

DEPORTED I. W. W. ARE HELD ON ARIZONA BORDER

(Continued from Page One.)

ly in eastern Washington and Idaho. From Butte, Mont., where the present situation first gained prominence reports seemingly indicate a settlement of the mine strike within the near future. Dissension has broken out among the different striking elements and a mass meeting will be held Sunday to decide whether a portion of the men who struck in sympathy will return to their tasks.

The International Timber Workers union, a branch of the I. W. W., which has threatened a strike in the rich lumbering district about Grays Harbor, Wn., failed to meet mill men and loggers at a conference they previously demanded to be held not later than yesterday. The employers declared last night no overtures had been made since the original demand, presented July 6.

Guards Describe Deportation.

DOUGLAS, Ariz., July 13.—Two hundred and fifty armed guards who escorted the I. W. W. and their sympathizers from Bisbee yesterday returned to Douglas this morning in day coaches attached to a regular west bound passenger train on the El Paso and Southwestern railroad. They reported they had left their charges at Hermanas, N. M.

The guards expressed the opinion that a number of the deported men had been able to drop off the train during the night, escaping in the darkness. The country thru which the train passed is practically a desert.

When the guards left the deported men at Hermanas they said they placed a freight car on a siding nearby containing a quantity of food and water.

Cursed and Yelled.

"We had no trouble with the men who were taking away," said one of the deputies. "The men contented themselves with cursing and yelling threats at us as we left them."

W. B. Cleary, an attorney of Bisbee, who was deported with the others, made a speech to the men when the train reached Hermanas, urging them to make the best of the condition in which they found themselves.

A number of the guards who live in Douglas left the train here, while the others aboard proceeded to Bisbee.

The guards reported that they had found an I. W. W. leader on the passenger train with them after they left Hermanas. The man was put off as soon as he was discovered.

County officers are prepared to meet any effort that the deported ones might make to return to either Douglas or Bisbee. A number of citizens had been sworn in as deputies and preparations made to sound a riot call. When Chief of Police East learned that only the guards were aboard the returning train he countermanded these orders.

Guard the Highways.

The guards said they left Hermanas at 1:30 a. m. after sidetracking the cars containing the Industrial Workers of the World. They rode to El Paso on the engine, caboose and a car of the special train. At El Paso they boarded the regular train to Douglas.

Every highway into Bisbee is guarded and no Industrial workers of the World or sympathizer will be permitted to pass, according to telephone messages received here. Guards also are stationed at Osborn, the junction for the Bisbee and Warren district, and I. W. W. Men coming into that station will be turned back, it was announced.

HERMANAS, N. M., July 13.—W. B. Cleary, a widely known Arizona attorney, who was among those deported from Bisbee yesterday, in a statement to newspapermen today maintained most of the exiles here are "citizens, taxpayers and many of them are subscribers to Liberty bonds."

Thirteen hundred and sixty-two men are here. They have purchased the entire stock of the one little store in town and now are practically without food.

COLUMBUS, N. M., July 13.—The army of I. W. W. deported from Bisbee yesterday and whose special train was sidetracked at Hermanas, N. M. late last night, left Hermanas during the forenoon, and is straggling for a mile or more along the railroad track, walking east in this direction, according to reports received here.

Relying on this information, Columbus citizens turned out heavily armed to repel any "invasion." The situation of the deported persons was described as desperate. Hermanas, a railroad station surrounded by a few houses, had no supplies

for feeding the Industrial Workers of the World, numbering nearly 1200, and they are said to be suffering from a lack of food. It was feared a situation difficult to control might arise if they swarmed into town here.

President Wilson Takes Hand.

PHOENIX, Ariz., July 13.—Governor Campbell this morning received the following telegram from President Wilson:

"Secretary of war has instructed General Parker to send officers to Arizona at once to report to him conditions there with a view to cooperating in the maintenance of order.

"Meantime, may I not respectfully urge the great danger of citizens taking the law into their own hands, as your report indicates their having done. I look upon such actions with grave apprehension. A very serious responsibility is assumed when such precedents are set. (Signed) "WOODROW WILSON."

SI PASO, Tex., July 13.—Acting on advices from Columbus that the trainload of I. W. W. persons deported from the Warren district of Arizona, left Hermanas, N. M., this morning to walk to El Paso, city officials made prompt preparations to deal with the situation. It was planned to feed those in need of assistance as they came in and to arrest them on vagrancy charges if deemed advisable.

