

FIRST WOMAN CONGRESSMAN QUITE POPULAR

Miss Rankin Generally Liked by Colleagues—Attitude Toward Her Like That of Big Family Boys Toward a Little Sister—Has Good Deal of Tact and Common Sense.

BY GILSON GARDNER.

WASHINGTON, April 24.—The first woman congressman is generally liked by her men colleagues. Her attitude toward her may best be likened to that of a big family of boys to the one little sister. They are anxious to do something for her and in a kind brotherly way are overwhelming her with attention.

Miss Rankin is taking it all with dignified composure. She has not been swept off her feet, nor is she austere or unfriendly. She evidently is of the mind that likes people, and to her even men are people.

Is a Good Type. Miss Rankin is a good type to serve as first woman congressman. She is nice looking without being pretty or beautiful. She wears good clothes gracefully, but could not be charged with being "dressed." She is thoroughly womanly; does not suggest the hard-visaged feminist of the cartoons, and at the same time she avoids any suggestion of the flirtatious or coy. There is nothing of the prying pussy about Jeannette.

As to suffrage the fact that she is in congress is the best evidence that Miss Rankin is a good suffragist. To obtain the ballot for women is the one big thing for her. Other issues she views rather broadly—perhaps typically. She is not staid-minded nor an extremist. Her mind is open and honest and she has evident courage to back her convictions even though she may vote in tears.

Her Vote on War. Her vote against war was a good illustration. She had expected to vote for war. She had not given the matter much thought, but her brother who was also her backer and campaign manager, had advised her strongly to vote a "man's vote" on the war issue. He assured her that otherwise she would discredit herself and justify the charge that women were all alike and opposed to war for sex reasons.

Miss Rankin heard all the debate on the war resolution. She planted herself in the senate when the debate began and was there when the vote was taken. Then she did the same thing in the house. In midnight of the day the vote was taken she had about made up her mind to vote against war.

Lemons Beautify Make Quarter Pint of Lotion, Cheap

Here is told how to prepare an inexpensive lemon lotion which can be used to bring back to any skin the sweet freshness, softness, whiteness and beauty. The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold cream. Care should be taken to strain the lemon juice through a fine cloth so the lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoother and beautifier. Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart pint of this weedy fragrant lemon lotion and massage it daily into the face, neck, arms and hands, and see for yourself.

GERMAN HUNS LEAVE

(Continued from Page One.) taining a passport, the stamp on which costs four francs. She couldn't pay the fine, so was cast in jail for two weeks.

Another party of women had been turned out of a small village near Nese at 3 a. m., when the Germans fired the town and left. They wandered to Nese purely by luck. Otherwise they might have gone on for days through a desolated land without human habitation.

Saddest were those women who had seen their husbands forced to leave for some point, other back of the German lines. They had no assurance of the fate reserved for the girls, so were left to imagine the worst fate possible.

"Wait till we cross the Rhine!" we heard French soldiers threaten between clenched teeth. If the Germans, by widespread destruction hoped to terrify the French or dull their military ardor, they have failed.

The ruins through which the French are advancing have just the opposite effect. The temper of the poilus indicates there may be reprisals "when we cross the Rhine."

FRENCH MISSION ARRIVE

(Continued from Page One.) and rough temporary fittings. Horse racks and troughs line the main promenade deck, powder and shells are stored in some of the private cabins fore and aft near the 5 1/2-inch guns. Racks of repeating rifles are upon every landing. Life preservers are piled near the stairways.

Meteor is Seen. "There were some hours of rough weather half way over. Otherwise the days were fine. The only incident that received a long entry in the ship's log was the appearance of a great white and yellow meteor toward midnight Friday. The great arc left in its blazing course remained luminous for two minutes."

TALENT TALK

J. W. Bailey was attending business matters in Talent on Anderson creek Thursday.

J. H. Fuller was a town caller from Anderson creek Thursday.

Edward Diekey was a business caller from Wagner creek Thursday.

WANTED—Competent cook for country. Also girl to do second work. Mrs. Conner, phone 59, Jacksonville. 29\*

LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.

It is a sticky ether compound which dries the moment it is applied and simply shrivels the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.

You are further warned that cutting at a corn is a suicidal habit.
