WANT UPPER RIVER OPENED 4 MONTHS TO GILL NETTERS

Grants Pass anglers and fishermen at a meeting held Saturday, declaring against a closed Rogue river, favored the abolition of seining and gill nets at the mouth, and unanimously declared for a four months' commercial fishing season for upper river gillnetters, extending from April 1 to August 1.

The present law permits seining at the mouth of the stream from July 25 to August 25, and from September 10 to November 20. It permits gillnetting at the mouth from May 1 to August 25 and from September 10 to November 20. It restricts commercial fishing in the upper river to a ten-mile strip between Grants Pass and Jump-Off Joe creek, from June 1 to July 31. A twenty-four hour weekly closed season is provided.

The Grants Pass fishermen favor opening the river a month earlier than at present, opening the entire upper river to commercial fishing for four months and giving gill-netters a monopoly on the taking of salmon.

GOVERNOR ELECT OF NEW MEXICO ILL

LOS ANGELES, Cal., Dec. 19.—E. C. DeBaca, governor-elect of New Mexico, who came here a month ago in a serious condition from pernicious anemia, will return to Santa Fe, the state capital, in time to take the oath of office, if he has to "be carried there on a stretcher," according to an announcement made public today.

Mr. DeBaca, according to his physicians, has shown improvement largely through a determination to be ready for his inauguration. He arrived here November 19, and since that time three transfusions of blood have been made to strengthen him, apparently with good success. He still is confined to a hospital, where he was taken upon his arrival, but he is able to sit up.

Knocks Obstinate Coughs in a Hurry

A Simple Home-Made Remedy that Gets at the Cause.

Thousands of people normally healthy in every other respect, are annoyed with a persistent hanging on bronchial cough year after year, disturbing their sleep and making life disagreeable. It's so needless—there's an old home-made remedy that will end such a cough easily and quickly.

Get from any druggist "2½ ounces of Pinex" (50 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. Begin taking it at once. Gradually but surely you will notice the phlegm thin out and then disappear altogether, thus ending a cough that you never thought would end. It also promptly loosens a dry or tight cough, stops the troublesome throat tickle, soothes the irritated membranes that line the throat and bronchial tubes, and relief comes almost immediately. A day's use will usually break up an ordinary throat or chest cold, and for bronchitis, croup, whooping cough and bronchial asthma there is nothing better. It tastes pleasant and keeps perfectly.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, combined with guaiacol and is used by millions of people every year for throat and chest colds with splendid results.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

AN EXPERT ON COLDS

Comparatively few people realize that a cold is a signal of physical weakness.

To treat a cold with weakening physics, alcoholic syrups or drugged pills, may smother the cold but they also reduce the body powers still further and invite more serious sickness.

Scott's Emulsion has always been an expert on colds, because it peculiarly enriches the blood, quickly tones up the forces and strengthens both throat and chest. Try Scott's. Refuse Substitutes.

WHY?

Irrigation means saleable land. I cannot sell land in this county unless it has water or a show to get it.

The actual producing value of land in this county will be more than doubled when properly irrigated.

Irrigation first,
