PROVING PATRIOTISM.

THE well to do and the rich are showing their patriot-
 ism not only by offering their personal services in the
 war, but by proposing that the war be financed largely by
 confiscation of incomes—or as it is put "income conscrip-
 tion." It is proposed that during the war the government
 take all private incomes above \$100,000 a year, and below
 that a sliding scale of tax be provided which will run down
 to two and one half percent on incomes of \$5000. It is also
 proposed that the profit be eliminated from supplying war
 materials and munitions, and that a maximum profit of
 three and a half percent net be permitted.

Taxing the very rich and cutting out the profit upon
 will make it possible to meet war costs as they accu-
 mulate without leaving a crushing bonded indebtedness
 to burden future generations, and the fact that such a pro-
 gram is put forward by the rich themselves is the best pos-
 sible answer to the German lies that Wall street and the
 munition makers have forced the war for selfish profits.

This program of income conscription is urged by the
 National Chamber of Commerce of the United States,
 which has appointed a committee to take up the matter of
 "Economic Patriotism." Secretary Goodan announces the
 program as follows:

"Our organization favors the principle that the basis
 of supply of government requirements in war and peace
 from private sources should be at a profit so low as to pre-
 clude a profit interest in war."

In pursuance of the plan the Council of the National
 Defense has endorsed the program of a small guaranteed
 profit upon munitions and supplies. The great copper and
 smelting interests have agreed to furnish the government
 all the copper needed for the war at half the market rate
 of copper. The shipbuilders of the nation have agreed to
 build the new navy on a basis of ten percent profit. The
 United States Steel corporation has agreed to do the same
 thing for steel products that the copper interests have
 done for copper products. The munition firms must do
 the same thing or the government will take over their
 properties.

Financial America, one of the organs of wealth, speak-
 ing of the subject says:

"Financial authorities are virtually unanimous in holding that
 the United States government should at once adopt the policy of radically in-
 creasing taxation in the event of actual hostilities with Germany, stating
 that one of the greatest mistakes of war financing, both in this country
 and abroad, has been failure to increase government revenue by conscrip-
 tion of individual income. As opposed to government loans, it is pointed
 out that the taxation policy more speedily symbolizes the industrial forces
 of a nation for the support of an army in the field and also actually en-
 ables a country to borrow better by enforcing thrift among its people."

Such expressions and such actions, coming from such
 sources, show that there is a much higher type of patriot-
 ism in the United States than our socialist agitators have
 led us to believe—they anger ill for the success of the Ger-
 man propaganda to divide the nation. Back of the presi-
 dent stands a united nation willing and ready to make any
 sacrifice to maintain national honor, safeguard liberty
 and perpetuate democracy.

Sunday's attendance was among the
 average, and the interest between the
 men and women's classes is still
 growing.

For special music, we have a quar-
 tette, and Mr. Forest C. Edmeades
 will sing a solo.

Easter Sunday is our regular time
 to remember the National Benevolent
 Society at St. Louis, and is our op-
 portunity to help the orphans of our
 own church.

Tomorrow, "Everybody on time
 with a liberal offering, a studied les-
 son and a mind to learn."

Lord's Supper service will close in
 time to attend services at other
 churches.

Wednesday evening, April 11, we
 are counting on a treat. Our Chris-
 tian minister of Salem, F. T. Porter,
 will lecture in the church on "Angelic
 Ministries." A number of our people
 know Bro. Porter and all say we will
 have a great subject and splendid
 lectures, being well illustrated by
 stereopticon. No admission will be
 charged but a silver offering will be
 taken.

Bring your friends and let's fill
 the church.

**IRON KNOB MINE
 TO BE BONDED**

Negotiations are pending for the
 purchase or lease and bonding of the
 Iron Knob mine in the Squaw creek
 district to Salt Lake mining men,
 whose representative has examined
 the property thoroughly. The Iron
 Knob is a sister mine of the Iron
 Hand, although the Great Eastern
 group lies between them. Both the
 Iron Hand and Iron Knob are owned
 by Spencer & Spiker, who have done
 a deal of development work on them
 during recent years.

Assays of ore from the Iron Knob
 are very attractive, according to the
 statement of its owners and the in-
 vestment's investigator. Copper and
 gold are found at the grass roots. Old
 miners regard it as a "comer."

Bruce Buck and others, who own
 the Great Eastern group, recently re-
 fused a \$30,000 bond offer on that
 property. It is understood that ne-
 gotiations are pending with Salt Lake
 parties for that property also.

There is much assurance that the
 Squaw creek district will speedily be-
 come one of the most active mining
 sections in this vicinity.

**TACOMA COMPANY
 BONDS 'INVESTOR'**

The "Investor" quarry, on the
 Middle Fork of the Applegate, about
 six miles west of the Blue Lodge
 mine, has been under bond in the
 sum of \$25,000 for some time to a
 Tacoma company. The Investor is

owned by Page & Dressler and A. T.
 Lundgren of this city. Samples of
 the marble were brought down from
 the quarry yesterday by Mr. Lund-
 gren for shipment to Tacoma. They
 are specimens of fine marble—prob-
 ably as excellent in quality as any
 found in that extensive region of
 marble deposits.
 The owners of the quarry have
 strong reason to believe that they
 will sell the claims, comprising about
 100 acres, to the Tacoma marble
 workers, now that there is hope of

a railroad into that region in the
 near future. A number of Medford
 people are interested in marble quar-
 ries in that section, some of whom
 are negotiating with Portland par-
 ties for the sale of their interests.
