Field of Grants Pass was a Medford business visitor Thursday. Mrs. H. Storey of Gregory Station, on the Eagle Point road, was in Medford shopping Thursday.

GERARD AT PARIS THANKS GERMANY FOR COURTESIES

BERLIN, Feb. 15.—"On leaving German soil, ex-Ambassador Gerard asked the German correspondents who had accompanied him to transmit his thanks to the German government," says the Overseas News agency. "He declared that the arrangements made by the government for the American embassy and colony surpassed everything he might have hoped for, and the German hospitality and chivalrousness brilliantly stood the test during these hard days." PARIS, Feb. 15.—James W. Gerard, former American ambassador at Berlin, Mrs. Gerard and their party, 12 persons in all, arrived in Paris this morning from Bern, Switzerland. They were met at the station by the American ambassador, William H. Sharp, and the embassy staff. A battalion of French photographers took snapshots of Mr. and Mrs. Gerard as they alighted from the train. The French government placed two cars at the disposal of the party, attaching them to a regular train. Mr. and Mrs. Gerard are stopping at a hotel. Mr. Gerard had a long talk with Mr. Sharp at the embassy this morning. He probably will be received by distinguished representatives of the French government and will meet some of the most important personages at a dinner which Mr. and Mrs. Sharp are arranging.

REALTY ACTIVITY OPENS WITH SPRING

With the opening of spring weather has come a renewal of activity in the sale of ranches and city property. Within the past few days a number of transfers have been made. Among the important ranch sales is the purchase of the Jim Dinkins stock ranch on Evans creek by C. P. Roberts of Medford, who will take possession next Saturday. The Stanley Brothers, well known cattle men, have purchased the Peeler stock ranch above Butte Falls. Among the deals involving smaller acreage are the sales of the H. L. Irwin Bartlett pear orchard, part of the old Bartlett orchard, to C. M. Speck. A seven-acre triangular tract, located on the Pacific Highway where it is joined by South Riverside avenue, was recently sold to C. M. Johnson of Clatsop, Idaho, by S. M. Johnson. The sale figure being \$3,500. A recent sale of city property involved the purchase by Harvey Fields of a bungalow on Roosevelt ave., from Porier J. Neff.

ASHLAND ARMORY PLAYS MEDFORD AT NAT FRIDAY

As a preliminary to the game with the Ashland Armory basketball team at the Natatorium Friday night, high school students, headed by the school band, will parade through the downtown streets at 4:15 Friday afternoon. The largest attendance of the season is expected at Friday's game. Ashland will send sixty members of the militia company in addition to a large delegation of town fans. In Medford the sale of tickets has exceeded that for any game of the season. Millard Grubb, captain of the soldiers, stated yesterday that his team is confident of winning. The loss of the game last Saturday he attributed to the hinged-up condition of two of the men and to over-confidence. These defects have been straightened out. "We will trim Medford, and trim them bad," is the way he expressed Ashland's feelings. The Medford team is in the best condition of the year. All of the men are in excellent shape, with the exception of Delbert Jones, who had his nose broken in a scrimmage Tuesday night. The local boys who are putting in every afternoon at hard practice are making no pretensions as to the outcome of the contest. Friday night's game is the deciding contest of a series of three games with the Ashland team. The first Ashland won two weeks ago on the Medford floor. The second Medford won last Saturday night on the Ashland floor.

