PALL OF SILENCE CAUSED BY STRIKES CENTRAL EMPIRES

A pall of silence has fallen over the central empires, serving to accentuate the reports of grave internal troubles. In spite of the assertions of the German press that the great Berlin strike which involved at least 300,000 workers is over, there is evidence that agitation is continuing. The Berlin Tageblatt admits that the members of two of the munition workers unions have refused to return to work and says that those who persist in their refusal will be called to the colors.

The meager light which sifts thru the veil of the German censorship disappears entirely in the case of Austria. Following persistent reports that Count Tisza, premier of Hungary, and foremost exponent of the dual monarchy of the German idea, had resigned, all information as to conditions in Vienna or Budapest has ceased. The one thing that appears certain is that the socialists and radicals in both empires have recently drawn much closer together and that inflammatory language is being used with an impunity inconceivable in the earlier days of the war.

In the meantime the revolutionary spirit which is rampant throughout Europe has given a sensational demonstration in Sweden. The food situation is ostensibly the cause of the remarkable events in Stockholm, where a great multitude of workers tried to force their way into the parliament building. The fact that there were unrebuked shouts for a republic and that the ominous word "revolution" was freely used gives another aspect to the affair. The royal castle is under guard and more serious outbreaks are predicted for May 1.

FOUR WEEKS IN HOSPITAL

No Relief—Mrs. Brown Finally Cured by Lydia E. Pinkham's Vegetable Compound.

Cleveland, Ohio.—"For years I suffered so sometimes it seemed as though I could not stand it any longer. It was all in my lower organs. At times I could hardly walk, for if I stepped on a little stone I would almost faint. One day I did faint and my husband was sent for and the doctor came. I was taken to the hospital and stayed four weeks but when I came home I would faint just the same and had the same pains. A friend who is a nurse asked me to try Lydia E. Pinkham's Vegetable Compound. I began taking it that very day for I was suffering a great deal. It has already done me more good than the hospital. To anyone who is suffering as I was my advice is to stop in the first drug-store and get a bottle of Lydia E. Pinkham's Vegetable Compound before you go home."—Mrs. W. C. Brown, 2844 W. 12th St., Cleveland, Ohio.
