SAYS ALL OREGON SHOULD SALUTE JACKSON COUNTY

"The people of Jackson county are the pioneer roads builders of Southern Oregon and we should take off our hats to them," said Judge George C. Riddle in an interview on his return to Roseburg after his sojourn in Medford last week.

"As the guest of W. H. Gore and John H. Westerlund I made the trip over the Pacific highway to the California state line. I had been over this road many times during the last 66 years, but the trip over the improved highway was a revelation, and for skillful engineering I do not believe the road over the Siskiyou mountains is surpassed in the world.

"The ascent of the Siskiyou road begins at the old stage station which presents the same appearance as it did 34 years ago. The road is laid in graceful curves to the summit which is six miles. At no place on the road does the grade exceeds 4.2. The road is 24 feet wide and, strange to say, there is not a blind curve at any point.

"Over this road Mr. Gore drove his heavy Packard automobile on high. We also met or passed all kinds of vehicles, immigrant wagons with poor teams, and many automobiles, indicating that this road is used for all kinds of traffic.

"This road demonstrates the difference between permanent and scientific road construction and the patchwork so noticeable in Douglas county. A little over ten years ago Jackson county bonded for $500,000 to construct permanent roads, and the result is a paved highway from Central Point to Ashland, a distance of about 17 miles. This paved road is 16 feet wide. An improved road from Ashland to the California line also adds to easy traveling in that part of the state. The latter road is paved, and notwithstanding these improvements, Jackson county has $70,000 of its road money which has not been expended.

"It is fortunate that this splendid piece of highway is the gateway to Oregon, and I am sure that immigrants or tourists upon entering this state are more than pleased with conditions. Besides the excellent roads, the scenery of the Rogue river valley is delightful at this season of the year."

DON'T EXPERIMENT

You Will Make No Mistake If You Follow This Advice.

Can Medford residents demand further proof than the following testimonial?

Get at The Source of Your "Skin Diseases"

Don't be misled by this term, for the appearance of pimples, boils or rashes indicate something more serious than a mere "breaking out" of the skin. These eruptions are, in reality, signals from nature that the blood is impoverished, debilitated and in need of help. Of course you can sometimes drive away the infected places by applying a salve or lotion, but unless you treat them through the medium of the blood, they will occur again and again.

S. S. S. has proven its wonderful building and tonic properties in thousands of cases arising from disorders of the blood. It washes the poisons from the system and aids the blood in its work of cleansing and invigorating the body organs, throwing off waste matter, and keeping the body in a normal, healthy condition.

Prove these facts for yourself by taking a bottle of S. S. S. and write to our Medical Department for information about your case. Swift Specific Co., 304 Swift Building, Atlanta, Ga.
