

# HEINZE LOSES SUIT FOR DOZEN MILLIONS IN SUPREME COURT

WASHINGTON, May 21.—Arthur P. Heinze, representing the Heinz copper interests, by a supreme court decision today, lost proceedings for \$15,000,000 treble damages under the Sherman anti-trust law against the Amalgamated Copper company, the Lewishohn interests, William Rockefeller and others charged with attempted monopoly of the Montana copper industry. The court sustained dismissal of the Heinze suit.

The court, in an opinion by Justice Brandeis, affirmed dismissal of the suit by New York courts, which held that as mere stockholders of the United Copper Securities company, controlled by the alleged "copper trust," the Heinze interests could not sue for alleged injury to the securities company.

The Heinzes allege that in 1902 the Amalgamated company, the Anaconda Copper company, Adolph, Leonard, Walter and Albert Lewishohn, William Rockefeller, the late H. H. Rogers, John D. Ryan and James Stillman, with Marcus Daly, entered a conspiracy to attack the United company and secure monopoly of Montana copper interests.

As stockholders of the United company, a majority of whose stock was controlled by the defendants, the New York federal courts, in dismissing the Heinze suit, held that they had no capacity to sue for injury to the corporation.

# CHAIN MAIL VEIL WORN IN TRENCHES

(Correspondence of the Associated Press.) LONDON, May 21.—More and more the men in the trenches are coming to resemble their armor-clad forebears. The latest innovation is a chain mail veil draped from the steel helmets.

The invention is that of a London eye specialist and it has proved its value. The steel veil hangs from a rod across the helmet front and protects the eyes and face while not interfering enough with the sight to impair the soldier's efficiency.

# BREAD FAMINE IN ATHENS IS SERIOUS

LONDON, May 21.—In addition to the bread famine that prevails in Athens there is a great scarcity of all other foodstuffs. Reuter's correspondent at Athens reports. Since Thursday scarcely any meats or vegetables have been on the market and the small existing stocks are selling at exorbitant prices, making the condition of the poorer classes pitiful.

Disturbances that threaten to assume alarming proportions are constantly taking place, says the correspondent who attributes the deplorable economic situation in large measure to the cornering of provisions by unscrupulous speculators. The government is taking strong action in this connection and already has discovered considerable quantities of concealed foodstuffs.

And as he stood for what is best in American life, he stood not less strenuously for what cements in bonds of healthiest friendship the American and British people, both of whom he had served so well. The pure flame of what is straightforward in purpose and high-toned in endeavor burned brightly. By God's help we are not going to let it flicker or wane."
