MEDFORD WINS CHAMPIONSHIP FROM ROSEBURG

With both teams playing at a terrific pace in the first period the Medford high school basketball team last night took the lead from the Roseburg aggregation and carried away the honors 18 to 10. Both teams were played to a walk by the end of the first period, but while the dazzling speed of the local men seemed only to slay up their own game, the pace was too much for Roseburg's so-called champs and with the losing of their wind they also lost their wonderful team play and became badly disorganized. After Roseburg failed to convert several fouls there was nothing to it for the locals. Several players were compelled to take time out for minor injuries during the second period which was somewhat rough. It became apparent to Coach Klum's men after the first game of the three-game series with Roseburg that the only hope for a victory over the visitors was to mussy up their well oiled machinery and while the locals threw a monkey wrench into the aforesaid machinery Friday night, they most certainly threw the whole tool box in last night. The decisive victory over the so-called Southern Oregon champions last night seems to return the local men a sure winner over anything of their class in the state. The local stars were handicapped in the first game by unfamiliarity with their system, but when this was overcome they enthusiastically mussyed up plays and came back strong with the well known spirit that has brought victory against all opponents. Enthusiasm ran high throughout the game, the record-breaking crowd being well satisfied with the game as a spectacle over which to chortle although had the second period been up to the standard of the first, it would have proved more interesting.

1030 STUDENTS AT STATE UNIVERSITY

EUGENE, Ore., Feb. 27.—One hundred and two new students have enrolled in the University of Oregon since January 1, making the total enrollment on the campus 1030. The greatest number at any time before has never exceeded 861. This is a gain of 175, or over 25 per cent. Total registration in all departments except the extension and correspondence courses, is 1639. A decrease in the school of medicine was attributed not to the lack of applicants, but because the entrance requirements have been raised. Admission is refused to conditioned students, it is alleged.

BALTIMORE NEGRO LOST ON LACONIA

WASHINGTON, Feb. 27.—Late this afternoon Consul Frost called that Thomas Coffey, an American negro of Baltimore, was among the lost. Officials thought this probably was the negro seaman referred to in London news dispatches as Thomas Cassey. The consul's dispatch added to the list of survivors, Robert Gillis, Brooklyn.

Incidents of railroad traffic increased and the difficulties in supplying food and fuel. Women and children become heroes. At no time has the spirit of love of country stood the test as firmly as in the midst of suffering and want. "Gentlemen, since my last speech the military situation has hardly been changed. Everywhere our fronts are made stronger and our brave soldiers look with full confidence to their leaders who are accustomed to victory. Morally strengthened by the scornful refusal of our readiness for peace, our land fronts safely protected by the genius of our supreme army commander, on our water front victorious and many times more prepared than a year ago for submarine war, we look confidently toward the coming months which, as we hope, will be followed by the happy termination of the war."

A GREAT MEDICINE That most successful of all remedies for women's ailments, Lydia E. Pinkham's Vegetable Compound, owes its origin to a botanic recipe which came into the possession of Lydia E. Pinkham about fifty years ago. This recipe had proved so effective in the practice of a skilled physician that Mrs. Pinkham procured the herbs and steeped them in true old fashion on her kitchen stove for her friends and neighbors who suffered from women's ailments. The fame of the virtues of this wonderful medicine spread, until it is today recognized as the standard remedy for woman's ills.—Adv.

PEACE HANGING BY TECHNICALITY

LONDON, Feb. 27.—Under the heading, "Another Step for War," the Westminster Gazette today says: "President Wilson advances one step at a time, not whipping or rushing opinion, but allowing full opportunity between each step for opposition to develop, if there is any, and for cautious counsel to prevail if greater caution is possible. Clearly across the 3000 miles of sea the atmosphere still is cool and unexplosive." The Pall Mall Gazette says that peace between Germany and the United States now is hanging upon a thread of technicality.