SPRAY CALENDAR FOR APPLES AND PEARS FOR YEAR OF 1917

NO. 1 DORMANT SPRAY (a) Lime Sulphur. TO CONTROL—San Jose Scale, Oyster Shell Scale, Red Spider (eggs Blister Mite (Pears), Moss and Lichens, (to destroy Aphid eggs). MATERIALS TO USE—Lime sulphur (32 Heaume test), 1 part lime sulphur to 8 parts water. (Spray thoroughly and use large chamber type nozzle, such as Friend or Bean Mist. Use high pressure.) TIME FOR APPLICATION—Just when buds are breaking or separately. Note—By deferring this application until the buds are breaking some benefit is obtained in the control of Scab. On young pear trees where Blister Mite is more serious than scab, application should be made before buds break. (b) Oil Emulsion. TO CONTROL—San Jose Scale, Oyster Shell Scale, Red Spider (eggs Blister Mite (pears), Moss and lichens (to destroy Aphid eggs). MATERIALS TO USE—Oil Emulsion (Dormant Soluble Oil 12 gallons to 200 gallons tank). If Crude Oil Emulsion is used, add 20 gallons oil to 200 gallons tank. Note—In mixing up all sprays be sure to follow directions that are furnished with each barrel of spray. Send in samples of water to be used with oil sprays to be tested. It may be necessary to use a "softener" with some of the "hard" water. Time may be saved if this matter is determined before spraying time. TIME FOR APPLICATION—While the trees are dormant, preferred about six weeks before blossoms open, but may be used any time during dormant period until buds begin to break. Note—Where dormant caustic spray like lime-sulphur has been used on bearing orchards for several seasons it seems advisable to substitute Oil Emulsion for the dormant spray of lime sulphur. The Oil Emulsion is just as efficient for insect control and maybe of benefit in softening the bark, and shortening the blossoming period, which would be an aid in blight control. If five or six clear days follow the application of oil sprays, almost absolute control may be had with aphid eggs. Use large Mist type nozzle, with good pressure.

NO. 2 "DELAYED DORMANT," OR EARLY SPRING SPRAY. TO CONTROL—Scab and Mildew, (important) Bud Moth, Leaf Roller, Aphids, etc. MATERIALS TO USE—Lime Sulphur, 1 part to 25 parts of water, 40 per cent Nicotine, 1 part to 1200 may be added for aphid. For Bud Moth, Leaf Roller, etc., combine Arsenate of Lead 2 pounds to 50 gallons of spray. TIME FOR APPLICATION—Soon after the leaf buds have opened, leave 1/2 to 3/4 inch long. Use Mist type nozzle, with good pressure.

NO. 3 "PINK," OR PRE-BLOSSOM SPRAY. TO CONTROL—Scab, (important) Mildew, Bud Moth, Leaf Roller, Leaf eating Caterpillars, Grain Thrips, etc. MATERIALS TO USE—(a) Lime Sulphur 1 to 35. (If needed Nicotine and Arsenate of Lead may be combined in same proportion as in spray No. 2.) (b) Special Distillate Oil Emulsion, 3 gallons to 100 gallons of water, 40 per cent Nicotine, 1 part to 1200 parts of spray. This application is used to control or repel Grain Thrips, Aphids, etc. These insects are known to be carriers of Blight germs, and if they can be kept out of the trees at certain times when trees are most susceptible to infection, it will serve as one more aid in controlling Blight. Atomic Sulphur, 12 pounds to 100 gallons spray, may be combined with necessary to control scab. Arsenate of Lead may be needed in some orchards for Caterpillars, Bud Moth, Leaf Rollers, etc., and may be combined, 2 pounds to 50 gallons. TIME FOR APPLICATION—Just before the blossoms open. Use Mist nozzle.

NO. 4 "CALYX" SPRAY. TO CONTROL—Scab on apples and pears, and Codling Moth on apple (Aphids and Grain Thrips). MATERIALS TO USE—(a) Lime Sulphur, 1 to 50, or (b) Atomic Sulphur, 12 pounds to 100 gallons, or (c) Self-Boiled Lime Sulphur, 8-8-50. Note—Arsenate of Lead may be combined with a, b, or c to supplement the Calyx spray for control of Codling Moth on apples. (d) Special. The special spray outlined under No. 4, Calyx spray may be used as a substitute for a, b, or c, and may be an important factor in controlling Blight. Use Mist nozzles for this application. TIME FOR APPLICATION—Ten days or two weeks after the petals fall.

NO. 5 TEN-DAY SPRAY. TO CONTROL—Scab, Mildew, Aphid, Grain Thrips, etc. MATERIALS TO USE—(a) Lime Sulphur, 1 to 50, or (b) Atomic Sulphur, 12 pounds to 50 gallons, or (c) Self-Boiled Lime Sulphur, 8-8-50, or (d) Bordeaux Mixture, 4-4-50. Combine Arsenate of Lead paste, 2 pounds to 50 gallons. Powder 1 pound to 50 gallons spray, with either a, b, c, or d. (e) Special. The special oil spray outlined under No. 4, Calyx spray may be substituted for a, b, c, or d and may be important in controlling Blight. TIME FOR APPLICATION—Intended for first brood of Codling Moth, but may be applied early part of June watch; local papers for announcement. Note—If season is favorable and scab is under control, the fungicides in b, c, or d may be omitted and only Arsenate of Lead used. USE FINE MIST SPRAY.

