### DEFENSE TRYING FOR IMPEACHMENT IN MOONEY TRIAL

SAN FRANCISCO, July 6 .- The de fense of Mrs. Rena Mooney in the bomb murder cases presented wit nesses today with a view to impeaching statements by witnesses for the prosecution,

"I have a good thing now-I an a star witness in the bomb murder cases and when the trial is over will go east on the cushions with nice piece of change left" was the gist of a statement that Fred Harris, Salvation Army worker, testified had been made to him by John McDonald a waiter, who as a state witness said he had seen Warren K. Billings, ac companied by Thomas J. Mooney place a suitcase on the spot where an explosion occurred last July, killing ten persons. Billings and Mooney who is the husband of Mrs. Mooney are under sentences of life imprison ment and death, respectively, for one of the bomb murders.

The state contends the explosive was enclosed in a suitcase and that the five bomb defendants originally planued to hurl it in the ranks of the street car employes marching in the preparedness day parade, because the men refused to strike at the instance of the Mooneys.

To refute this theory, the defense called Captain of Detectives Duncar Matheson, who testified that the division of car employes formed at a point a block away from the scene of the carnage. Edwin McKenzie, one of counsel for the defense, declared that had the alleged conspirators de sired revenge for the refusal of the car workers to join in a strike, the bomb would have been placed in their ranks.

Chief of Police D. A. White testified that he had given orders that all automobiles were to be kept off Market street during the parade and told of the efforts which had been made to enforce the order. State witness es testified that they had seen a jitney bus on Market street near the scene of the blast shortly prior to the detonation, supporting the state's contention that the alleged conspira tors were taken to the scene in an

#### A TERRIBLE WEAPON OF TERRORISM

MONG the weapons of terrorism originated and utilized by the Germans, which discounts even poison gas and liquid fire, is the distribution of disease germs among enemy people and livestock. There is every reason to believe that the typhus and other epidemies that have decimated the Serbs, Rumans and Russians were part and parcel of the diabolical propaganda of ruthlessness which has caused such unspeakable sorrow and suffering to humanity.

We have the word of the queen of Rumania for the tee representing the Metal Mine assertion that her own child died of typhus as a result of Workers' union, which declared a cating early containing deadly germs dropped by German strike on the mining companies for aviators, who sought thus to spread plague and pestilence higher pay and changed working conover the enemy's country; and now is presented indisput- ditions, went into conference today that the effects must not be under- on the Scandanavian-Dutch socialist keep fresh for months. W. a friendly neutral state criminal attempts against the H. Rodgers, federal mediator, was a tata the standard of brilliance charsecurity and lives of the people.

In the presence of a member of the American legataion, then representing German interests in Rumania, there was controlled by the Industrial Workers of decision, but that America's mill-holm were objected to by the Danish where they had been hastily buried upon the dismissal of committee, in a signed statement, has ain's, will find expression in numbers the German diplomats, in packages bearing the seal of the imperial German consulate, fifty infernal machines and six test tubes containing cultures of the anthrax and glanders bacilli. These had been brought in by German diplomatic couriers, exempted by international privilege from

The bacilli packages were marked:

To the Royal Colonel and Military Attache His Honour Herr von

To the Royal Colonel and Military Attache this Honorather Hammerstein:

Herewith 4 tubes for horses and 4 for horned cattle. For use as directed. Each tube sufficient for 200 head. If possible, administer thru the animal's mouth; if not, in its fodder.

Should be obliged for a little report on success with you. If there should be good news to report, Herr K.'s presence here for a day desirable.

The infernal machines were in the form of fifty zine cartridges containing high explosives, with nitrate of ammonium and trotyl as their base, one-fifth of the contents of each cartridge being powerful enough to destroy a section of railroad track, a bridge pier, a large building or serve to mine a road.

It was evident that while still at peace with Rumania, Germany was planning a series of outrages to cripple industry, similar to those inaugurated in the United States by Bernstorff and his agents, and in addition scheming to destroy the livestock with an epidemic that would also a week's supply of ore on hand. infect humans.

Could human ingenuity go further in devising inhumanity to man than the Prussian jugger has in his regime of terror? For has he not "made a covenant with death, of terror? For has he not "made a covenant with death, and with hell is at agreement"? No wonder he is called the "Anti-Christ," as he profanely and blasphemously proclaims his partnership with God. May his fate be that of another conquering scourge, of whom it was written:

"I will make thee a terror, and thou shalt be no more; tho thou be sought for, yet shalt thou never be found again."

It is observed that one-half of coincidences, among others the fact 3834 is 1917. It is also noted that that certain rulers among the allies two bemispheres are represented in figure out the same number of years this great war, which is the reason when taking their dates of birth, assension to power, number of years in tured that the year 1917 will see the close of the war.

That this may be true is further supported by an interpretation of the 13th chapter of Revelation. "The beast" there spoken of is held to be scrutiny. the kaiser of Germany, who will be given power for forty-two months (Rev. 13:5). Forty-two months added to the date of the beginning of the war, July, 1914, brings the day of his power to an end January, 1918. This is practically the same thing as clos-ing at the end of 1917.

That the beast spoken of in the 13th chapter of Revelations means

666, or the number of "th beast."

If the kniser is the beast referre to in the 13th chapter of Revelations and it certainly reads very much that way, the above conjectures and coin nces may have some meaning. If the above is without meaning

that do you make of it, anyway? FREDERICK W. CARSTENS, Pastor Baptist char a.
