

DANIELS ASKS 47,500 RECRUITS FOR U. S. NAVY

Head of Navy Says Sea War Depends Mostly Upon Individual Fighter—Single Sailor May Win Naval Battle—Really Excellent Opportunity for Career Now Offered.

By GILSON GARDNER.

WASHINGTON, D. C., Feb. 13.—The navy department is preparing to recruit 47,500 additional men.

Plans have been worked out to handle the rush of applications which will come when it is known throughout the country that men are actually wanted for the navy.

Secretary Daniels admitted, when I saw him at his residence today, that the service is preparing to enlist enough men to put the reserve fleet in commission.

"There will be no lack of men," said the secretary, "when the young men of the country hear that the country needs them."

"The chance to be of service on one of our magnificent fighting ships is a chance that thousands of patriotic boys will jump at."

"Of course, we cannot take all who apply."

"Last January seven out of eight applicants had to be rejected, but the strength of the enlisted force was increased during that month a thousand men, after allowing for retirements and the termination of enlistments."

"Under the law recently enacted the president has authority in time of war or threatened war to increase the enlisted force in the navy by an additional 30,000 men. The present time is such an emergency."

More Men Needed.

Before beginning on these enlistments, however, there are 17,500 men to be enlisted as part of the peace strength authorized by congress last session.

A total strength of 74,500 was authorized a year ago, of which only 55,000 have been enlisted.

Ten thousand have been enlisted since the law was passed.

Adding 30,000, which the president may authorize without additional congressional action to the 17,500 already authorized, makes 47,500 chances for new men in the navy.

"It is a wonderful opportunity," said the secretary, "for a young fellow who has the right stuff in him and wants to do his part in a big way."

"There is no place in war where the individual man counts so much as on board one of our battleships."

"In a gun crew the work of every man is essential to success, and there is no place in the world where team work counts for so much."

"The success of the gun crew may be due to the skill and faithfulness of one man on it, just as its failure might be caused by the failure of one man."

"And the success of the ship might be due to the success of that one gun crew, and the winning of a battle might be due to the success of that ship."

Daniels Upon Service.

"When the shot goes home and touches the vital spot it is not chance that has brought it about, but the team work and the earnest, unflinching practice by each individual enlisted man who has any part in handling the gun."

Knocks Obstinate Coughs in a Hurry

A Simple Home-Made Remedy That Gets at the Cause.

Thousands of people normally healthy in every other respect, are annoyed with a persistent hanging-on bronchial cough year after year, disturbing their sleep and making life disagreeable. It is so needless—there is an old home-made remedy that will end such a cough easily and quickly.

Get from any drugstore "25¢ ounces of Phlox" (50 cents worth), pour it into a pint bottle and fill the bottle with plain translated sugar syrup. Begin taking it at once. Gradually but surely you will notice the phlegm thin out and then disappear altogether, thus ending a cough that you never thought would end. It also promptly loosens a dry or tight cough, soothes the troublesome throat, soothes the irritated membranes that line the throat and bronchial tubes, and relief comes almost immediately. A day's use will usually break up an ordinary cough or cold, and for bronchitis, croup, whooping cough and bronchial asthma there is nothing better. It tastes pleasant and keeps perfectly.

Phlox is a most valuable concentrated compound of genuine Norway pine extract, combined with quinine and other ingredients, by millions of people every year for throat and chest colds with splendid results.

To avoid disappointment, ask your druggist for "25¢ ounces of Phlox" with all directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Phlox Co., Wayne, Ind.

EAGLE POINT SCHOOL NOTES

The illustrated lecture, "A Fertile Soil Means a Prosperous People," given here Wednesday night by E. R. Peterson, was well attended considering the short notice.

Estella Betz has decided to give up her work as substitute operator in the telephone office here, and will be in regular attendance in the high school the remainder of the year.

Lincoln's birthday was celebrated in the school with appropriate exercises.

Two new pupils were enrolled last week. Two more are expected Monday. This will bring the enrollment up to seventy-five.

The state traveling library, which has been here since the beginning of the year, is to be returned and a new one ordered. Those having books out should return them to the librarian at once.

Eagle Point is to have a Community day and school meet again this year. The exact date has not been fixed yet, but it will probably be about the last of April or first of May. Nearly 30 schools in this part of the county have expressed a desire to participate in the meet. Committees will be appointed soon and schedules of the various events sent out to the schools.

Mrs. Ella Shlesier has resigned her position as primary teacher to accept a position in the Canadian schools. Mrs. Wheeler will complete her term.

WHERE IS THE MOTHER with a child who is rundown, has pale cheeks or thin blood, who will hesitate to give that child the very thing it needs to start it growing and keep it going?

For over forty years the concentrated liquid-fool in Scott's Emulsion has been changing thinness to plumpness—changing poor blood to rich blood. There is nothing better for growing children—whether they are weak or well—than Scott's Emulsion, but see that you get the genuine Scott's.
