Today's car receipts: Wheat 6, flour 5, hay 5.

PERSHING SPENDING VACATION, LOS ANGELES

LOS ANGELES, March 22.—Major General John J. Pershing, commander of the southern department, arrived here unexpectedly early today in his private car "Teche," to "get a breath of fresh air." He said it would be his first vacation in a long time. He will remain here two days, living in his car, on the Southern Pacific tracks. Hesaid his visit had no military significance.

EAGLE POINT EAGLETS

By A. C. Howlett

Last Saturday afternoon, as per announcement in the Mail Tribune, there was a meeting of the farmers in Brown's hall, the object being to perfect the organization of the club, elect permanent officers and decide on a name for the organization. There were twenty names enrolled and A. E. Strong was elected as president and Frank Brown, treasurer and secretary. The name, "Go Get 'Em Club" was the name adopted. By-laws, already prepared by Carl Narrigan, were adopted, requiring each member to pay an initiation fee of fifty cents to become a member, with the understanding that each member is entitled to that amount of the prepared poisoned grain. The plan is to have the county employ what is to be called a county mixer, whose duty it will be to prepare the poisoned grain ready for use, at the expense of the county and distribute it to persons appointed by the county court, and they distribute it to the farmers at the cost of production. And it was estimated that that would be about 8 or 10 cents a quart, and each member of the club is entitled to enough of the prepared grain to amount to what money he or she has paid into the local treasury. It is further understood that each member is to use all diligence in trying to exterminate the digger squirrel. By that means the farmer can get rid of one of the greatest nuisances in the country and save a hundred times what he will have to expend in ridding the country of the pest. It is the expectation that the "Go Get 'Em Club" will have an increase in membership until it reaches into three or four figures, for almost every farmer with whom I have talked seemed favorably impressed with the feasibility of the plan.

Irvin Daley of Lake Creek came out with a load of potatoes for Geo. Brown & Sons and took back with him a load of doors and windows for his new house he is building on his father's farm last Saturday.

Charles Clark, who is preparing to build on his farm as soon as he can get the lumber on the ground, is stopping at present at the Sunnyside.

Saturday Carl Ringer and Mr. Launspaugh gave a dance, but before the dance the Haines-Wilbur Stock company gave another of their vaudeville entertainments by special agreement with the parties who had the opera house engaged and I learn that they had a twenty dollar house at 10 to 25c admission, and then Mr. Ringer reports that he and his partner sold sixty-four tickets at one dollar each, and still we talk about the

There was quite a company came to

There was quitea company came to the Sunnyside for beds and breakfast, among whom were Lyle Purdin, Nick Nickleson of Medford, Miss Ruth Thomson of Derby, Jay Spitzer and Glen and Percy Haley, besides quite a number of our neighbor boys, and for dinner Sunday Mr. and Mrs. L. B. Brown and daughters, Helen and Mae, L. J. Kenny, F. Kenny and Fosma Kenny of Medford, Philip Jackson and wife, William Von der Hellen, wife and son, Hugo, and daughter Joyce, Charles Clark, Geo. P. Haines and wife, Miss Peggy Hilehorest and Walter DeSormas, beside some half dozen of our young folks who come almost every Sunday for dinner or supper.

George B. Brown of Brownsboro was an early visitor in our town Monday morning. He says he has sold all his sheep except two hundred and fifty and that he is going to grade them up and keep nothing but a high grade of sheep. He sold one hundred and fifty-two to the Grissom brothers.

Perry Foster of the Debenger Gap settlement was a business caller Monday.

Ed Dutton, our efficient road supervisor, passed through town Tuesday morning on his way to the Reese creek country with a road drag to level down the roads in that section.

George (Pete) Stowell was in town Tuesday morning after a small load of shakes to add to his shed room, as he is planning to go into the dairy business on a large scale. He reports that he has done fine in the egg business this past winter, as his hens are bringing him in an average of about fifty dollars a month; that during January and February he sold one hundred and ten dollars worth of eggs. I was talking to one of my neighbors about what he said and he replied, "But he did not tell how many dollars a month of wheat he had fed his hens," and I told him no, but he said that he let the hens feed themselves by putting away a lot of wheat in the sheaf at harvest time and letting them thresh it out themselves, giving them plenty of exercise and keeping them healthful.

George Brown & Sons have had a car of cedar fence posts brought out from Butte Falls to supply the demand here.

Mr. Bass, owner of a small orchard southeast of here about two and a half miles, also an owner and director in the Continental Orchard company on Antelope, arrived Tuesday morning from his home in, I think, New York state. He came out to look over his interests and to attend a meeting of the board of directors of the C. O. company.

