RETREATING TURKS CAUGHT BETWEEN SLAVS AND BRITISH

PETROGRAD, March 15.—The Turks are in retreat on the Caucasian front pursued by the Russians, the war office announces. Kermanshah has been captured.

The announcement follows: "In the direction of Sakiz our troops pressing the retreating Turks are approaching toward Banu. "In the direction of Hamadaj after an obstinate battle lasting two days our troops took possession of the town of Kermanshah. Pursuit of the Turks continues."

Petrograd has been shut off from the outside world for several days and the foregoing dispatch is the first word received from that source since the official statement of Monday. The absence of the war office reports for the first time in the war and even of press dispatches for such a period of time, gave rise to considerable speculation as to the situation in Russia, particularly in view of the disturbances in regard to the food shortage, which were in progress in Petrograd at last accounts.

The official statement indicates a vigorous Russian offensive on a wider front in Persia than had been previously reported. The capture of Kermanshah, which is about eighty miles southwest of Hamadan was reported unofficially from London yesterday. The town referred to as Bana probably is Baneh, 130 miles northwest of Kermanshah and only about ten miles from the Turkish border. It is well to the north of the Turkish army defeated by the British in Mesopotamia, which may be cut off if the Russian advance continues.

TO OPEN PORTS TO ARMED SHIPS

COPENHAGEN, March 15.—The right of American armed merchantmen to enter neutral ports of Europe is the subject of negotiations being carried on by diplomatic representatives of the United States.

Dr. Maurice Egan, American minister to Denmark, like his colleagues at other courts, took up the subject anew a few days ago but as yet has received no reply from the Danish government.

It is understood that among the European neutrals, Sweden and Norway have no objection to use of their ports by armed merchantmen. Holland, which has barred belligerent armed merchantmen from its harbors, is expected to extend the same rule to armed American merchant vessels.

CALLS FOR REPORT ON FOREIGN SHIPS

WASHINGTON, March 15.—A resolution by Senator Stone, adopted by the senate today, calling for a report on all foreign ships coming under the American flag during the last fifteen months, was generally accepted as intended to develop what all ships had changed registry since the German campaign of ruthlessness began on February 1.

About the same time it was announced that a strict censorship had been instituted by the commerce department regarding all marine affairs. Hereafter information regarding shipbuilding and registry transfers will be withheld.

The treasury department some time ago ordered port authorities to discontinue the practice of announcing the clearings and sailings.

COMPULSORY MILITARY TRAINING.

THE army bill, which failed to pass the senate on account of the filibuster against the armed ships bill, contains a universal compulsory military service clause, endorsed by the president. It was this measure, and not the armed ship bill that occasioned his filibuster, stated Senator La Follette in the debate over the cloture rule.

The universal service bill was introduced by Senator Chamberlain. Certain paragraphs from it were added as a rider to the army bill by the senate military affairs committee, after a sub-committee had conducted an elaborate series of hearings and embodied them in a report, which has not yet been printed.

The bill provides for six months compulsory military training and would have brought into such training 400,000 boys aged 18 every year, who would be liable to nine years service in time of war.

The Mail Tribune has always been opposed to compulsory military training as affording a basis for the establishment of militarism. An exhaustive study of the subject, however, together with the lessons taught by the European war, brings the conviction that it is not only beneficial, but necessary for the preservation of democracy. It can be prostituted, as in Germany, and made to serve unholy ends, but properly used, as in Switzerland, it averts militarism.

The standing army, with its caste system is a survival of feudalism and makes for autocracy. Universal service, as in France, creates true democracy and sounds the doom of autocracy. The world struggle in the future as in the past, lies between autocracy and democracy, and a proper system of military training will afford the best preparedness for democracy against "mad-dog" autocracy in its frantic struggle to perpetuate privilege.

We have not at hand the details of the proposed training bill, but its outline, as reported in the press dispatches, indicate that it is inadequate in that it does not go far enough, for every youth in the country should receive a few months physical training.

Compulsory training will do much to develop citizenship and humanity. It will improve the race physically and mentally, create a united nation by abolishing racial differences and eradicate the narrow provincialism bred by isolation, the present curse of the country. It will aid in creating efficiency and in building the nation.

SENATE EXPRESSES DIVIDED VIEWS ON COLOMBIAN TREATY

WASHINGTON, March 15.—Divided views of the senate foreign relations committee on the treaty to pay Colombia \$25,000,000 for the partition of Panama were made public here today before the senate began debate on the subject.

"The treaty," says the report, which favors the convention, "should be considered solely on its merits as a question of the present moment without regard to the circumstances out of which the long standing differences between Colombia and the United States originated."

The minority report, which opposes the treaty, denies that the United States was guilty of any misconduct in connection with the partition of Panama and asserts that the "Colombian government has no just or equitable claim against this nation for an act on our part in connection therewith."

"We cannot afford to purchase cordial relations with any country," says the minority. "We cannot afford to answer a blackmail demand. Once respond to such a demand and we shall be held up for every fancied wrong by other countries."

