SLACKERS AND THE HONOR ROLL.

A GLANCE at Medford's roll of honor, the list of those purchasing Liberty bonds, reveals a remarkable absence of those who really have the mazuma. Glance down the list and you will see that those who have strong boxes, prominent as obstructionists and famed as community knockers, are strangely missing—while many there are who have strained their resources to subscribe.

Of course the gentle pastime of warrant shaving, the joyous recreation of cent-per-centing and the delightful three-ball game are more remunerative, if not so patriotic—and what do these patriots care for government except to cuss it for interfering with skinning operations? What is government for except to knock or recall because of taxation?

And why should money that is earning as high as 15 per cent a month in driblets be diverted to the use of Uncle Sam at 3½ per cent a year? Why indeed. What is it to these patriots that millions of American youth will soon be on the firing line to be supplied with food and munitions? The firing line is a long way off—too far indeed for these patriots to see. What is war anyway but to yield golden harvests for those stay at home and profit by the blood sacrifice of those who respond to their country's call.

Many a village (and other) capitalist, smoked out by Liberty bond and Red Cross subscriptions, has been posing as a pillar of respectability and a patriot, when in truth he is simply a leech sucking the life blood of the community and as much of a slacker as tho he evaded military duty.

THREE MEDICAL DISCOVERIES.

AT THE recent meeting of the American Medical association, three medical discoveries figured which reveal great advances in the war against disease. They are:

1. An anaesthetic which is also an antiseptic.
2. A serum and surgery treatment for anthrax, the dread disease which has baffled physicians.
3. A revolutionary method of treating Bright's disease, from which thousands die yearly.

The anaesthetic was discovered by Gordon Edwards, who has tried it out in the trenches in Europe. He was aided financially in his research by Miss Anne Morgan. The invention is composed of three ingredients and is harmless. It will probably revolutionize medical work on the European battlefields, as its effects are wonderful.

The anthrax treatment was tested at Bellevue hospital and patients showed immediate improvement and eventual cure. It is a combination of surgery and serum, devised by Dr. D. G. Dudley of Endicott, N. Y.

Dr. Albert A. Epstein of Mt. Sinai hospital is sponsor for the new method of treating Bright's disease. He believes the malady is due to changes in the blood, and treats the blood as well as the kidneys.

WANT "FLAPPERS" IN WAR SERVICE

CHICAGO, June 15.—Fifty-five per cent of the women of the United States are "flappers," according to Mrs. Raymond Robbins, of the woman's committee of national council of defense. Mrs. Robins 'definition of a "flapper" is a woman who does not work, and women of all kinds who live at home and are supported by their relatives. She hopes to recruit this class into war service after the registration of women has been accomplished by the women's national council.

GERMANS PURCHASE CONDENSED MILK

WASHINGTON, June 15.—Large quantities of condensed or evaporated milk have been bought recently at retail by German agents and shipped to Germany thru neutral ports, the department of commerce was informed today by the war committee of the condensed milk industry. Fearing detection if they purchased from manufacturers or jobbers, the German agents have canvassed retail stores and paid retail prices.

Buying operations have been reported in New York, Illinois and Oklahoma, and shipments were made to Genoa, Italy, and Norwegian and Danish ports. The milk manufacturers war committee will seek to aid the government in preventing future shipments.

PERMIT ANARCHIST ORATOR TO SPEAK

NEW YORY, June 15.—Emma Goldman was permitted to speak unmolested by the authorities at another anti-conscription mass meeting here last night. Thomas D. McCarthy, federal marshal, announced at her last previous appearance, that he would take her into custody if she attempted to speak again.

It was reported that McCarthy intended to make good his threat, but was deterred at the last moment by a hint from Washington that if Miss Goldman were arrested she probably would pose as a martyr.

Elaborate preparations had been made by the police to prevent disorder but they had little trouble. At the close of the meeting those who attended were compelled to pass out in single file.

