INDIAN POET SAYS AMERICA CRUDE AND UNPLEASANT

SAN FRANCISCO, Jan. 17.—Sir Rabindranath Tagore, winner of the Nobel prize for poetry, sailed for India from here today, after a tour of the United States, which he said he found unpleasant.

"America has the daring and inexperience of youth," he said, "she is like a four-year-old child just beginning to ask questions.

"I have found much impoliteness and crudeness. Why do Americans laugh at me because I wear my country's clothes? Much of the time I had to stay in my room and take my meals there, to avoid the staring, whispering and laughing.

"In Japan, nobody laughed.

"If you encouraged various modes of dress, your country would be more picturesque. Do not try to Americanize every alien.

"Your women have more leisure than any women in the world. They could use it well in study and improvement. Do they?

"On your soil will be the greatest nation of the world."

The poet's remarks appeared to be in the nature of observations and devoid of personal resentment.

PUBLIC INVITED TO INSPECT APARTMENTS

The Holland Apartments, built by J. A. Westerlund, and which have been under construction for the past two months, are now completed. The apartments are strictly modern and furnished complete, and are not only the finest, but the only ones of their kind in the city.

These apartments will no doubt fill a long-felt want, as modern furnished apartments are very much in demand in Medford. Each apartment is steam heated, has hot and cold water, gas range, electric lights, hard wood floors, and well lighted and ventilated. They will be open for inspection Thursday afternoon, January 18th.

EIGHT BRITISH, TWO FRENCH SHIPS SUNK BY GERMAN RAIDER

(Continued From Page One.)

2 for Liverpool with a general cargo. The White Star agents said some time ago that her destruction must be conceded, as she had never taken more than fifteen days to cross the Atlantic in winter. Her gross tonnage was 10,077. She was 557 feet long, 60 feet of beam and was built in 1895. The Dramatist, 5421 tons gross and 410 feet long, was built in Glasgow in 1913. She sailed from Seattle November 9 and San Francisco November 18, arriving at Colon December 3 and St. Louis December 10, the last report of her movements.

The recent movements of the Radnorshire have not been recorded. She was a Royal Mail steam packet steamship of 4302 tons gross. She was 385 feet long and was built in Sunderland in 1913.

The Netherby Hall, 4461 tons gross, was 381 feet long and was built in 1905 at New Castle. She belonged to the Hall line of London. When last reported she was on her way from India to Cuba.

Other Vessels Sunk.

The King George sailed from Philadelphia on November 24 and Wilmington November 29 for Manchester, being booked for a return trip to Philadelphia. Her gross tonnage was 3852. She was 350 feet long, was built in 1906 and owned in Glasgow.

The Minieh's recent movements are not recorded. She was owned in London, was built in 1876 and was 351 feet long, of 2890 tons gross.

The Mount Temple sailed from Montreal previous to December 3 for London. She was owned by the Canadian Pacific Railway Co. of London and was built in 1901 at Newcastle. Her gross tonnage was 8790. She was 485 feet long.

The Asnieres was a French four-masted bark of 3163 tons gross, built in 1902 at Havre. She sailed from Bahia Blanca on November 29 for Pauillac.

Given Up as Lost.

The three-masted French bark Nantes, 2679 tons gross, was built in 1909 at Rouen and owned in Nantes. She sailed on October 9 from Iquique, Chile, for London.

The St. Theodore, which has been captured, is a British steamship of 4092 gross tons, 405 feet long, built in 1913. She was owned in Liverpool. She sailed from Norfolk December 5 for Savona, Italy.

The other captured steamship, the Yarrowdale, 4652 tons gross and 390 feet long, was built in 1912 and owned in Glasgow. The last report from her was her arrival at Havre from New York previous to January 2.

Rivals the Moewe.

The achievements of the German raider rival the exploits of the raider Moewe, which, after cruising in the Atlantic several weeks, returned safely to a German port early in March of 1916. According to an official announcement of the time, she had on board 199 prisoners and 1,000,000 marks in gold bars, and had sunk fifteen steamships in addition to laying mines which destroyed, among other vessels, the British battleship King Edward VII.

Successful raids also were made by the German cruisers Emden and Karlsruhe, the converted merchantman Prinz Eitel Friedrich and the submarine U-53, which last October sank six merchantmen off Nantucket.

CHICAGO FLAT JANITORS STRIKE FOR HIGHER WAGES

CHICAGO, Jan. 17.—Occupants of approximately 400 flat buildings in the city were without heat today because of a strike of janitors, who refused to return to work. The demand of the janitors was for an increase in wages of at least 10 per cent.

ENTIRE NATION MOURNS DEATH OF ADMIRAL DEWEY

WASHINGTON, Jan. 17.—President Wilson today sent a special message to congress formally announcing the death of Admiral Dewey and paying tribute to the dead naval hero by saying that "the people and the government of the United States will rejoice to perpetuate his name in all honor and affection."

