

LOCAL AND PERSONAL

Company Seven members are much interested in the new law increasing the pay of the regular army. It is claimed that national guard pay automatically doubled with the increase in regular army pay. Units of the guard are paid one-fourth of the pay of the regular army. Thirty dollars a month is the pay for a private in the regular army, hence national guard privates will receive \$7.50 for their four week drills of a month. Of course, when the Seventh company is drafted into the federal service, its members will receive regular army pay.

SENIORS QUARREL OVER DANCING AT RECEPTION

The senior class of '17 of the high school this morning decided to split 50-50 on the dancing question, and the \$4.20 in the treasury was divided by the two factions and each will in its own way entertain the juniors in the near future.

It all came up over the junior "prom," that was stopped by the school board because it disapproved of dancing. It was decided by the to-be seniors that they would entertain the class of '17 with a dance and reception after school was over for the year. The anti-dancing faction of the senior class proposed to inform the juniors they wanted no reception in which the wicked one-step and other fancy means of sinful recreations were indulged in. They were outvoted and it was decided to have the reception, combination social-dancing. The first half of the evening to be of the less violent sort of reception, the latter half dancing.

Not to be denied the question came up again this morning. Such terms as "hustle," "cat," and other endearing titles were bestowed upon the dancing half of the class by the anti-dancers. They would have an evening or they wouldn't play. The division was made with the anti-dancing faction declaring they wanted no one who approved of dancing at their reception to the juniors.

Maybe they will patch it up, but again maybe they won't. But the juniors will have two entertainments where they formerly had one, if they don't.

ARSON CASE JURY IS OUT ALL DAY

Late this afternoon the jury in the arson case against Mrs. M. M. Garwood still had the case under consideration. The case went to the jury at 9 o'clock this morning. Several times during the day the jury asked for instructions on certain points from Judge Calkins.

This fact, together with the length of time consumed in trying to reach a verdict caused the rumor to spread about the court house this afternoon that the jury would probably be unable to reach an agreement.

HOME GUARD TO ENROLL EVERY ABLE-BODIED MAN

The officers and leading members of the Home Guard company are considering steps to create more enthusiasm in that organization and to increase its membership so as to include every able bodied man in Medford and vicinity who is beyond or under military age.

While about one hundred men have signed the membership roll since the organization was launched some time ago, yet the attendance at the weekly drills has been much smaller than that number. However, at last night's drill the attendance was forty, the most that have turned out for some time.

A bill is now pending in congress which has already passed one house providing for federal recognition of the Home Guard throughout the country and providing quarters and equipment for it. When this measure is passed it is that that the Medford organization will be given a great impetus. As soon as Company Seven leaves for active service the Home Guard will be given the use of its armory.

It is pointed out that when the Seventh company and Company I have gone the Home Guard will be a much needed institution in Medford to protect property and perhaps lives; and that the longer the war proceeds the more the necessity for a home guard body will be appreciated. It is also pointed out that the Home Guard may have to do the very work in this vicinity that is now being performed by Company I in guarding the railroad bridges, water tanks, etc., and that in the not far distant future every man in Medford who is able must "do his bit" at home at least.

A FRIEND'S ADVICE

Woman Saved From a Serious Surgical Operation.

Louisville, Ky.—"For four years I suffered from female troubles, headaches, and nervousness. I could not sleep, had no appetite and it hurt me to walk. If I tried to do any work, I would have to lie down before it was finished. The doctors said I would have to be operated on and I simply broke down. A friend advised me to try Lydia E. Pinkham's Vegetable Compound, and the result is I feel like a new woman. I am well and strong, do all my own house work and have an eight pound baby girl. I know Lydia E. Pinkham's Vegetable Compound saved me from an operation which every woman dreads."—Mrs. NELLIE E. FISHBACK, 1521 Christy Ave., Louisville, Ky.

Everyone naturally dreads the surgeon's knife. Sometimes nothing else will do, but many times Lydia E. Pinkham's Vegetable Compound has saved the patient and made an operation unnecessary. If you have any symptom about which you would like to know, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free.
