

### LOCAL AND PERSONAL

Attorney John H. Carlin arrived home Saturday from Salem where he attended a meeting of the state commission appointed by Governor Withycombe to either prepare plans for consolidating the various state boards and commissions, or to cut down the membership and decrease the expenses of such bodies. The commission reached no definite conclusion, but appointed a sub-committee of three, of which Mr. Carlin is a member, and which will meet within 30 days, to thresh out the matter.

### SUPERINTENDENTS FOR GARDEN-LOT WORK

J. W. Dressler, superintendent of the food campaign in the cultivation of vacant lots in this city, has appointed the following assistant superintendents to aid in the work:

E. J. Runyard, J. W. Wakefield, John Demmer, Paul Demmer, E. S. Hitzler, H. G. Shearer, Mr. Bonney, R. D. Hoke, James Bros., Prof. V. Melo Hillis, J. T. Broadley.

If those now engaged in vacant lot gardening or who desire to do it are in doubt as to what to plant, they may ask any of the above assistant superintendents for the desired information on that or any other related point.

In a general way, however, Superintendent Dressler suggests that specialties be made of beans, both for use dry or for green stock for canning and pickling, the same as cucumbers, potatoes, tomatoes, squashes, dried and for canning; late cabbage, carrots, pumpkins, late turnips.

For poultry feed raise kaffir corn, Jerusalem corn, milo maize, Russian sunflower—all easily produced and which mature early. Thus, much poultry feed may be raised cheaply.

The above named products should be grown for family use—not for the market. "It is much better and more profitable to raise your own supply than to depend upon the market for it," said Mr. Dressler.

### FOOD CONTROL LEGISLATION OF VITAL IMPORTANCE

WASHINGTON, April 27.—The administration's food control legislation will be introduced in the house tomorrow by Chairman Lever of the agricultural committee. A senate committee is preparing similar bills for early introduction in the senate.

The measures will incorporate Secretary Houston's suggestions for laws to give the government direct supervision of food production and distribution. One would authorize the agricultural department to license food manufacture, storage and distributing concerns and if necessary to operate them for the public. Another would give the president power to direct the council of national defense or some other governmental agency to fix maximum and minimum prices if advisable.

A sum of \$25,000,000 is asked for the department of agriculture to use in carrying out the program. Officials hope it will not become necessary to fix prices and they believe that that power conferred in the government will in itself prevent the occasion arising.

RATE PROTEST PROTESTED BY THE NORTHWEST

PORTLAND, Ore., April 27.—That every important industry of the northwest will be seriously impaired if the 15 per cent freight rate increase, proposed by the railroads, is put into effect was the expressed sense of a meeting held here today by members of the public service commissions of Oregon, Washington and Idaho.

A resolution was adopted providing for the formation of a committee, composed of one commissioner from each state, to protest before the interstate commerce commission against any unjustified rate advance and to take such other action in opposition thereto as may be found necessary.

### ALL CHILDREN LOVE "SYRUP OF FIGS" FOR LIVER AND BOWELS

Give It When Feverish, Cross, Bilious, for Bad Breath or Sour Stomach.

Look at the tongue, Mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative;" they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.