The president's message follows:

President's Message.

"It is with deepest regret that I announce to the congress the death of Admiral George Dewey at 5:56 o'clock on the afternoon of yesterday, the 16th of January, at his residence in this city.

"Admiral Dewey entered the naval service of the country as an acting midshipman from the first congressional district of Vermont on September 23, 1854; was graduated from the naval academy June 11, 1858; served with distinction throughout the war of 1861-1865, and thirty years later had risen to the rank of commodore.

"It was while commodore that he rendered the service in the action of Manila Bay, which has given him a place forever memorable in the naval annals of the country. At the time of his death he held the exceptional rank of admiral of the navy by special act of congress. During the later years of his life he was the honored chief of the general board of the navy whose duties he gave the most assiduous attention and rendered a service to the navy quite invaluable in its sincerity and quality of practical sagacity.

Flags at Half Mast.

"It is pleasant to recall what qualities gave him his well-deserved fame, his practical directness, his courage without self-consciousness, his efficient capacity in matters of administration, the readiness to fight without asking any questions or hesitating about any details. It was by such qualities that he continued and added lustre to the best traditions of our navy. He had the stuff in him which all true men admire and upon which all statesmen must depend in hours of peril.

"The people and the government of the United States will always rejoice to perpetuate his name in all honor and affection."

President Wilson also issued the following:

"As a token to the respect for the memory of Admiral George Dewey, it is hereby ordered that the national flag be displayed at half-mast upon all public buildings and at all forts and military posts and naval stations, and all vessels of the United States in commission until after the funeral shall have taken place, and that on the day of the funeral the executive offices in the city of Washington be closed."

WASHINGTON, Jan. 17.—Funeral arrangements for Admiral George Dewey, who died here last night in his 80th year, were discussed today at a conference between President Wilson, Secretary Daniels and Rear Admiral Badger. The funeral probably will take place on Saturday and interment will be in Arlington national cemetery.

In official circles and elsewhere the loss of the country's most distinguished naval officer was mourned today. President Wilson in a statement voiced his own and the nation's grief. Secretary Daniels likewise paid tribute.

American naval vessels and stations throughout the world received word by wireless of the admiral's death, with orders to display flags at half mast.

Admiral Dewey suffered a collapse last Thursday, although the day previous he was at his desk apparently in his usual good health. His condition grew rapidly worse and he had not been conscious since Monday. The end came at 5:56 last evening. Death was due to a general breakdown accompanied by arterio salerosis.

Funeral arrangements for Admiral Dewey were partially completed today.

Funeral Arrangements.

Orders were issued by the navy department to bring all the cadets at Annapolis and all available bluejackets from the Norfolk and Washington navy yards to attend the funeral here Saturday. Secretary Baker will order all available army units to participate in the ceremonies.

Secretary Daniels and ranking officers were engaged today arranging the details. These include appropriate exercises on every American naval vessel and at all American naval stations throughout the world and the firing of an admiral's salute of seventeen guns.

A guard of honor, composed of bluejackets from the gunboat Dolphin and the presidential yacht Mayflower, was stationed at the Dewey home.

Funeral at Capital.

It has practically been decided to hold funeral services for the admiral in the capitol, under the dome, Saturday morning at 11 o'clock. The body, however, will not be viewed by the public. In the event that the plan is perfected, congress would adjourn on that day.

President Wilson will issue an executive order closing all government departments on Saturday.

LEAK INQUIRY POSTPONED

(Continued From Page One).

itor of the Providence Journal, whose news dispatches regarding leaks Lawson read into the record, also appeared. Frank Vanderlip, Malcolm McAdoo, brother of Secretary McAdoo, and others who came in response to subpoenas, are waiting to testify.

Chief interest centered today in the expected testimony of Mrs. Ruth Thomason Visconti, the mysterious woman who Thomas W. Lawson asserted told him that Secretary Tumulty and W. W. Price, a white house newspaper man, "and others," profited from the leak by dealings on the stock market. After an unexplained absence yesterday from her Washington home and the office where Mrs. Visconti is employed, she appeared last night, acknowledged a subpoena and promised to go before the committee. Her identity had not been fully disclosed.

In many a home the keystone of the family's health is a daily ration of the splendid whole wheat and barley food—

Grape-Nuts

The reason lies in the fact that this food contains an abundance of those elements—the mineral salts ——so necessary for well-balanced bodies, brains and nerves. **Grape-Nuts** also includes the **entire nutriment** of the grains, in concentrated, easily digestible form, ready-to-eat from the package.

Grape-Nuts is usually eaten with cream or milk, and the flavor is wonderfully delicious. It also combines in numerous attractive, special dishes.

Better digestion, better health, better accomplishment, with **Grape-Nuts** as a daily food.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.