Registration cards were demanded from all men who seemed to be of military age. Several who could not produce cards or make satisfactory explanations were held for further investigation.

LARGEST CLASS OF PLEBES ENTER WEST POINT

WEST POINT, N. Y., June 15.—A class of 352 new cadets has been admitted to the military academy. This is the largest "plebe" class in the history of the institution and brings the present enrollment of the academy up to 900.

PERSHING VISITS NAPOLEON'S TOMB TO PAY TRIBUTE

PARIS, June 15.—It was an impressive scene as General Pershing stood yesterday with uncovered head at the tomb of Napoleon and paid silent tribute to one of the world's greatest commanders. General Pershing, accompanied by his staff, was received at the Hotel Des Invalides by General Niox, the military commander of the historic monument and General Malterre.

As the American party entered the spacious grounds leading to the building, they encountered a number of veterans of the French war who have homes at that institution. One of these was a grizzled soldier of the Crimea, who still wore the ancient uniform and carried on his breast decorations of the old days. As the veteran saluted General Pershing, the general stopped and extended his hand, saying:

"It is a great honor for a young soldier like myself to press the hand of an old soldier like yourself, who has seen such glorious service."

Passing into the Invalides, General Niox conducted the American commander within the vast rotunda, with its walls hung with battle flags and thence the party proceeded below the crypt, where the sarcophagus of Napoleon reposes. Entrance to the crypt is rigorously limited, and it is seldom that any one is admitted except crowned heads or a former ruler, as in the case of former President Roosevelt, when he visited Paris.

General Pershing stood for some moments gazing at the impressive spectacle. He was then conducted to the art museum, where precious relics of Napoleon are preserved.

F. A. West went to Portland Friday morning.

DROP SUIT FOR $900,000 DAMAGES BASEBALL WAR

PHILADELPHIA, June 15. — Convinced that organized baseball had entered into no conspiracy to wreck its business, the Baltimore Federal league club today dropped its $900,000 anti-trust damage suit against the American and National leagues, the national commission and other defendants.

When the United States district court opened for the fifth day of the trial, Stuart S. Janney, chief counsel for the Baltimore club, addressing Judge Dickinson, said:

"After a full consideration of this case last night by counsel for the plaintiff conditions have arisen which make us desire to discontinue it. I desire to ask leave of the court, therefore, formally to file a motion of discontinuance. I would say that there has been no settlement of the case."

Presidents Johnson of the American league; Tener of the National, and Chairman Herrmann of the national commission expressed their gratification at the outcome of the case. Al Isaid they knew nothing of the intention of the Baltimore club to drop the suit until they entered the court room today.

"It's a vindication for organized baseball," said President Tener.

The suit was instituted in March, 1916. The Baltimore club charged that the peace agreement between organized baseball and representatives of the Federal league, entered into in December, 1915, ignored the interests of the Baltimore club and resulted in wrecking its business to the extent of $360,000 for which it asked tripled damages under the anti-trust acts. It was alleged that organized baseball as at present constituted was monopolistic in its operations.

5,000,000 Corns Lifted Right Off!

Try 2 Drops of Magic "Gets-It."

There's a wonderful difference between getting rid of a corn now and the way they used to try to get rid of it only four or five years ago. "Gets-It" has revolutionized corn history. It's the only corn remedy

"See? Just 2 Drops of 'Gets-It.' Now Tomorrow I'll Just Peel That Corn Right Off—and It's Gone!"

today that acts on the new principle, not only of shriveling up the corn, but of loosening the corn off—so loose that you can lift it right off with your fingers. Put 2 drops of "Gets-It" on that corn or callus tonight. That's all. The corn is doomed sure as sunrise. No pain, or trouble, or soreness. You do away once and for all with toe-bundling bandages, toe-eating salves and irresponsible what-nots. Try it—get surprised and lose a corn.

"Gets-It" is sold everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Medford and recommended as the world's best corn remedy by Leon B. Haskins, Medford Pharmacy, and Heath's Drug Store.
