Anyone wishing to see an excellent cover crop of fall sown vetch will be well repaid by stopping at R. L. Wilson's, about one mile off the highway at Beall lane, near Central Point. Cover cropping is going to be the cheapest method of adding fertility to the soil as well as improving it physically by the addition of humus. Stick soils can be improved wonderfully by having one or more cover crops plowed under.

ONLY WOMAN PRESS AGENT FOR CIRCUS VISITS MEDFORD

Miss Emma C. Miller, general press representative of the Al. G. Barnes circus, that comes here on May 2, spent Tuesday in Medford looking after the publicity interests of the big animal show. Miss Miller has proven a great success and demonstrated that women can make good in this hitherto exclusively masculine calling.

Whether it is due to the novelty of a lady press agent, or her own attraction, tact or ability, or all combined, Miss Miller gets the publicity—and that is what she is after—gets more for her circus than any other circus has been able to secure, and the prosperity of the Barnes show enjoyed last year is attributed in no small degree directly to her efforts.

Miss Miller is an experienced newspaper woman but reverses all men agent rules by modestly veiling herself in mystery—and she says that accounts for her success—that and the fact that she is representing the "most marvelous wonderful show on earth, representing an investment of over a million dollars with the finest collection of wild and trained animals ever gathered together under canvas."