FIGHTING CONTINUES CHAMPAGNE REGION

BERLIN, March 15.—French attacks against the German positions on the slope of Hill 185 in the Champagne region, were repulsed yesterday by the German fire, says today's official statement issued by the army headquarters staff. On the west bank of the Meuse, south of Culmbach the Germans captured a French post and brought in a number of prisoners.

PARIS, March 15.—"East of the Oise a surprise attack which we made in the region of Moulins-Sous-Toutant enabled us to take prisoners," says today's official statement. "Several German attacks on small French posts in the vicinity of Vinnee west of Navarin farm and in the Argonne were broken up by our fire. In the region of Malsous de Champagne there was rather spirited artillery firing without infantry actions."

"There is nothing to report from the remainder of the front."

MURDERER SAYS CRAZY FROM BLOW

OLYMPIA, Wash., March 15.—John Von Dell, on trial charged with the murder of State Industrial Insurance Commissioner E. W. Olson is the commissioner's office in the state capitol February 1, went on the witness stand in his own behalf today. Von Dell, without questioning, told a running story of an accident to his head in a logging camp, his treatment in a hospital and his trouble with the insurance commission over the nature of his injury, which the commission contended was not serious.

Von Dell said he fell in love with an eighteen-year old girl at the hospital and this upset him as much as anything else. He continued: "My head was light. I couldn't reason, and I remember only vaguely what happened. It was all on account of my being hit on the head by a haul-back line. I had the sense knocked out of me."

GERMANY WATCHING COURSE OF SWEDEN

LONDON, March 15.—An Amsterdam despatch to Reuters says that the Dutch papers give prominence to an article by Count Von Reventlow on the position of Sweden, which is reprinted from the Berlin Tages Zeitung. Count Von Reventlow contends that Great Britain is trying to influence the affairs of the neutral countries by increasing the number of her consuls and concludes: "A decision cannot long be delayed. Germany does not await with platonic interest the development of the future attitude of Sweden toward the demands of the entente, but regards it with a watchful eye. The future attitude of Sweden is of the highest direct importance in regard to the war."

BANDITS GET GEMS IN FINE ARTS PALACE

SAN FRANCISCO, March 15.—Bandits broke into the palace of fine arts on the Panama-Pacific International grounds early today and in a room housing an exhibit of rare Jewels valued at \$60,000, shot John Hall, night watchman, who returned their fire as they escaped. Nothing was taken.

Hall confronted the robbers with a revolver as they climbed through a window, but they were too quick for him and sent a bullet into his shoulder. He returned their fire from the floor.

Hall crawled to the telephone and called police headquarters for help.

ALLIES DESIRE FOOD NOT SOLDIERS FROM AMERICA

NEW YORK, March 15.—"The allied nations do not want the United States to send a great expeditionary force to Europe in case of war with Germany," said Judge Henry Neil of Chicago, today, on the eve of sailing for Spain, from which country he expects to go to England.

Judge Neil has been "home" only a few weeks. He is returning to England to keep a series of lecture engagements, under the auspices of the British Children's society, which is aiding distribution of pensions to dependent widows and children of soldiers killed on the battlefields.

"While I was in England on my recent trip," said Judge Neil, "I talked with many members of parliament, judges and other people in public life. They told me Great Britain did not want America to go to war with Germany, in the sense of sending armed soldiers to the battlefields of Europe."

"America can do more to help the allied cause by continuing her production of food and sending it to England. It is economic, rather than military aid, that America can render in this crisis."

"With forty five million people in England, and the necessity of feeding five million soldiers on the continent, England's food resources are naturally strained to the utmost, especially with the intensified German submarine campaign on."

"Notwithstanding this fact, food is cheaper in England than it is here. This is because the government is controlling the prices of foodstuffs."

"The final determination of this war will rest on food supply—it has been so in all past wars, and it is so today. "I believe the United States would have been at war long ago—we would have gone to war over the Lusitania incident—if President Wilson had not known that the best way to aid in the overthrow of Germany was for America to keep up her role as groceryman for Europe."

PRUSSIAN DIET TO CURB POWER OF HOUSE OF LORDS

BERLIN, March 15.—The following motion has been introduced in the Prussian lower house by Herr Friedberg, leader of the national liberal party:

"The house resolves to request the royal state government to present a bill by which membership in the house of lords will be changed in such a way that while retaining the royal privilege of appointment, but abolishing all privileges of families and dignitaries which now exist in relation to membership in the house of lords, representation by means of elections and corresponding to their importance be granted to all large municipalities and to all professions of importance for the economic life and the civilization of our people."

The house is expected to discuss the motion shortly.

The adoption of a measure such as that proposed by Herr Friedberg would be an important step in the political re-organization which has been discussed so widely in Germany of late. The herrenhaus or house of lords, is composed of princes of the royal family, chiefs of mediolized princely houses, heads of territorial nobility, life peers chosen by the king, titled noblemen elected in certain provinces by land owners, representatives of universities, burgomasters of towns with more than 50,000 inhabitants and members nominated by the king for life or for a restricted period.
