CITY COUNCIL ASKS GAS COMPANY FOR ACCOUNTING

Routine work and investigation of a number of petty matters occupied the attention of the city council at their mid-month meeting last night. An ordinance was passed authorizing the hiring of E. M. Wilson to audit the recorder's water accounts. This work is to be done preliminary to the turning over of water accounts to the city treasurer for collection.

The passage of a number of heavy tractors over the city pavement and the hauling of heavy loads through the city streets on narrow tired wagons has led the city fathers to consider the framing of a heavy traffic ordinance for the protection of the paving. Recorder Foss was instructed to communicate with other coast cities to ascertain their method of handling the problem.

When the local gas company was granted a franchise, one of the stipulations was that the company pay to the city 5 per cent of the gross receipts realized from the sale of gas for lighting purposes. Nothing has been paid the city. An accounting was demanded by the fathers. O. R. C. Grow, local manager of the company appeared and stated that he will take up the matter of adjustment with his company.

It was decided by the council that in the future the city recorder and treasurer must furnish surety bonds instead of the personal bonds now supplied.

A number of bills for free water were allowed, among them one for J. T. Ganyon of the Trail Lumber Co.

A spring cleanup campaign was launched, discussion centering last night on the question of cluttering up city alleys. Chief of Police Hittson has requested, in line with the cleanup, that persons having piles of manure around their premises, which they have saved for their gardens either apply the fertilizer or have it hauled away as with-the approach of warm weather the piles become objectionable.

The question of disposing of the heavy fire team, which is held in reserve when the other apparatus is called out, was again brought up. It was suggested that the team be sold and a light truck or trailer be purchased to carry reserve hose and chemical supplies. The matter was sent to committee for investigation.

UNIVERSAL TRAINING BILL SENT CONGRESS

WASHINGTON, Feb. 21.—After a conference with President Wilson, Secretary Baker said today he would send to congress this week the universal military training bill, drawn up by the army general staff. The secretary would not say what recommendation he would make but it is understood the president favors the principle of military training if it can be worked out in a practical way.

BREAD RIOTS BRING COMMENT AT CAPITOL

WASHINGTON, Feb. 21.—Yesterday's bread riot in New York claimed attention in the senate today during the debate on increases in salary for government clerks.

Senator Thomas, democrat of Colorado, expressed the opinion that increases in salary were no cure for the increasing cost of living because, he charged, those who control food prices, would raise them to keep pace with salaries.

"That is not the way to remedy bread riots as we are having in the metropolis of this country," said Senator Thomas. "The way to deal with that is to take those who corner food supplies by the throat. I dislike to see food riots in free America, but I can see that it might be the first step toward relief."

SAYS PACIFISTS NOT MOLLYCODDLES

NEW YORK, Feb. 21.—Former President Taft in an address here last night in defense of the aims of the League to Enforce Peace declared that at the time the Monroe doctrine was promulgated "it involved greater risk of war between this country and a European power than a league to enforce peace would now." If such a league had been established three years ago, he asserted the present world war would have been prevented.

Mr. Taft said that while his sympathies were not with the pacifists he did not believe it wise to call them "cowards, fools, or mollycoddles." It does not help in an argument, he added, to begin by calling the man you wish to convince "fool."

"We have not reached the time in the history of the world when we can abandon force," declared the former president. "We cannot assume that nations will always treat us justly; therefore if we have something to protect—and there is a vicious force abroad—nothing can prevent injury except the impression of force."

ROSEBURG HIGH TO PLAY MEDFORD

As the time draws nearer to the first toss up for the Roseburg high vs. Medford high basketball games for Thursday and Friday nights more interest and enthusiasm is being shown hourly by the local students and down town dopsters. This is largely due to the splendid improvement shown by the local quintette in their 27 to 6 walloping of the famous Ashland artillerymen last Friday. There were times in that game when the local boys unearthed some real class. The passing, aggressiveness, team play, and jaz displayed throughout brought hopeful comment and smiles of joy from the countenances of the ring-side followers.

Roseburg is coming with a veteran quintette built around the almost unanny center, Ted Jewett. Roseburg has undoubtedly by far the best team in the state. If there is such a title as state champions they rightfully own it. You will recall the hair raising finishes of both Roseburg-Medford games last year when Medford led all the way only to be nosed out by two or three points just before the whistle sounded. Of course in the coming games all the dope favors the visitors. However, the local high schoolers have a yearning eye on that state title and in more than one instance in the past the 50 to 1 shot has not lost.

UNITED STATES AGAIN DEMANDS RELEASE

WASHINGTON, Feb. 21.—The United States in a note transmitted to the Berlin foreign office, through the Spanish ambassador there, has again demanded the release of the Americans made prisoners on the prize ship Yarrowdale. In the absence of a satisfactory response to an inquiry sent recently it was decided to demand their immediate release.

THREE TRUE BILLS BY GRAND JURY

Three true bills were brought by the grand jury in Tuesday afternoon's hearings. Tom Kinney, Carl Hammond and Roy Watkins were indicted for the larceny of a hog. This case grew out of the killing of a hog belonging to a rancher on upper Butte creek, and attracted considerable attention when tried in Medford justice court.

John Ragsdale was indicted on two counts on a statutory charge, the charge being brought because of his relations with a daughter of his wife by a former marriage. The girl was under sixteen years of age.

True bills were found against Geo. Botts and Louis Layvine, accused of assault with a dangerous weapon. These two men figured in a break from the county jail two months ago. Botts escaped and Layvine is lying in the hospital with a broken hip. The men fired at a brakeman when he put them off a train in the Siskiyou.

QUIT MEAT IF YOUR KIDNEYS ACT BADLY

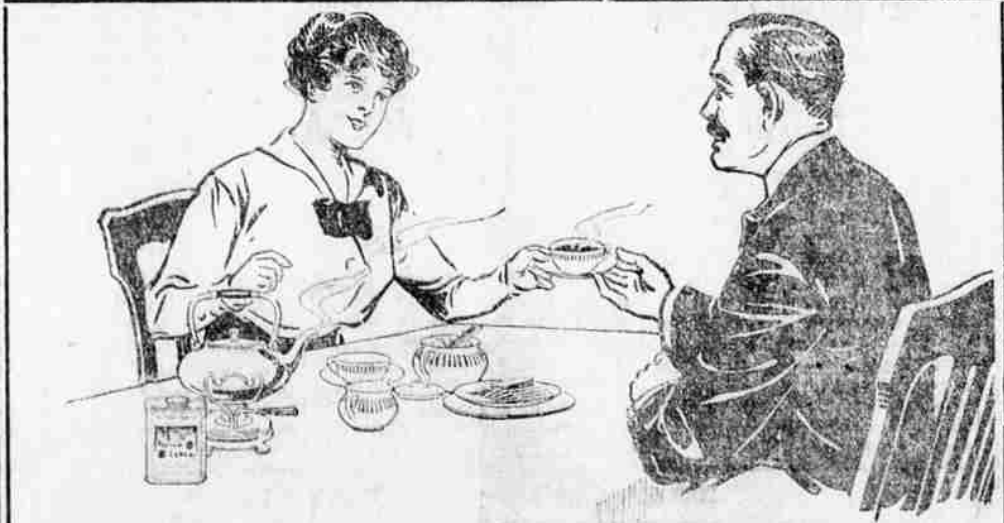

Take tablespoonful of Salts if Back hurts or Bladder bothers—Drink lots of water.

We are a nation of meat eaters and our blood is filled with uric acid, says well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning, and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.
