PLOTTED TO KILL LLOYD GEORGE BY POISONED ARROWS

DERBY, England, Feb. 2.—The Guild hall was crowded when Attorney General Sir Frederick E. Smith today opened the case against the persons accused of conspiracy to murder Premier David Lloyd George and Arthur Henderson, member of the war council. The accused are Mrs. Alice Wheeldon, her two daughters, Miss Ann Wheeldon and Mrs. Alfred George Mason, and Mrs. Mason's husband. A sensation was created when Attorney General Smith alleged it had been intended to murder the premier with poisoned darts to be shot at him when he was playing golf. Both the premier and Mr. Henderson were to be killed, he added, by means of poison handed by Mrs. Wheeldon to an agent, employed by the military authorities, who had ingratiated himself into her favor. The poison comprised hydrochloride, strychnine and an American Indian poison called curere, said to be used in poisoning arrows. Asked as to the best way of poisoning the premier, Mrs. Wheeldon, according to the attorney general, said the sartrages had spent 500 pounds in attempts to poison Mr. Lloyd George and that an attempt had been made also on Reginald McKenna, former chancellor of the exchequer. It would be possible, she had suggested, continued the prosecutor, to drive a nail dipped with poison into the boot of the victim and such an attempt had been contemplated when Mr. Lloyd George suddenly left for France. Another method proposed was to stick a poisoned pin in the victim's hat.

BLAME FOR WAR WITH KAISER SAYS WM. TAFT

WASHINGTON, Feb. 2.—Former President Taft prepared a prepared speech on the League to Enforce Peace here last night with a reference to the new German crisis, declaring that if the United States were drawn into war Germany would force it by "her defiance of plain principles of justice and humanity, which should obtain between civilized nations." The responsibility which now rests on the president and congress is very heavy," said Mr. Taft. "They should know and do know that the American people will back them to the end in their decision. May God give them good deliverance."

AMERICANS TURN OVER INTERESTS TO FOREIGN NATIONS

WASHINGTON, Feb. 2.—American ambassadors, ministers and consular representatives in England, France, Russia, Japan, Rumania, Serbia, Greece, Egypt and Morocco were today instructed by the state department to suspend all activities in relation to the German interests which they have taken over and to await information to be conveyed through some neutral government as to whom Germany wishes those interests entrusted. The belligerent interests which the United States has been representing in Germany since the beginning of the war were turned over by the American embassy in Berlin to other neutrals selected by the various governments concerned. Official announcement was made at the state department that British interests in Germany had been transferred to Holland; Japanese and Serbian to Spain and Rumanian to Spain temporarily, while the Roman-

ian government has not been heard from. The official announcement also was made that all American consuls had been ordered to leave Germany and that Germany was expected likewise to withdraw all her consuls from this country.
