

I. W. W. STRIVING TO TIE-UP ALL MINES IN NATION

Governor Campbell of Arizona Informed That Strike Is Nation-Wide and Situation Most Serious—Strikes Directly Aiding Enemies of United States.

GLOBE, Ariz., July 7.—The first conference looking to a settlement of the copper miners' strike which has paralyzed production in the Globe-Miami field and has curtailed the output in other copper districts in Arizona, was to be held today between Governor G. W. P. Hunt, personal representative of President Wilson in the strike zone; John McBride, conciliator, representing the department of labor, and the mine managers. Mr. Hunt planned to endeavor to include the strikers and operators of all the districts involved in the conference here.

Mr. Hunt belittled rumors of German activities. Governor Thomas E. Campbell, who has been here since July 4, said he did not know whether German influence was behind the strike.

Aiding the Enemy.
"It makes no difference to me whether there is German influence behind these strikes," said the governor. "The fact is these strikes are directly aiding an enemy of the United States—Germany—by curtailing the production of copper."

Governor Campbell also said, in a statement to the Associated Press, that he had been advised by leaders of the Industrial Workers of the World that the strike here was part of a nation-wide movement and that orders concerning it came from the executive committee of the Industrial Workers of the World in Chicago.

Quiet has been maintained in Globe since the arrival of a squadron of United States cavalry Thursday night. No effort has been made to employ strikebreakers in any of the mines. In Bisbee, where the Metal Mine Workers' Industrial union first ordered the strike, there has been no disorder and the mine managers claim some success in inducing men to return to work. Order has been maintained, too, in the Clifton-Morenci district, but no men are at work there. Union leaders express entire satisfaction with the progress of the strike and assert that they are confident of winning.

Campbell's Statement.
Governor Campbell's statement to the Associated Press says:

"The labor situation in the Globe-Miami district is grave from the fact that two demands have been made upon the operators, one from the International Union of Mine, Mill and Smelter Workers, and another from the Industrial Workers of the World. The strikes became effective immediately, closing down every property in the district, so that today there is no production from a district that last year produced more than 217,000,000 pounds of copper.

"With the citizens' committee armed and the strikers in an enraged frame of mind, the situation was, in my opinion, sufficiently tense to add my concurrence to recommendations made by the regular officer, Major Bundell, sent from Douglas, Ariz., that troops be sent here.

"I think their presence in the district has avoided a serious clash, which would have led only to loss of life and greater complications. Since their arrival the district has been reasonably quiet, although various-packet lines have been maintained. To a limited degree necessary supplies have been taken into the Old Dominion property. I do not anticipate any violence now, although the situation remains greatly unsettled.

Strike Statewide.

"It is my belief that the movement on the part of the Industrial Workers of the World is statewide and that trouble will ensue in practically all the major mining districts in the state unless their demands are granted. It is my hope and desire, and I intend to use my best offices, to bring about such an adjustment of the labor conditions in this district as will settle permanently the labor unrest in Arizona. I believe that this can be done through careful and cautious mediation, the adjudication being then firmly and forcibly, if necessary, obtained.

"I have been advised by the local leaders of the Industrial Workers of the World that the strike here is not only state-wide, but nation-wide, and that the demands came from the executive committee of that union with headquarters in Chicago, and that they are in no manner in a position to compromise any of those demands. This condition, if my advice is correct, I consider very serious."

BILL TO INFORM PEOPLE ABOUT EVENTS OF WAR

Congressman Kelly Introduces Measure to Establish War Information Commission, to Prepare Information Concerning All Branches of Government.

By MILTON BRONNER
WASHINGTON, D. C., July 7.—"In France the government is going right to the people with information about the war, spreading the news through official bulletins, which are read aloud by the teachers in every school in the republic. The result is a marvelous solidarity has been obtained and the French people know what is going on, discuss things in their community meetings and come to the support of the cabinet in the matters that are of vital import. I would like to see our public schools used in the same way."

Kelley Furthers Measure.

