

MODEL ROAD CODE INTRODUCED BY JOINT COMMITTEE

SALEM, Ore., Feb. 6.—Attempts to speed up the Oregon legislature are being made by both senators and representatives who point out that much remains to be done before adjournment at the end of next week.

"The time of the senate has been taken up to a great extent by bills of minor importance and unless we clear the calendars of both houses of some of the unimportant measures, we will have to call for an extension of time," declared Senator Frederick Steimer, Pendleton, recently in urging haste.

Interstate Fishing Laws. The joint committee of the two houses which met with a similar committee from the Washington legislature in Seattle Saturday has returned to Salem and reported that the conference decided to preserve the present compact existing between Oregon and Washington governing fishing on the Columbia river.

The conference decided to recommend to the legislatures enactment of laws aimed to raise seal bounties from one to three dollars, prohibit selling of fish caught out of season, raise the licenses for commercial fishermen and license trawlers \$2.50 each.

Road Code Appears.

A road code, termed by many "the model highway code," has been introduced into the house of Representatives by the joint senate and house committee on roads. The code is a compromise of the road laws introduced by Representative O. Laurgaard, Portland, and Representative William E. Schimpff, Astoria, and embodies, it is said, the best features of both.

FOUR MORE SHIPS U-BOAT VICTIMS

LONDON, Feb. 6.—Lloyd's reports that the British steamship Port Adelaide, carrying passengers, has been sunk. Ninety-six of the passengers and crew have been picked up at sea.

The Russian steamer Cerera, of 3512 tons gross, is believed to have been sunk, Lloyd's also reports.

The Port Adelaide was a steamer of 8181 tons gross, built in 1911 and owned by the Commonwealth & Dominion line. The last report on her movements was on November 12 last, when she left Port Natal for Dakar.

Another steamer believed to have been sunk is the British steamer Wartenfels, of 4511 tons gross, the Lloyd's agency announced.

BUREAU TO AID IN PROPOGATION UPON APPEGATE

SALEM, Feb. 6.—Representative Sweeney, who has been trying to secure additional fish ladders over the Robinson dam, on the lower Applegate, has received the following letter from the United States bureau of fisheries:

"The bureau is very much interested in the propagation work that is being conducted with both the salmon and the steelhead on Applegate creek, in southern Oregon. It is true that at the present time the bureau collects spawning fish below the irrigation dam, located at what is known as the Weatherbee ranch, the fish being taken by means of a trap in the fish-way, jumping boxes and nets. However, this dam is old and broken down in many places, so that during the high-water stages in the past two seasons, at the time when the fish usually travel in the largest numbers, many of them sealed the dam without difficulty and ascended to the upper waters unmolested. Under these conditions, were another fishway installed in this dam and left open, it would reduce the efficiency of the bureau's hatchery to such an extent that it would not be profitable to continue operations on this stream.

"The bureau will be pleased to cooperate in building up the steelhead fisheries of Applegate creek, and will be glad to furnish you liberal assignments of steelhead fry and fingerlings, to be liberated in the upper portions of the stream at points to be designated by you."

DEFENSE RESTS IN MOONEY'S TRIAL

SAN FRANCISCO, Feb. 6.—The defense rested its case today in the bomb murder trial of Thomas J. Mooney in the superior court here after attempting to establish that a private detective offered a \$5,000 "bribe" to "get" Mooney on another dynamiting charge last summer. Mooney has been on trial more than a month, charged with murder in connection with a bomb explosion here July 22, 1916, costing ten lives.

ARTILLERY FIRE ON WESTERN FRONT

BERLIN, Feb. 6.—"The weather being frosty and hazy," says today's official report from the Franco-Belgian front, "there was little activity on the part of the artillery and airplanes. Between the Ancre and the Somme, however, there was strong artillery firing at times. Raids by reconnoitering detachments in the Somme sector and on the east bank of the Meuse (Verdun front) and on the Lorraine frontier, resulted in the capture of more than thirty English and French soldiers and several machine guns."

REGRETS WILSON'S POSITION

(Continued From page One.) necessary, therefore, that the clearness of the distinction between right and wrong be made before all the world." The Kreuz Zeitung says: "The entrance of America into the war can give our enemies great moral, and in many respects, material assistance and thus prolong the struggle, contrary to President Wilson's efforts. But America's co-operation can have no decisive importance. \* \* \* We can no longer be prevented from achieving final victory." Count Von Reventlow in the Tages Zeitung after asserting that Germany is fighting for its rights and is compelled to use all means at its command, adds: "If the United States cannot and will not recognize this natural right and its application we regret it. But we Germans are not in a position and are unwilling to renounce a natural right and one which from no standpoint is indefensible."
