

OPponents OF DISTRICT PLAN GIVE ARGUMENTS

To the Editor: The people who are backing the proposition of the formation of the proposed Highline Irrigation District have kept your paper full of articles in support of their side of the controversy...

We, the farmers, therefore beg your kind indulgence for a little space in order to briefly state our position in the matter.

First, we want it understood from the start that we are almost to a man ready and willing to accept some irrigation for our acreage in order to encourage the Canal Company in putting in their system thereby guaranteeing them a return on their investment...

Second, we object to this "system" for the reason that it compels each owner in the district to accept and pay for water for each acre of his land susceptible to irrigation from the system...

Bonds can not be paid in less than twenty years, i. e., until maturity which means interest for at least ten years on whole amount, and retiring of one-tenth of bonds each year thereafter...

There is no possibility of paying up before maturity, and each man's land is held for entire indebtedness until the last bond has been retired...

It is utterly impossible to determine price per acre to be paid, which price must depend upon uncertain conditions over a period of twenty to thirty years as system must be maintained if established...

District would be required to go into partnership with the canal company, thus inviting misunderstanding and litigation, or else take over the system from canal company and protect it from its former contracts...

The canal company can be required to furnish water to those desiring it without the establishment of this district, or lose its right to the use of the water for refusing to do so...

The district plan contemplates the cost of maintenance of system perpetually, thus insuring the canal company a big bonus each year for upkeep in addition to the actual cost thereof...

Articles have been published recently showing large increase of the yield of fruit during 1916, attributed to the use of water in the orchards mentioned...

George N. Fisk states, "I packed 1915, 150 boxes of apples and in 1916 I packed 2500 boxes off the same area. No irrigation."

R. H. Wilson says: "I packed 675 boxes of Newtowns in 1915 against 3500 in 1916; 1350 boxes of Jonathans in 1916 against 100 boxes in 1915; approximately 1000 boxes of pears in 1916 against 500 in 1915 (no irrigation)."

Charles Darby says: "In 1915 I packed 151 boxes of fruit and in 1916 5984 off of the same area, and without irrigation."

From the foregoing it would appear that those who are attributing their large yields for 1916 to irrigation may be laboring under a misapprehension, as it seems that those not irrigating enjoyed as large or larger percentage of increase than those who actually irrigated.

We object to having the district system voted upon us against our wish, and appeal to the owners of lots in the additions to Medford to kindly disregard any effort which may have been made to influence you in casting your vote in favor of the establishment of this proposed district...

We feel that we can ask this with absolute confidence. Very respectfully submitted, G. L. SCHERMERHORN, Chairman.

L. NEIDERMYER, Secretary Farmers' Committee. (Paid Adv.)

TALENT TALK

School closed Friday for the holidays and will not convene again until January 2. The closing program given Friday evening was well attended in spite of the bad weather.

Prof. A. K. Mickey who was to have been principal of our school after January 1, recently asked to be relieved from his contract. On account of his resignation Peter L. Spencer who formerly taught for two years in the 7th and 8th grades has been employed to act as principal of our schools.

George N. Fisk states, "I packed 1915, 150 boxes of apples and in 1916 I packed 2500 boxes off the same area. No irrigation." T. Helmer says: "My orchard packed out 215 boxes in 1915 and 2400 boxes in 1916. (No irrigation) Same acreage."

CANAL COMPANY MAKES STATEMENT TO LAND OWNERS

To the Land-Owners of the Proposed High-Line Irrigation District:

We realize that the election tomorrow for the organization of an irrigation district in no way commits the district to any source of water supply or to any particular contract either with the Rogue River Valley Canal company or any other company or individual.

However, in view of the fact that there has been a great deal of discussion as to our proposition and our water supply, and in order that the land owners may know that they can at least get the proposition which we give below, in case they are unable to find anything which suits them better, we submit to you the following proposition:

We will construct a complete irrigation system according to adequate plans and specifications to be approved by the directors of the irrigation district, and capable of furnishing one and one-half acre feet of water to 20,000 acres of land.

We will guarantee to furnish 30,000 acre feet of water for this purpose and will charge 40 per acre for so doing. The district to furnish its own laterals, or we will agree to construct these laterals at actual cost plus 10 per cent, and will guarantee that the price shall not exceed \$10 per acre.

William Haymond of Arizona, who was called here by the death of his son, Edwin, who died in Salem on the 11th is here visiting his brother-in-law, Frank Lewis. The remains were interred in the Central Point cemetery on the 14th.

Fred Bellows went to Medford on the P. & E. Thursday, returning the same day. William Haymond of Arizona, who was called here by the death of his son, Edwin, who died in Salem on the 11th is here visiting his brother-in-law, Frank Lewis.