There were two cars partly loaded with hay passed through here for Derby and Butte Falls Tuesday. I learned that one of them was for Benjamin Fredenburg of Butte Falls. Ther is no telling how much longer the stockmen will have to feed their cattle before they can turn them out on the range, as I have just learned that there was two inches of new snow fell last Tuesday night at Butte Falls on the old snow. Some of the stockmen are turning out some of their stronger cattle in the foothills where there is plenty of chaprrel for them to brouse on.

Fred McPherson and Mr. Lewis passed through here with about a hundred head of cattle Tuesday to be turned out on the range.

There was over a car load of spray dope came in Tuesday for the different orchardists in this section; twenty-five barrels for the Corbin orchard and six for the Tronson orchard and the rest is scattered around the country.

Eugene Bellows and wife brought in this week's supply of cream Tuesday.

Mr. Wiseman was here for another load of lumber. He has to haul it about eight or nine miles to get it two and a half miles, on account of the bad roads.

Mr. Gaddis, and Mr. Gray, one of the firm of Gaddis & Dixon, and one of their traveling men, were out here Tuesday taking pictures of our suspension bridge.

Since my last report Ed Conley, manager of the T. E. Nichols general mercantile store, and Mrs. D. S. Nichols, have renewed their subscriptions to the Daily Mail Tribune.

THE MEADOWS

Our mines are doing well this wintry weather that is still with us. Over on Cinnabar mountain Albert Cummings and Walter Frank are steadily sinking their shaft on the Lone Pine group and are uncovering a splendid showing. The ledge parallels the one upon which the Mountain King, The Mrs. Dewey, Little Jean and Utah properties are located but is nearly two miles away over across the valley of Upper Evans creek. The values here are proving persistent with depth.

Dave Cottrell has been spending much of his time in Medford for the past week.

The muddy roads and snowy weather is keeping school attendance at the minimum.

Congratulations are being extended Supt. W. Weybright of the Utah Quicksilver property, who during his vacation in Medford and Grants Pass was married to a most charming young lady. It is hoped that she will soon become one of our citizens where she will be expected to take an active part in the social life and will be much welcomed.

Fears are expressed that the late spring is to interfere seriously with the crops for 1917. The ground that was not plowed last fall and is as yet covered with snow can scarcely be gotten into shape for this year's crop unless planted to some short season crop. Fruit however, is expected to show a phenomenal yield. The cold is holding the buds back until there will be less likelihood of loss by freezing, for we are all counting on having summer once it starts.

Losses of cattle have been small notwithstanding the exceptional winter. No one was prepared for such a long siege.

Surprisingly Good Cough Syrup Made at Home

Costs Very Little and Easily Made, but is Remarkably Effective.

You'll never really know what a fine cough syrup you can make until you prepare this famous home-made remedy. You not only save $2 as compared with the ready-made kind, but you will also have a more effective and dependable remedy in every way. It overcomes the most obstinate coughs, throat or chest colds in 24 hours—relieves even whooping cough quickly.

Get 2½ ounces of Pinex (50 cents worth) from any good drug store, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. Here you have a full pint—a family supply—of the most effective cough syrup that money can buy—at a cost of only 54 cents or less. It never spoils.

The prompt and positive results given by this pleasant tasting cough syrup have caused it to be used in more homes than any other remedy. It quickly loosens a dry, hoarse or tight cough, heals the inflamed membranes that line the throat and bronchial tubes, and relief comes almost immediately. Splendid for throat tickle, hoarseness, bronchitis, croup and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, combined with guaiacol and has been used for generations for throat and chest ailments.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

ORDINANCE NO. 876.

AN ORDINANCE providing for the transfer of certain moneys from the Water Fund to the Sinking and Interest Funds.

THE CITY OF MEDFORD DOTH ORDAIN AS FOLLOWS:

Section 1. That for the purpose of paying the interest due March 5, 1917 on the $45,000 issue general obligation bonds, the sum of $1,125.00 is hereby appropriated and transferred from the Water Fund to the Interest Fund. That for the purpose of adding to the Sinking Fund, previously provided, a sufficient amount with which to take up and redeem $15,000 of the $45,000 general obligation bonds maturing March 5, 1917, the sum of $866.00 is hereby appropriated and transferred from the Water Fund to the Sinking Fund. These transfers are both pursuant to the refinancing plan recently adopted, on the basis of which the 1916 budget was made up.

Section 2. Whereas the credit and financial standing of the city is dependent on the paying of interest coupons and the redemption of bonds when due, and whereas the above mentioned payments were dependent upon these transfers of funds and inasmuch as it is therefore deemed urgent that this ordinance pass in order to preserve the peace, health and safety of the inhabitants of this city, an emergency is declared to exist and this ordinance shall be in full force and effect from and after its adoption by the council and approval by the mayor.