NO. 6 JUNE SPRAY OR FIRST CODLING MOTH SPRAY. TO CONTROL—Scab and Codling Moth on both apples and pears (Pear Sa Fly Larvae and Pear Slugs on Pears). MATERIALS TO USE—(a) Lime Sulphur, 1 to 50, or (b) Atomic Sulphur, 12 pounds to 50 gallons, or (c) Self-Boiled Lime Sulphur, 8-8-50, or (d) Bordeaux Mixture, 4-4-50. Combine Arsenate of Lead paste, 2 pounds to 50 gallons. Powder 1 pound to 50 gallons spray, with either a, b, c, or d. (e) Special. The special oil spray outlined under No. 4, Calyx spray may be substituted for a, b, c, or d and may be important in controlling Blight. TIME FOR APPLICATION—Intended for first brood of Codling Moth, but may be applied early part of June watch; local papers for announcement. Note—If season is favorable and scab is under control, the fungicides in b, c, or d may be omitted and only Arsenate of Lead used. USE FINE MIST SPRAY.

NO. 7 SUBSEQUENT SPRAYS. TO CONTROL—Codling Moth. MATERIAL TO USE—Arsenate of Lead paste, 2 pounds to 50 gallons, Powder 1 to 50. TIME FOR APPLICATION—Keep fruit covered. During the latter part of the season when fruit is growing rapidly, applications should not be more than 2 or 4 weeks apart. Note—In some sections of the Northwest, it has been found that late applications of DOUBLE STRENGTH Arsenate of Lead resulted in an appreciable reduction of worms and "stings." This is offered as a suggestion for growers who have had difficulty in controlling the late brood of Codling Moth. USE FINE MIST SPRAY.

MISCELLANEOUS NOTES. DISINFECTANT—For Blight wounds and instruments used in cutting off Blight. We feel justified in recommending to interested growers for trial, substitute for Bi-chloride of Mercury (Corrosive sublimate) as a disinfectant a compound known as Lysol or Solution Cresol compound. Lysol can be purchased for \$1.00 per pint, and the Solution Cresol compound for fifty cents per pint, and will be just as good as Lysol if it contains 50 per cent Cresol. Use 1 per cent solution, that is, 1 part of Lysol or Cresol to 100 parts water. At this strength it can be applied to wounds with safety. May be used in wood or glass receptacles, and applied with sponge when necessary.

SELF-BOILED LIME SULPHUR. For instructions in making self-boiled lime sulphur for special control. Note—We do not recommend that every orchard in the county be sprayed with all the above sprays. Different conditions exist in the various orchards and it will be necessary to select the sprays that are most needed to suit conditions. If in doubt about any applications, consult with County Pathologist. Approximate dilutions of lime and sulphur for the different sprays and degrees—

Degrees	Dormant	Delayed	Standard	Concentrated	Concentrated
Name	Strength	Dormant	Pink Spray	Calyx on	Calyx on
35	1 to 9	1 to 25	1 to 35	1 to 45	1 to 55
34	1 to 8	1 to 27	1 to 37	1 to 47	1 to 57
33	1 to 7	1 to 29	1 to 39	1 to 49	1 to 59
32	1 to 6	1 to 31	1 to 41	1 to 51	1 to 61
31	1 to 5	1 to 33	1 to 43	1 to 53	1 to 63
30	1 to 4	1 to 35	1 to 45	1 to 55	1 to 65
29	1 to 3	1 to 37	1 to 47	1 to 57	1 to 67
28	1 to 2	1 to 39	1 to 49	1 to 59	1 to 69
27	1 to 1	1 to 41	1 to 51	1 to 61	1 to 71
26	1 to 0	1 to 43	1 to 53	1 to 63	1 to 73
25	1 to 0	1 to 45	1 to 55	1 to 65	1 to 75

Note that the recommendations are 1 to 8, or 1 to 15, not 1 to 8 or 1 to 15. Therefore, in making up a 200-gallon tank of 32 concentrated Lime and Sulphur for dormant spray, you would take the sum of 1 and 8, which is 9, and add 200 by this, which gives you 222, the amount of lime and sulphur to use. Another illustration: Having a 150-gallon tank and 23 concentrated Lime & Sulphur to be used for the calyx spray, we find that the proper dilution is 1 to 41; the sum of which is 42 and dividing 150 by it we get 3.57, which approximately 3 1/2, the number of gallons of Lime and Sulphur to be added to the tank.

