

LOCAL AND PERSONAL

Harvey Oatman of Portland, who is widely known among the old residents of the valley, having formerly resided on a ranch near Phoenix for years, is visiting relatives and friends in the valley. For many years Mr. Oatman has resided in Portland. He says that if in place of orchards there were wheat fields the valley would look natural to him.

The largest cherry crop in the valley in many years is now about to be harvested. Indeed it is claimed that with the many new trees that have come into bearing this summer, it is the largest crop ever known. Many cherry pickers will be in demand in Medford and immediate vicinity, but it is said that in the Phoenix and Talent districts and the south end of the county there are sufficient pickers. The price paid for picking in the south section is \$2 a day.

GORE SUBSTITUTE FOR FOOD CONTROL BILL FORMULATED

WASHINGTON, July 11.—Administration leaders in the senate sparred on by Herbert C. Hoover's letter to President Wilson declaring that further delay in enacting food legislation threatens serious losses to both farmers and consumers, today sought to hasten action by the agricultural committee in perfecting the Gore substitute for the food control bill under consideration in the senate. The committee again today worked on the substitute bill, while the senate continued debate on general features of the measure.

The senate will vote on the bill July 21 under an agreement reached only after the democratic leaders had consented to eliminate some of the bill's most drastic features including the stringent prohibition provisions. The substitute is generally similar to the original administration bill except that power to control other industries besides food and fuel has been stricken out.

The substitute prohibits the manufacture of distilled liquors, without providing for government purchase of stocks now held in bond and gives the president power to decide, in his discretion whether prohibition shall extend to beer and wine.

LOG LODGES FOR CRATER PARK

F. W. Salter of this city has been awarded the contract for the construction of two lodges, each 15x24 feet, in Crater Lake national park. The lodges will be built of logs. The work of construction will be begun on July 15.

One lodge will be placed at White Horse at the Medford entrance to the park and the other will be built at the Pinnacles of Sand creek entrance. The lodges will be used as headquarters for the registering of visitors to the park, the checking of autos and other vehicles. The logs will be cut on the ground, and the lodges will be supplied with water pumped by gasoline pumps.

Another much needed improvement which will be made at Crater Lake park this summer will be the installation of a plant to pump spring water up to the camp grounds at the rim of the lake.

FISHING CLUB OPENS ON FRIDAY, THE 13TH

The Kelly Island Fishing club are not a superstitious folk. With all the days in the week and year before them, they have chosen Friday, July 13, to open their new club house on Rogue River. The following invitations have been sent out to several friends of the members:

"The Kelly Island Club, an association of anglers organized for good fellowship, requests the pleasure of your presence at the dedication of their club house and grounds on the banks of Rogue River twenty miles from Medford, on the Crater Lake highway, the opening of the steelhead season, Friday, the thirteenth of July, nineteen hundred and seventeen."

The statement says it is "very generally reported that among the native born, as well as many of the foreign born, and concerning whose loyalty there can be no question, there is generally misunderstanding as to the meaning and the purpose of the war and therefore among these a general lack of sympathy with the war."

To do away with this misunderstanding the council announces patriotic meetings will be held soon in every town in Nebraska.

GREEK ARMY TO BE INCREASED TO TEN DIVISIONS

ROME, July 11.—The Greek army is to be increased from three to ten divisions, the recruiting and complete equipment of which are to be completed within four months, according to plans outlined today by C. A. Jonnart, entente high commissioner in Greece.

M. Jonnart has reached Rome on his way to Paris where he will lay before the representatives of the entente powers at their forthcoming conference the results of his work in Greece, which includes the abdication of King Constantine and important reforms under the new regime of Premier Venizelos.

In an interview with the Associated Press, M. Jonnart said:

"After being torn by internal dissension for the last two years, Greece finds her financial resources sadly depleted and she needs and expects friendly co-operation and assistance of those great powers which wish to see the smaller nations placed on a firm and enduring foundation. Great Britain and France may be depended on for the army re-organization and in the same way we shall hope to have the powerful assistance of the United States in realizing effective re-organization of the civil branch. America's co-operation will be a most precious factor."

WOULD EXEMPT MALE TEACHERS FROM MILITARY

PORTLAND, July 11.—Teachers attending the National Education association convention in session here, today divided on the question of whether the association should recommend that male teachers be exempted from the selective draft, and it is believed probable that the breach will not be closed until the convention at large has voted on the question.

Katherine Devereux Blake, principal of a New York public school, today recommended to the committee on resolutions that it pass a resolution recommending to the federal government that the male teachers of the nation be exempted because their absence would cripple the school system.

The resolutions committee has not taken favorable action on the proposal and, according to its chairman, J. W. Crabtree, River Falls, Wisconsin, it will reject the question. Mr. Crabtree claiming that women teachers can take the place of the men.

Upon the announcement of Mr. Crabtree's stand, a petition was put in circulation asking that the resolutions committee put the question up to the convention at large Friday. It has been suggested that only the women members be allowed to vote on the issue.

NO SETTLEMENT IN SIGHT OF STRIKE IN ARIZONA MINES

GLOBE, Ariz., July 11.—Settlement of the copper miners' strikes in Arizona, which have completely stopped production in two fields and curtailed work in a third, seemed remote today. Apparently both the mine owners and the strikers are unwilling to recede from their original positions.

Walter S. Douglas, president of the Phelps-Dodge corporation, declared last night that the mine owners could not treat either with the Industrial Workers of the World or with the International Union of Mine, Mill and Smelter Workers. Members of the International say they are anxious that it be understood that they are not affiliated with the Industrial Workers of the World.

Fear of trouble over an order of Sheriff Tom Armer that only one picket would be allowed within an area a quarter of a mile square was allayed by instructions from Governor Thomas E. Campbell that the pickets were acting within their rights as long as they were peaceful.

ter attack forced the Germans back to their original positions.

There have been no serious attempts by the Germans to break thru the British front in Belgium since their two campaigns for Calais in the early months of the war. The first was checked along the Belgian front by the combined British and Belgian defense, aided by the participation of British war-ships along the coast. In the second battle of Ypres in the fall of 1914 the Germans sacrificed thousands of men in a terrific drive but failed to effect a penetration.

Reports from London today indi-

cate that the battle in Belgium is still in progress. The sounds of heavy firing heard in England all day yesterday, were again heard today, beginning at dawn.
