LOKAL ANZEIGER ACCUSES U. S. OF **VIOLATING TREATY**

ly displayed leader the Lokal Anxeiger this afternoon charges the United States with a breach of treaty obligations in "compulsorily detaining" in America German subjects. who, under the treaty of 1799, are entitled, even in the case of an actual outbreak of war, to pursue their avocations dismolested. Recalling the charges of violation of treaties and the law of nations made against Germany in the earlier days of the war, the Anzeiger continues:

"The breach of diplomatic rela tions with the United States will probably be made again the occasion for levelling against us charges of breaking treaties and international law in order to mobilize the indignation of the whole world against our shameful acts. It is therefore not at all an act of supererogation to point out now, while the deed is still bigher. Receipts 350. "If treatles are thus trodden un-

der foot after a breach of diplomatcere friends of the German nation are still resounding, what have we to expect if the contingency for which we must be prepared arrives and war breaks out. If we cannot prevent a Whreach of treaty we must at least call attention cleanly, openly and immediately to the fact that the United States government has violated the treaty of 1799 and the general principle of the law of nations before Germany has undertaken anything which could give the slightest shadow of a pretext for such an action.
