HELP WIN THE WAR

FIGHT—ECONOMIZE—CONSERVE—PRODUCE

BUT FIRST OF ALL

Buy a Liberty Loan Bond

Liberty Loan Bonds are the safest investment in the world today. They are issued by the United States Government and are a mortgage on the United States of America—our country—the richest country in the world. They are Uncle Sam's promise to pay, and he is worth \$225,000,000,000.

Liberty Loan Bonds pay 3½ percent interest and they may be had in any of the following denominations: \$50, \$100, \$500, \$1000, \$5000, \$10,000, \$50,000 and \$100,000. You can make a first payment as low as one dollar and have until August 30 to pay the balance. Most big business houses will accept Liberty Loan Bonds same as cash in payment for merchandise.

—A MESSAGE FROM SECRETARY M'ADOO—

"Wars cannot be conducted without money. It is the first thing to be provided. In this war it is the most immediate help—the most effective help that we can give. We must not be content with a subscription of two billion dollars—we must oversubscribe this loan as an indication that America is steeled to the depths and aroused to the summit of her greatness in the cause of freedom. Let us not endanger success by complacent optimism. Let us not satisfy ourselves with the reflection that some one else will subscribe the required amount. Let every man and woman in the land make it his or her business to subscribe to the Liberty Loan immediately, and if they cannot subscribe themselves, let them induce somebody else to subscribe. Provide the Government with the funds indispensably needed for the conduct of the war and give notice to the enemies of the United States that we have billions to sacrifice in the cause of Liberty.

"Buy a Liberty Bond today; do not put it off until tomorrow. Every dollar provided quickly and expended wisely will shorten the war and save human life."

W. G. M'ADOO, Secretary of the Treasury.
