"CARO FIBRE" FRUIT WRAPPERS Caro Fibre is the only real Fruit Wrapper and actually prolongs the life of the fruit. When wet from shipping in cold storage cars, Caro Fibre forms a silk like blanket, closing the pores of the fruit, permitting the warmth to reach the meat gradually as it is exposed to the atmosphere, and so all other papers go to pieces during the period of refrigeration. Caro Fibre is the only wrapper that should be used—naturally bringing a better price for the fruit. As to the other merits, hundreds of the largest Fruit Growers can testify to the fact that it is the best. It picks up easier, packs quicker, looks better. Caro Fibre is sold by the thousand sheets, not by the pound as others; direct from the Mill to Growers. You get what you buy. It is tied in thousands. You can readily count it yourself. There is no waste. Give it the water test. Prove what we say. We furnish Samples Free. FRUIT BUYERS:— Buy Fruit Wrapped in "Caro." "Caro" Prolongs the Life of Fruit.