The speaker was Congressman Clyde Kelly of Pittsburg, who has introduced a bill "to establish direct contact between the people and the national government by the creation of a war information commission." This commission would be composed of cabinet officers, with a civilian chairman to be named by the president. It would be their duty to prepare information concerning all branches of the government and issue weekly bulletins.

Citizens of any public school district who had organized a community association to meet in the school would be entitled to this bulletin. Kelly frankly says he got all his ideas on the subject from the French system.

Over there the government gets out a "Bulletin Administratif" each week. For instance, one called "The Book of Gold" contained a list of casualties. There were also lists of men cited for bravery, or who were given military medals or who were promoted. A communication from a cabinet minister told that the United States had entered the war, discussed the reasons that impelled this action, and set forth how this should cheer the allies.

Utilize School Houses.

"Your plan is very good," I said to Kelly, "but won't congressmen make the natural objection that these bulletins are not needed here because we people are the greatest readers of newspapers in the world?"

"People read the newspapers in their homes," said Kelly. "The object of getting them to the schoolhouses is to discuss the news. Think what it would mean if every week we could get men and women by the millions to go to their schoolhouses and discuss getting behind the next liberty loan, or the Red Cross, or food conservation, or any of the all-important things that are going to arise during the war."

"Don't you see how it would get the people back of the government? How it would bring intelligent pressure to bear upon congressmen and senators who were not properly supporting the president?"

"In time of peril the ancient Hebrews used to cry 'To your tents, O Israel.' This meant they wanted full free discussion of the danger. Imitating them, my bill would say: 'To your school houses, O Americans!'"

LETTERS SHOP MORALE OF GERMANS LOWERED

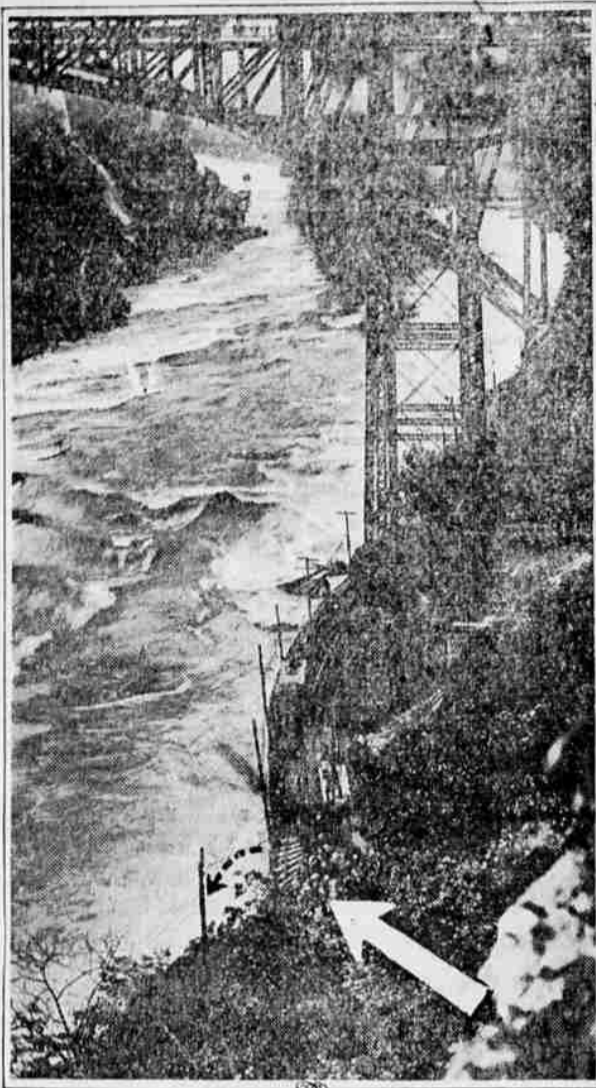

CANADIAN HEADQUARTERS, July 7.—Much evidence of the lowering of German morale continues to be discovered in captured trenches and raided houses. A remarkable letter was found recently which had been written to a Bavarian at the front three weeks ago which said in part:

"The German social democrats have announced that if a single shot is fired in August revolution will follow. They are on the track of the German kaiser, too, and if it lasts much longer it will be the end of Prussia for the Prussians, and the English are the masters. These two alone are carrying on the war. The others are merely in their hands."

