LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezeone, which the moment a few drops are applied to any corn, the agonies is relieved and soon the entire corn, root and all, lifts out with the fingers. It is a sticky ether compound which dries the moment it is applied and simply shrivels the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quart very little of an ounce of freezeone, but is sufficient to rid one's feet of every hard or soft corn or callus. You are further warned that cutting at a corn is a suicidal habit.
