Girls! Use Lemons! Make a Bleaching, Beautifying Cream

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams.

Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, smoothener and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It naturally should help soften, freshen, bleach and bring out the roses and beauty of any skin. It is simply marvelous to smoothen rough, red hands.

A QUESTION OF PATRIOTISM.

THOSE of us who have to stay at home can best serve their country by cultivating the idle land. Every acre of soil in the valley should be made to produce something this year.

America's principal part in the world wide struggle will be feeding the belligerents. There is a world shortage in staples and \$2 wheat and \$16 hogs are the result. There is a market for everything that can be grown and crop prospects were never more promising.

One of the principal troubles of the valley is that we do not produce sufficiently, even in normal times, for our population. There are too many idle people as well as too much idle land, too many seeking wealth by speculation, too few by honest industry.

This year it is not only a question of production—it is also a question of patriotism. You owe it to your country to plant every available acre.

SEND ARMY TO EUROPE.

IT IS to be hoped that the United States sends the regular army to the European battlefields at once. American participation should not be limited to money and good wishes. We cannot put a punch in the war by hiring others to do our fighting. We cannot keep our own self respect and employ substitutes to beat back Prussian barbarism in the trenches.

Any such course as that suggested by some congressmen of waiting until we trained an army of a million before aggressive action, would justify the German opinion of America—that we have become soft and good for nothing but dollar chasing.

Berlin believes that long before the United States can train and equip an army, that the European war will have been won by Germany, which will then be in shape to reimburse herself the cost of the struggle from America's overflowing treasury.

A large part of the world entertains the German opinion that the United States is a helpless nonentity when it comes to fighting—a huge, disorganized inefficient mass. It is our duty as well as privilege to smash some of these illusions—to prove that not even Prussian militarism can evolve a better fighting machine than democratic America.

The moral effect of a division of American of the battlefield would be beyond calculation. It would inspire the allies with enthusiasm and be a warning to Germany that they are facing efficiency instead of the fatty degeneration they expect.

COMMUNICATION

To the Editor:

In your paper yesterday you charged me with a number of things, most of them being false and if unanswered will work irreparable damage to my reputation, especially among persons who do not know the facts, hence this correction which I trust your sense of fair play will induce you to publish.

While I do not want to see our country at war, I have made no "seditions pro-German speeches," as charged in the article referred to, nor against the president and administration in general.

I am not a German; I was born in the state of Indiana; my parents were both natives of the United States, one being born in Ohio, the other in Indiana; my grandfather on father's side was a native of the U. S. and my grandfather on my mother's side was born in Wales. My wife is a German by birth, speaks fairly good English, and is in nowise in sympathy with the German emperor in this war.

As to my record: I served the U. S. as a regular soldier in the U. S. regular army, have been a law-abiding citizen all my life and while deploring war, am ready to serve my country at any time if needed.

CONGRESS ASKED FOR THREE BILLIONS TO FINANCE WAR

WASHINGTON, April 6.—Congress was asked today to provide immediately \$3,400,000,000 to finance the war for one year, approximately as follows:

For the war department \$2,952,000,000.

For increasing the authorized strength of the navy to 150,000 men and the marine corps to 30,000 men, \$175,855,762.

For other necessary expenditures for the naval establishment, at the direction and discretion of the president, \$292,528,790, and for the coast

GERMAN SHIPS PROMPTLY SEIZED AT NEW YORK

NEW YORK, April 6.—Deputy marshals from the office of the collector of the port began today the seizure of the German merchant vessels, 27 in number, which took refuge here at the beginning of the war.

The first vessels taken over were the Hamburg, Koeln, Wilhelm II, Prinz Elter Friedrich, Prinz Joachim and Allemanna in the Hudson river at the foot of 125th street.

These ships total 38,128 tons and there are 41 officers and 173 men in the crews.

The boarding party comprised deputy marshals and collectors, immigration agents and United States infantry. When they took possession some of the Germans were disturbed but for the most part they exchanged jokes with their visitors. The crews assembled personal effects and were taken into Ellis Island pending orders as to their disposition.

Captain Letter of the Koenig Wilhelm II and several of the sailors protested against this procedure, saying they had American citizenship papers. It was decided to detain them until their status was announced in Washington. A small guard of soldiers was placed on each vessel.

GERMAN COLONEL HAWAIIAN GUARD ASKED TO RESIGN

HONOLULU, T. H., April 6.—The resignation of Lieutenant Colonel Charles W. Ziegler of the Hawaiian National Guard, was tendered shortly after it had been demanded today by Governor L. E. Pihngam, who made the demand at the instance of Brigadier General Frederick S. Strong, U. S. A., commanding the department of Hawaii.

General Strong based his demand for Colonel Ziegler's resignation on the fact that the colonel presided February 7, at a meeting here of the German-American alliance at which a resolution was adopted demanding that the question of war with Germany be submitted to popular vote and at which speeches, which General Strong regarded as disloyal, had been delivered unrebuked by Colonel Ziegler.

Corns Loosen Off With Magic "Gets-It"

2 Drops Do the Work, Painlessly.

"I tell you, before I heard of 'Gets-It' I used to try one thing after another for corns. I still had them. I used bandages and they made my

too so big it was murder to put on my shoe. I used knives and other things that ate off more of the toe than they did the corn. I'd cut and dig with knives and scissors, but now no more fooling for me. Two drops of 'Gets-It' did all the work. It makes the corn shrivel and get so loose that you can just pick it right off with your fingers. There has been nothing new discovered for corns since 'Gets-It' was born. It's the new way—the common sense, simple, sure way. 'Gets-It' is sold everywhere. Get a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill. Sold in Medford and recommended as the world's best corn remedy by Leon B. Haskins, Medford Pharmacy, and Health's Drug Store.

PLANS FOR 2,000,000 ARMY IN TWO YEARS MADE PUBLIC

WASHINGTON, April 6.—How the government plans to raise a war army of a million men within a year and 2,000,000 within two years was disclosed upon the passage of the war resolution by the house.

The bill prepared by the general staff and approved by the president for submission to congress provides for the immediate filling up of the regular army and national guard to war strength of more than 800,000 by draft unless enough volunteers enlist quickly, and for bringing into the service by late summer of the first 500,000 of the new force of young men between the ages of 19 and 25 years to be called to the colors by selective conscription.

First Army of Officers In drafting its program, the staff recognized the fact that the United States must start at the beginning and train first an army of 100,000 officers and non-commissioned officers to undertake the training of the thousands of youths who will enter the service with no notion of military duty or life.

Expansion of the present regular army to its full war strength of

287,000 enlisted men and 11,700 officers, means many new regiments of all arms to be created by dividing existing regiments and filling each half to war strength with volunteers or conscripts. The national guard regiments, all of which can be called in the federal service under the existing laws will have approximately 327,000 men and 10,300 officers at war strength. No new regiments of the guard would be organized and the full limit of the national defense act would be invoked to wipe out any distinction between federal and state forces. Here also volunteers would be received and drafted into the service only when necessary.

These two steps would provide a total force of 614,000 men and 22,000 officers, to be supplemented by a recruit organization for each unit making additional 200,000 men under training, but to be held in reserve to fill gaps in the active army as they occurred.

For five months these expanded forces would be subjected to training of a character hitherto unknown in this country. Simultaneously the registration of all men between the ages of 19 and 25 will be carried out with federal, state and municipal authorities co-operating.