CENTRAL POINT

Mrs. Hazel Pruet had a fortnight visit with relatives at Medford. Mrs. Hazel Hartzell and little daughter left for their home at Minneapolis Saturday evening after several weeks' visit with Mrs. Hartzell's parents, Mr. and Mrs. J. C. Herrington. Mrs. Hartzell formerly taught in our local high school. L. E. Van Vliet, after a few days' visit with his daughter here, Mrs. J. J. May, left Monday morning for Redding, Cal. Mr. Van Vliet formerly resided here, but for the past few years has been farming in the Willamette valley. Mr. and Mrs. Moore, who have been visiting R. Manning and family, left Monday for Oakland, Cal. Mrs. Castor of Ellensburg, Wash., is here spending the winter with her daughter, Mrs. J. W. Penick, and her son, John Castor. Paul Lange was a visitor in Gold Hill Saturday evening. The many friends of Hugo Lange were very much surprised to hear of his marriage in Utah, and all wish him much success. J. L. May arrived the latter part of last week from northern California for a short visit with his family here. Mrs. Seldon Hill was a recent visitor at Seven Oaks. The Central Point high school basketball team defeated the Rogue River basketball team in a very close score here Friday evening. S. E. Wheeler spent a few days here last week renewing old acquaintances and attending to business matters here. Mr. Wheeler now resides at Willows, Cal. William Brower, our popular editor, made a business trip to Grants Pass recently. Mr. Lydiard of Table Rock is very busy nowadays unloading a car of beef mutton. Mrs. O. H. King and children left Saturday morning for Saldia, Cal., where they will join Mr. King. Mrs. Mary Barneburg, who has been visiting friends and relatives throughout the valley, returned to her home at Dorris, Saturday morning. The Madras Woodmen of America gave a supper to its members last Friday evening, which was greatly appreciated by all who attended. Miss Cecil Creeds spent Sunday with her mother and sisters here. H. B. McDonald will arrive in the city this evening from Mobile, Ala., and will visit relatives in Medford and at Elk Creek. E. P. Dean of Sacramento, Cal., is spending a few days in the city on business. Mr. and Mrs. O. R. Fente will leave Thursday for Portland for several weeks' stay. Mrs. Mary Fox of Grants Pass is visiting with Rev. H. M. Brannan and wife today. Dr. Myrtle S. Lockwood has returned from a business trip to Eugene, where she was in the city from Feb. 10 to 14. Carl Hanson spent Thursday at Grants Pass attending to business matters. Jim Dinkins has moved to Medford from Evans Creek.

LAMPOR CHARGED WITH SHIPPING LIQUOR

Prosecuting Attorney Roberts filed a complaint in justice court late Wednesday afternoon charging Ed Lampor, harness dealer of Medford, with unlawfully bringing liquor into the state. A jury will hear the case Friday at 2 o'clock. E. E. Kelly will appear in behalf of Lampor and Roberts in the case of the liquor.

OBITUARY

ANGLE—Wm. Angle, born Bradford County, Pa., near the town of Herrick, March 11, 1849. Died at home, 609 E. Main st., February 15, 1917, at 3 a. m. He came west when a young man and located near Jacksonville. Was married to Mary S. Walker, December 23, 1878. Located in Medford when the town was new and was one of Medford's first business men, being a member of the firm of Angle and Plymale, general merchandise. Built the block where Medford Pharmacy and Economy Meat Market now stand. Mr. Angle has not been well all winter, but was only confined to his bed a day. He leaves to mourn his loss, his wife, Mary S. Angle, four children, Prudence Phlat, Katherine Gaddis, Bernice Howard, Charles Angle, all of Medford, and one brother, L. L. Angle of Ashland, Oregon, and other relatives and friends. Funeral services will be held from the residence, 609 E. Main, Saturday at 2 p. m. Friends are respectfully invited. Rev. Hamilton officiating. Burial in I. O. O. F. cemetery.

NOTICE
