LEG BROKEN IN AUTO SMASH-UP ON TRAIL CREEK

In an automobile accident on the steep mountain road up Trail creek Sunday noon W. R. Thompson, the well known painter, contractor of this city, suffered a broken leg. He was brot to the Sacred Heart hospital late last night.

The bringing of the injured man to this city was accompanied by another auto accident in which the trouble car turned turtle but no one was injured except by the blowing out of a tire. It was a hoodoo day on the Trail road.

Brakes Fail to Hold.

Mr. Thompson and Code Hall were enroute to the head of Cow creek on a fishing excursion, and some distance above Trail the car stalled. Hall got out and cranked the car but the brakes refused to hold and the car started backward down the hill. Thompson managed to hack the car into the road embankment, but it upset and rolled across the road and again upset and rolled a short distance down the hill side.

Mr. Thompson's right leg was broken above the knee by the first upset and he escaped further injury in the second overturning.

Hall, as soon as possible, telephoned to the city word of the accident and for Dr. Seely to hasten to the scene. Some one else phoned for Dr. Heckman of Central Point. Dr. Heckman reached the scene first.

As soon as Dr. Seely was phoned word of the accident, he arranged for the Gates' service car to be fitted with springs on which the injured man could lie while being brought home. George Aitken drove the service car and his father, Jack Aitken accompanied him. Dr. and Mrs. Seely followed in the doctor's car.

Second Turn Over.

Above Trail on a steep hill the Seely rescuing party met Dr. Heckman of Central Point returning with Thompson in the doctor's car. As Thompson was standing the side splendidly propped up in Dr. Heckman's car, it was decided to leave him there.

Upon the hill the service car stalled and the brakes refused to hold and it began to back rapidly down the hill. Aitken turned the car into the embankment, causing it to upset, but he escaped injury. The car was righted again and was backed about 700 feet when it became stalled for good.

Dr. Heckman proceeded with the injured man to Medford and it was about midnight before Thompson reached the operating room in the hospital and the broken leg was reset.

In the meantime Dr. and Mrs. Seely started back to the city and near the Potter Palmer ranch one of the tires of his car blew out. They were not able to proceed home until late last night after another tire had been sent out from the city.

23 STATES ARE BONE DRY AT THE PRESENT TIME

WASHINGTON, July 2.—Twenty-three states are dry today the Reed amendment, prohibiting shipment of liquor into any dry territory where its manufacture or sale is prohibited ap-

states are partly affected by the legislation into effect today. Eleven other lation, which has been hailed by prohibition advocates as the greatest single step toward abolition of the liquor traffic in the nation's history. The law bars from prohibition areas, whether states or smaller corporations, all mail matter containing advertisements or solicitations for orders for intoxicants, a provision designed to aid in enforcing the anti-shipment feature by suppressing the activities of mail order houses in dry territory.

Prepared to Enforce Law. Justice and postoffice department officials have made extensive preparations for enforcement of the law. Ethyl alcohol is regarded by the federal government as an intoxicating liquor within the meaning of the act, but methyl, wood and denatured alcohols are not so regarded.

No ruling has been made regarding the status of patent medicines containing alcohol and that question may be among the first to be passed on by the courts under the legislation.

Heavy Penalty. The language of the anti-shipment section is very comprehensive, imposing a fine of \$1000 and imprisonment for one year, or both, on any person who shall "order, purchase or cause intoxicating liquors to be transported in interstate commerce, except for scientific, sacramental, medicinal or mechanical purposes, into any state or territory, the laws of which state or territory prohibit the manufacture or sale therein of intoxicating liquors for beverage purposes."

The same penalties are prescribed for violators of the anti-advertising section. For a second offense in either case, the penalty is made one year's imprisonment.

Bone Dry States. Following are the states wholly affected by the act: Alabama, Arizona, Arkansas, Colorado, Georgia, Idaho, Iowa, Kansas, Maine, Mississippi, Nebraska, North Carolina, North Dakota, Oklahoma, Oregon, Rhode Island, South Carolina, South Dakota, Tennessee, Vermont, Virginia, Washington and West Virginia.

Those partly affected are: California, Connecticut, Delaware, Louisiana, Maryland, Massachusetts, Minnesota, New Hampshire, New York, Ohio and Texas.

The following are affected at future dates: Alaska, Jan. 1, 1918; Indiana, April 2, 1918; Michigan, April 30, 1918; Montana, Dec. 31, 1918, and Utah, Aug. 1, 1917.

BROWN TO REOPEN HIS ESTABLISHMENT

E. G. Brown closed up the well-known confectionery, soda water and dance establishment known as Brown's, corner of Main and Front streets, at 7 o'clock last Saturday evening. He plans to reopen the store, after making alterations and changes, within a short time as a place for male patronage only.

E. H. Fish, who has managed the place for Brown for the past nine months, it is understood, will return with his wife and children to Portland.

Mr. Brown has disposed of his partnership with J. E. Stewart in The Quiz cigar store and will give all his time to the Brown establishment when it reopens.

PLAN INSURANCE FOR LIVES OF MEN IN NATIONS SERVICE

WASHINGTON, July 2.—Representatives of virtually all the great life insurance companies in the country are expected to meet Secretary McAdoo and other cabinet members here today to consider plans for insuring the lives of men in the naval and military service.

Under the proposal the government would insure the men in service for limited amounts in case of death, injury or capture—a system similar to that imposed upon owners in the merchant marine. In addition to this men would be permitted to take further insurance.

Such a plan, if accepted, probably would sound the knell of the pension system. In the plans submitted to the defense council the extreme liability of \$4000 was suggested. In the merchant marine, death benefits range from \$1500 to \$5000.

PETROGRAD PEACE ADVOCATES PARADE

PETROGRAD, July 2.—The great demonstration by workmen and soldiers degrades and the revolutionary democracy, which had been discussed for some days past with considerable anxiety owing to the declaration of anarchists to make a counter revolutionary outbreak and to carry arms, passed off without disorder. Unarmed processions of many thousands marched thru Petrograd to the Mars-solviere pole, the military parade ground where victims of the revolution are buried, headed by bands and carrying banners.

None of the latter bore material or patriotic inscriptions, only declarations of hostility against the wealthy and bourgeois class. "Down with the duma and the council of empire; down with the capitalist ministers"; "The people's fight for peace" were among conspicuous mottoes. A body of infantry soldiers carried a banner reading: "Down with the imperialistic war. We want an armistice on all

GERMAN SHIPS SERVING UNITED STATES IN WAR

WASHINGTON, July 2.—Eighty-seven of the German merchant ships seized in American waters at the outbreak of the war were turned over to the shipping board today by President Wilson for operation. The other fourteen already are in possession of the navy department.

Title to the vessels was vested in the president in a resolution passed by congress in May. Many of them already have been repaired and put into service by the shipping board, which proceeded unofficially without awaiting today's executive order giving it formal jurisdiction.

Service on Both Sides. The total tonnage of the 87 ships exceeds 500,000. Several have gone to the war department for transports, but it has not been decided definitely whether they are to remain under control of the department or will revert to the shipping board. The president's order nominally puts all under the board's control.
