did not learn the name of the renter. His moving out has reduced the membership of the school, as it was not very large at best, but the loss of that school will, perhaps, be a help to some other school.

I noticed when I was at the depot Thursday that Mr. Amos Ayres had six crates of chickens to ship out to Medford. The poultry and dairy business is getting to be a big business in the Butte Creek country, and if the farmers succeed, as they expect to, in procuring money at a low rate of interest, and invest it properly, this part of the country will be one of the most prosperous sections in the county, for we have the soil, the water and the climate and all that we need is the means to improve and develop the farms.

In spite of the mud, snow and rain, I see that the farmers are still coming into town and taking lumber out to their homes and the railroad agent, who has charge of the lumber yard, is kept busy looking after the various interests.

Mrs. Colonel Roberts came in on Thursday and brought in her mother, Mrs. Montgomery, who has been spending a week with her daughter on the farm.

L. K. Haak, one of our leading farmers and orchardists, was in town Thursday looking for a man to work on his farm.

Delwin Curry, who has always been known as Delwin Claspel, as his grand parents have raised him and he has always gone by that name, came out Thursday and was infated in the I. O. O. F. lodge here Thursday night with four others, but I didn't learn their names. The lodge seems to be in a flourishing condition in this place.

Frany Peyton of Peyton, passed through here Thursday on his way to Sheridan, Wyo., to visit his father, who has had a stroke of paralysis and is considered in a critical condition.

Steve Tobin of Casper, Wyo., came in Thursday, engaged a room, and went on out to his farm about a mile west of here to meet Frank Smith, who has charge of his place, a fine peach orchard. He has decided to remain with him for a week or so.

H. J. Stewart, who owns a part of the old C. C. Beekman place northeast of here, passed through town on his way to Central Point Thursday.

W. H. McLoed of McCloud, and H. C. Mills of Butte Falls, were on the P. & E. Thursday on their way home.

Misses Nell Peachey and Dellie Grigsby were in town Saturday shopping.

Ed Watson of Butte Falls was on the P. & E. on his way to Jacksonville, where he has obtained a business position, and Scott Claspel was on his way to Medford to take charge of an engine in a manufacturing establishment.

E. H. Hurd arrived here Saturday in the place of Mr. Reimer, who was detained at his station on official business, and gave a lecture on the Federal Land Loar Law, but I will have something to say on that subject in my next Eaglets.

TABLE ROCK TABLETS

While F. L. Caton was attending the Thanksgiving dance at Sams Valley a valuable worke horse that was tied in the stable choked to death.

In our last item we were in error when we stated that there was a falling off in the school census. Mr. Lydiard states that he found the number of children drawing school money in the district to be one more than last year.

Ben Waterman, who has been in eastern Oregon for the past year is paying this valley a visit.

John Rankin and family of the Applegate district have moved into this section and are living in the Byrum home where Mrs. Rankin is doing the house work for Mr. Byrum.

Harry Hayes who is trapping along the river reports considerable luck.

At a meeting held at the school house recently, it was decided to have a regular community Christmas tree and the various committees were appointed to take charge of the same. The usual good time is promised.

Elmer Keyes and family who have spent more than a year in Gold Hill have moved into the house on the Finley ranch where Mr. Keyes is busy helping Mr. Beanliew with the farm work.

The two road districts up the river are holding election to vote special taxes for road work. Many people think this the the proper method to raise money as money raised this way will be more carefully spent and is sure to be used in the district that made the levy.

Weldon Sage is working with the Dodge well drill in the vicinity of Ashland.

Owing to the arrival of two new families in the neighborhood there is some increase in the school attendance.

The buzzing noise on the telephone line No. 11 which has been causing much annoyance has been attributed to the electric power line which passes over the telephone line in several places.

Members of the Arrow Head Literary Society have postponed their meeting until after the holidays.

Otto Jeldness of the Gates Auto Co. was through here Tuesday evening notifying customers that the long looked for Ford had arrived.

A modern chicken house and pens are being erected at the Lydiard ranch.

Mr. Wallace, our obliging mail carrier, has discontinued the use of his car and is making his daily trips with a horse and buggy owing to the heavy roads.

Byron Deford who has been suffering with pheumonia at the Modoc orchard is reported to be much improved at this writing.

Mr. and Mrs. E. T. May and young son of Medford paid frineds in this vicinity a visit Sunday.

Mr. Cottrel, a prominent stockman of the Meadows district, was a business visitor in this vicinity the first of the week. He says that stockmen in his section have been forced to commence feeding much earlier than usual this season.

D. C. Wilson of Sams valley was up this way Sunday. He reports that one of his neighbors sold three hogs a short time ago that netted him $111.

Some of our young people were out Saturday with a four horse sled enjoying the snow which is a rare thing in this country at this time of te year.

The news of the death of Miss Ethel Fish at Chico, Cal., was received here a few days ago. Miss Fih made many acquaintances in this district a few years ago and had many warm friends who were sorry to hear of her early demise.

F. L. Caton has contracted to plow the beet land on the Ray ranch and A. L. Vincent will plow 40 acres for the sugar company on the Wykoff ranch.

Beavers are doing considerable damage to timber along the river in this district and some of the land owners will probably appeal to the game commission for relief.

PRESIDENT WILL VETO LITERACY TEST IN BILL

WASHINGTON, Dec. 12.—While the immigration bill, passed by the house at the last session, was meeting unexpected opposition in the senate today, it became definitely known that President Wilson will veto the measure if it goes to the white house with the literacy test provision, one of its chief features.

The president early in his administration vetoed a similar bill for the same reason—as Presidents Cleveland and Taft had done before him—but advocates of the legislation had hoped that he would not withhold his signature this time if substantial majorities were given in both houses of congress.

Dry, Hoarse or Painful Coughs Quickly Ended

Home-Made Remedy that Saves You $2—Does the Work Thoroughly.

The prompt and positive action of this simple, inexpensive home-made remedy in quickly healing the inflamed or swollen membranes of the throat, chest or bronchial tubes and breaking up tight coughs, has caused it to be used in more homes than any other cough remedy. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's restful sleep. The usual throat and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, whooping cough, bronchial asthma or winter coughs.

To make this splendid cough syrup, pour 2½ ounces of Pinex (50 cents worth), into a pint bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. You then have a full pint—a family supply—of a much better cough syrup than you could buy ready-made for $2.50. Keeps perfectly and children love its pleasant taste.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, combined with guaiacol and is known the world over for its promptness, ease and certainty in overcoming stubborn coughs and chest colds.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

NOTICE OF ELECTION

Notice is hereby given that an election has been called by the undersigned County Court, pursuant to section 6168 Lord's Oregon Laws as amended, and the same will be held on the 27th day of December, 1916, between the hours of 8 o'clock a. m. and 8 o'clock p. m., for the purpose of determining whether or not the territory hereafter described shall be organized as an Irrigation District under the provisions of said section.

WHY?

Irrigation means saleable land. I cannot sell land in this county unless it has water or a show to get it.

The actual producing value of land in this county will be more than doubled when properly irrigated.

Irrigation first.