CLEVELAND REPORTER ARRESTED AS A SPY

CLEVELAND, July 7.—Ernest Wolfen, reporter for a Cleveland German daily, was arrested by Cleveland authorities today as an alien enemy. The arrest followed receipt of instructions from Washington.

FIRST PICTURE OF NIAGARA FALLS DISASTER

First photograph of scene of Niagara's worst disaster, taken for the Mail Tribune immediately after the belt line car on Great Gorge route plunged into rapids, loaded with excursionists. Eleven lives are known lost, with more unaccounted for and 35 others injured. Arrow points to sagging rails where car was thrown from track into whirling waters.

DRAFT MACHINERY SET IN MOTION WITHIN WEEK

WASHINGTON, July 7.—Prospects for setting in motion the draft machinery for the new national army by Monday, as planned by Provost Marshal General Crowder, were regarded today as remote, since organization is complete in only eight states. Delinquent states probably will make it necessary to defer the first drawing till the middle of the coming week.

The method to be followed in making selections has not yet been disclosed by war department officials. The general outline of the plan, however, is indicated by the emphasis laid on the serial numbering of the cards, coupled with Secretary Baker's announcement that drawings will be in Washington.

It is understood that when a single number is taken from the jury wheel the man in each district whose card bears that number will be drafted. As each number is drawn, approximately 30,000 men will be conscripted, or one from each execution district.

AMERICAN TROOPS START BUILDING AVIATION CAMP

PARIS, July 7.—American troops are beginning work on the first section of the vast aviation training camp. Eventually this camp will be able to accommodate several thousand pilots.

BELGIAN MISSION REACHES SPOKANE ON WESTERN TRIP

SPOKANE, Wash., July 7.—Belgium's mission to the United States, which is headed by Baron Moncheur, formerly Belgium Ambassador at Washington, arrived in Spokane this morning prepared for a strenuous day of entertainment and speech-making. The mission was met at the depot by Mayor Charles Fleming and a committee which included many prominent Belgian and French residents, and was taken on an automobile ride thru the city and adjacent country.

Members of the mission were to be the guests at a luncheon at noon, after which they will parade thru the business section of Spokane and later speak at the armory. A delegation met the special train at Sand Point, Idaho, early this morning, but the members of the mission had not arrived. Baron Moncheur, who had been informed last night that the Sand Point delegation would not meet the train, telegraphed his regrets back to the Idaho town when he arrived here. The mission will leave for Seattle tonight.

CHICHESTER'S PILLS

THE DIABLO BRAND
Ladies! Ask your Druggist for Chichester's Diabolo Brand Pills to treat and cure all ailments of the female system. They are gentle, and will give you relief. Take one or two. They are Druggists' and Physicians' Prescription. Always reliable. Sold by Druggists Everywhere.

Good Business

Business can be conducted along pleasant lines, with a smile and a courteous word, far better than in a dry-as-dust, brusque manner.

This is the belief of the officers of this institution, and we have lived up to it consistently. That it has been a success, is evidenced by our growing business. You have only to ask our depositors, and you will see the reason for our belief.

It's Good Business.

BOY SCOUTS OF GRANTSPASS HAZE COMMANDANT

Those irrepressible Boy Scouts of Grants Pass played fast and loose this week with the dignity of their commander, Ben Sheldon. The lads under the command of Scout Master Sheldon have been camping out this week in the park at Ashland.

Mr. Sheldon's discipline was light. Each boy was required to be at roll call in camp at 6 a. m. and 10 p. m. daily. The rest of the day they were permitted to spend as they pleased.

Tuesday night at roll call the wide-awake boys pleaded to be permitted to remain up to witness the Roundup fun in the park and on the streets. But Scout Master Sheldon sternly ordered them to bed at once, and after he was sure that the order had been obeyed himself went down to see the fun.