Roy Willis and wife of Praelst were out the middle of the week the guests of Mr. and Mrs. William Vonder Hellen.

Swain Birge, one of the prosperous farmers west of town was in Eagle Point trading with our new merchant Thomas E. Nichols Thursday.

Irwin Daley of Lake Creek brought a load of potatoes for the Nichols store Thursday. Talking about the store, one would be surprised to see the amount of goods that came in on the P. E. for the different merchants.

There is a fresh lot of goods come in on every train for Brown & Son's and the two hardware stores, the Eagle Point Hardware Co., and Hoy Ashpole, and Frank Lewis seems to receive a new assortment every few days, and from the amount of goods

only a capable leader of the church but a social leader as well. Some of the characters represented in the play were especially good. Mrs. Weaver as Mary Jane Tellum, and E. E. Cook as Attorney Littlefield, did especially well.

The Parent-Teacher circle gave a farewell reception Tuesday evening to Mr. and Mrs. G. W. Ager and family. After a short program consisting of a good time, a few complimentary remarks, some songs in which a quartet of local teachers did themselves proud in rendering an unusual anthem of seventeen verses.

Hospital records show that every time you cut a corn you invite lockjaw or blood poison, which is needless, says a Cincinnati authority, who tells you that a quartet ounce of a drug called freezone can be obtained at little cost from the drug store but is sufficient to rid one's feet of every hard or soft corn or callus.

Hospital records show that every time you cut a corn you invite lockjaw or blood poison, which is needless, says a Cincinnati authority, who tells you that a quartet ounce of a drug called freezone can be obtained at little cost from the drug store but is sufficient to rid one's feet of every hard or soft corn or callus.

You simply apply a few drops of freezone on a tender, aching corn and soreness is instantly relieved. Shorty the entire corn can be lifted out, root and all, without pain.

This drug is sticky but dries at once and is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin. If your wife wears high heels she will be glad to know of this.

ed from parents as well as students during the past eight years and regretted that the time had come for him to leave.

Miss Alice Vander Sluis returned to her home Saturday from Eugene, where she has been attending the state university.

Mrs. Louis Brown entertained at a farewell dinner Thursday Mrs. J. F. Hart, Mrs. C. A. Brown and Mrs. G. W. Ager.

J. B. Coleman was intending to move to Jacksonville on Thursday of last week, but received word on the same morning that the Stout house into which he had intended to move had burned the night before.

Scott Clespel of Butte Falls was among the passengers on the P. & E. Thursday and so was Noble Zimmerman, who has been confined in a hospital in Grants Pass for about a month, came in on the P. & E. on Thursday and at present is stopping at the Sunnyside, visiting his sister, who is postoffice clerk and one of the telephone operators in our town.

W. W. Laylor, who owns one of the choice farms in this section, brought in a fine lot of poultry for our railroad agent since my last and J. W. Frey of Lake Creek also brot in a crate of mixed chickens for the same party.

Jud Ednell and George Welman, our town harness-maker, who has been in the hills for the past month, came out Saturday morning to spend Christmas at the Sunnyside.

Saturday morning A. E. Strong, one of our fancy chicken raisers, received from Eugene, two of the four White Wyandotte cocks that took the highest prize at the Poultry show in Portland a short time ago with the privilege of keeping one of them and sending the other back, as the owner does not wish to sell more than one of them.

Mrs. Belle Daley of Medford, one of our Eagle Point raised girls, but now a mother of two boys, came out on the P. and E. Saturday to spend a few days among her old friends and relatives. She was accompanied by Mrs. Fremont the lady that H. B. Tribson brought out from England some years ago and had her for a housekeeper.

Miss Francis Gred, daughter of our expert farmer, who is attending the Medford high school came out Saturday evening on the train to spend the holidays with her parents. She

W. H. Crandell, one of our prominent farmers and fancy poultry men came in to town late Wednesday afternoon.

W. W. Laylor, who owns one of the choice farms in this section, brought in a fine lot of poultry for our railroad agent since my last and J. W. Frey of Lake Creek also brot in a crate of mixed chickens for the same party.

Good Old Home-Made Family Cough Remedy

Much Better than the Ready-Made Kind—Easily and Cheaply Prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you would hardly have in them all the curative power that lies in this simple "home-made" cough syrup which takes only a few minutes to prepare.

Get from our druggist 2 1/2 ounces of Pinex (50 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 4 cents and gives you a full pint of really better cough syrup than you could buy ready-made for \$2.50.

This Pinex and sugar syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes that line the throat, chest and bronchial tubes, so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, whooping cough and bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, combined with guarana and has been used for generations to break up severe coughs.

To avoid disappointment, be sure to get your druggist for "2 1/2 ounces of Pinex" with full directions, and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes
