

U-BOAT CREW HAS LITTLE GIRL MASCOT

COPENHAGEN, Feb. 21.—Solveig Jacobsen, the six year old daughter of a Norwegian shipmaster, who has arrived here with her parents on the way to Norway, has the distinction of not only being the first child to make a voyage on a German submarine, but of being the guest during the eight day trip of the submarine commander, who is declared to have sunk the Lusitania. Solveig's father, Ivaan Jacobsen was master of the Norwegian ship Thor II, which was sunk by the submarine. The U-boat towed the ship's boats with the crew of twenty-eight toward land for awhile and finally left them to shift for themselves, but the commander retained the master, his wife and child on the submarine, while he continued the cruise. The operations, however, were of short duration, for the next ship encountered proved to be laden with ammunition for France. The submarine was so shaken by the terrific explosion when the steamer was torpedoed and by an encounter with a British destroyer, which all but sank the U-boat by ramming that one of its engines was put out of commission and the commander determined to make for his home harbor for repairs.

The submarine limped homeward along a route west of Ireland and north of the Shetlands, while dodging many British patrol ships and destroyers, finally came into port at Helgoland in fairly good shape, the crew having succeeded in repairing the engines on the voyage. Captain Jacobsen, the master of the Thor II, in describing the experiences dwelt on the human side of the man, who he came to understand was the Lusitania's destroyer as shown in the treatment of little Solveig. The child was adopted as a sort of mascot on the submarine and was decorated with a bit of ribbon from the commander's iron cross, which he received for an earlier achievement. The submarine's photograph of "Solveig's song" by Greig as the wailing melody for the child and the sailors made a pet of her in off-duty hours.

During the short stay at Helgoland where the Jacobsens were the first neutral visitors during the war, the commander in chief of the island called to pay his respects and presented the child with many souvenirs of her visit.

KINDNESS BRINGS GIRL \$10,000 GIFT

PORTLAND, Feb. 21.—Miss Ella T. Pearson, a stenographer, is tonight richer by \$10,000 than she was when she went to work this morning and all because, apparently, of her becoming conduct as she daily went to and fro across the old Albina ferry, Charles Clark, 84 years old, the ferry gateman, who was found dead in his bed last week, is her benefactor. His will was opened today. Miss Pearson was also named his executrix without bonds.

The two were scarcely acquainted, although Miss Pearson for several years, until two years ago, greeted him with "good morning," on going to work and with "good night" when she returned home. She had not seen him in two years.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Beautiful Lustre at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantage of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold. Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

ASHLAND AND VICINITY

The Ashland Art Shop is closing out its stock of goods in a big liquidation sale which will continue on Friday and Saturday of this week. Fellows, of San Francisco, whose prehensile digits roam over the keys in line with professional skill.

The culinary feature for evening on Wednesday's birthday, Thursday of this week, will be the dinner given under the Wednesday Afternoon club auspices, at Chautauqua hall. The meal will come under the classification of a New England repast and will be served from 5:30 till 8 p. m. All the substantial, as well as dainty eatables will be available. Everybody is fastening on Ash Wednesday preliminary to the feasting on Thursday, with some idea of the scope of preparation under way may be judged from the fact that the entire output of the cured meat department of Shinn & Schermer's market has been requisitioned for corned beef hash, a staple article of diet, which meets all the requirements of the New England prime food law.

Not a Bite of Breakfast Until You Drink Water. Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and protein-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

Remember inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do. Just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.