About 1 a. m. he returned very tired and sleepy. "Oh hum," he remarked as he started for his tent after he had listened and counted up all the youthful snorers, "thereby nothing like a good bed."

But his bed was gone. So was his tent and all the rest of its contents. Not a vestige in sight. No sound but snores and suppressed giggles. No clue. "Daw gone it," he ejaculated.

About 2 a. m. the scout master finally found his tent, bedding, etc., on the hillside about one-quarter of a mile from camp.

Mr. Sheldon feels quite ruffled over the treatment accorded him by his

IRRITABLE NERVOUS

Was Condition of Indiana Lady Before Beginning to Take Card-u-i, the Woman's Tonic.

Kokomo, Ind.—Mrs. H. Hankemeier, of this town, says: "I look so well, and am so well, that it does not seem as if I ever needed Cardui. But I was not always this way... I think I have taken a dozen bottles... before my little girl came."

I was feeling dreadfully bad, had headache, backache, sick at my stomach, no energy... I was very irritable, too, and nervous.

I began taking Cardui about 6 months before my baby came. As a result all those bad feelings left me, and I just felt grand, just as if nothing at all was the matter, and when the end came I was hardly sick at all.

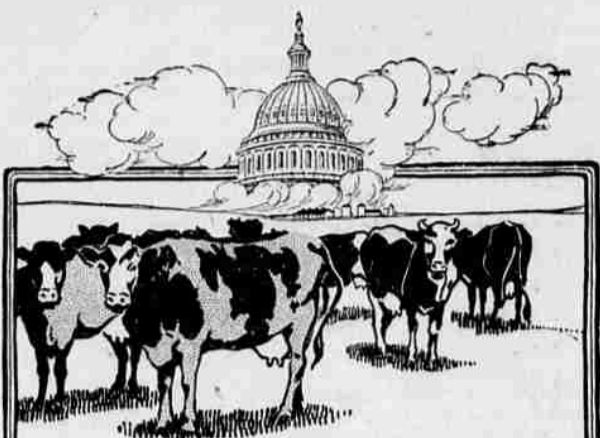

Since that I have never taken Cardui at all... It has done me good, and I know it will help others, if they will only try it."

Many women have written grateful letters like the above, telling of the good that Cardui has done them. Why should it not help you, too? If you suffer from any of the ailments so common to women, and feel the need of a safe, reliable, strengthening tonic, we urge you to begin today and give Cardui a fair trial. Your dealer sells Card-u-i. EB-10

charges and after their return home will refer the case to the editor of the Grants Pass Courier, the manager of the chamber of commerce and the local correspondent of the Oregonian for advice as to disciplinary punishment.

Yesterday and today the Boy Scouts spent in climbing to the top of Mt. Wagner.

WASHINGTON, July 7.—Weather predictions beginning Sunday, issued by the weather bureau today, are: Pacific states—Generally fair; normal temperature.

Helping You With Your Live Stock

The Federal Reserve Banking System, established by the government, stands back of the stock raiser. Through our membership in it we can help our patrons carry live stock which they are raising or fattening for future sales.

Farmers' notes, with not over six months to run, given for raising or carrying live stock can be rediscounted by us with our Federal Reserve Bank, thereby increasing our ability to extend to our patrons such help as they may need.

If you contemplate raising or fattening live stock for market come in and talk with us. We can help you.

High Cost o' Living

Cost o' living keeps a-risin'; Spuds an' meat ez out o' sight, Price o' things jumps most surprisin'; 'Ceptin' good o' 'lectric light.

Only three things left, I reckon, Which ain't riz in cost a mite, One is stamps and one is lamps, an' T'other one's electric light.

Price o' "juice" goes down quite steady; Once it's down it stays down, too. An' a hull dern box o' MAZDAS Cost less money than a shoe.

Sure, the cold, long nights o' winter Make me feel it's putty nice, Havin' all the light we wish for Without frettin' 'bout the price.

Did you ever stop to think that everybody makes the consumer pay for the increased cost of his product except the Electric Company?
