

TALENT PUPILS MAKE RECORD FOR THRIFT AND ENERGY

The pupils of the Talent schools, about 150 in number, under the name Olympic Club, are teaching their elders in that neighboring town what thrift, energy and organization can do.

On that day the pupils, with the aid of Welborn Beeson's automobile, brought to the school grounds all the old iron, bones, rubber, paper, etc., they could find in the yards, lots and streets.

However, the Olympic Club has more than one iron in the fire, so to speak, as its activities of the past would indicate. The club since its organization a long time ago has financed its own activities and especially the school athletics.

Recently the Olympic Club plowed up the school baseball and football grounds and planted it to crops. The club has four acres of alfalfa planted in sections of the streets and in vacant lots.

Much of the credit for the ginger the club displays and its successful activities is attributed to the popularity and live wire tendencies of Peter Spencer, the head of the school.

Looking up beyond Nutley street heights, from the Plaza, one is struck by the sight of a lone pine tree, the top branches of which have assumed the shape of a \$ mark. The tree may not be a pine, but the resemblance noted is distinctly there just the same, and has proved alluring enough to persuade several old time prospectors that there is an omen of good luck in the dollar sign and they contemplate some development work accordingly.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets. The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. EAGLE POINT EAGLETS By A. C. Howlett

W. H. Lauer, of Colorado Springs, Colo., spent Wednesday night with us. He was on his way up to Lake creek to inspect a timber claim that he had traded for in that section of the country.

J. A. Moore, who is in the U. S. land department service, was on the P. & E. train Thursday on his way to Butte Falls.

E. R. Peterson, one of the school supervisors, was here visiting our school and took supper at the Sunnyside, going on to Butte Falls on the train Thursday morning.

W. McDonald, a travelling salesman for the American Tobacco company, was here Thursday.

A. H. Peachey of Ashland, spent Thursday night with us and Friday was met here by his daughter, Miss Nell, who is teaching in the Antelope district. She went home with him.

Marian Trusty came out from Elk Creek with his brother, Henry, the small contractor, and the next day took the mail up to Trail and Perisid and his brother went on to Medford. Mrs. J. H. Trusty, mother to the two men mentioned and Mrs. A. T. Poole, wife of one of the Trail Creek forest rangers, were passengers on the stage with him.

Ralph Stanley of Butte Falls was among the business callers Friday and while here gave me his subscription to the Daily Mail Tribune.

E. H. Hurd, one of the Medford attorneys, came out Friday morning on the P. & E. and went directly to the Sunnyside, having notified those in this division, who are expecting to borrow money from the federal land board, to meet him there. There was only a very small number responded as since the change in the weather and the warm sunshine the farmers are very busy trying to put in their spring crops. Several responded to the call over the phone, promising to be on hand today, Saturday. Among those who came in Friday afternoon was John Butler and he signed up for what he wants to ease his burden.

Mrs. Joe Riley (Elsie Riley) came in but as there was no particular rush for the money and Mr. Hurd only had a limited number of blanks, he postponed the matter until later in the season. While Mr. and Mrs. Riley were here Mrs. Riley paid me five dollars sub. to the D. M. T. for her son, J. M. Riley.