In the absence of positive information it was believed some of the deported persons might be walking over the branch railroad line from Hermanas to Deming in the hope of getting food.

No Word Yet From Troops.

WASHINGTON, July 13.—The war department was without reports today from Arizona or the headquarters of the southern department indicating that Major General Parker had used federal troops in the maintenance of order in the region where disturbances have been created by Industrial Workers of the World.

General Parker's orders were to cooperate with the governor of Arizona and to take such measures as he regarded necessary for the protection of life and property. He was cautioned, however, to show no partiality and not to use the troops in the support of any faction, avoiding participation in any controversy.

Senate Hears of Troubles.

WASHINGTON, July 13.—Senator Myers, of Montana, addressed the senate on the subject of the disturbances today, declaring that the government should take "drastic action" against those lawless elements in the west who are threatening to burn wheat fields and are causing the shut-down of sawmills and mines.

"Much of the trouble," he said, "I believe is due to lawless elements who have injected themselves into the situation and are controlled by people hostile to this country."

DEMING, N. M., July 13.—Sheriff W. C. Simpson and fifty deputies left here for Hermanas this afternoon to arrest the men deported from Bisbee. He intends to hold them for instructions from Governor Lindsey.

Sheriff Simpson before leaving for Hermanas said he would hook the first engine he could find to the exiles train and ship them back to Arizona, if the military authorities refused to hold them in a "bull pen."

LICKING STAMPS TO BECOME GREAT PASTIME OF U. S.

By BASIL M. MANLY.

WASHINGTON, July 12.—The stamp taxes in the revenue bill now before the senate are likely to prove the most annoying and least productive of all the shotgun charge of taxes carried by that bill.

If the bill passes in its present form licking stamps will become the great national pastime and every American's tongue will be coated with glue from one year's end to the next. There are stamps for bank checks, stamps for steamship tickets, voting proxies, stock certificates, and every form of legal document.

One of the statistical sharks in Washington calculates that licking the billion stamps required by this section of the bill will use up 16,666,666 hours of the time of American business men and householders.

At this rate of speed it would take 5555 men working ten hours a day for an entire year to lick all these stamps. At \$5 a day their time would be worth \$27,777,777.

The government estimates these stamp taxes will yield only \$20,000,000, but in order to collect this sum, it will waste over \$27,777,777 worth of its citizens' time, to say nothing of the cost of printing and distributing the stamps.

New York Copper.

NEW YORK, July 13.—Copper dull; electrolytic spot and nearby, nominal; August and later \$27 @ \$31.

TABLE ROCK TABLETS

Lawrence Wade of Central Point talked on the far eastern question to an interested audience at the school house last Sunday.

The grain on the bottom land is looking much better than it looked some two weeks ago, and the principal thing causing the farmers to worry now is the liability of the dry weather preventing it from filling.

Clark and Joe Collins have invested in a Studebaker car and are exercising it on our fine roads.

The Misses Sue and Helen Lydiard who returned home a few weeks ago from Los Angeles, were delighted to get back to the Rogue river valley and claim that it looks much better than the majority of valleys in California.

W. B. Byrum, who is suffering with kidney trouble, was taken to the Sacred Heart hospital last Saturday morning, and at this writing is very little improved.

The young pear orchard of M. B. Chase is fast rounding into one of the best orchards in the district, the young trees are carrying a full load of choice fruit, being free from disease of pests, and being evenly distributed thru the trees. Mr. Chase tells us that blight is almost unknown in his orchard and that he does practically all the work of caring for it himself.

The Deford and Wilson sheep that have been pasturing on the upper Table Rock in the vicinity of Union creek. Several families from the Antioch district have been getting cherries at the Nealon ranch during the last few days.

Sunday being a very warm day, a

great many people from the town, motored out to the shady places along the river while the country people flocked to the ice cream parlors in the city.

At the last meeting of the Arrow Heads a short program was rendered after which the evening was turned over to social activities. Many games were played by the bright moonlight until midnight when refreshments were served and the members adjourned for the summer months.

The Lydiard family are being visited by relatives from southern California.

Several contributions to the Red Cross fund in this district were overlooked in some manner when the names were sent in for publication so consequently did not appear in the lists, also some of our heavy contributors were caught by Medford solicitors, thus cutting down our total amount.

Mr. Edsall of Battle Falls has added his name to the roll of the Table Rock home guards.

Dick Waters and wife of Medford were Sunday visitors at the Seabrook home.

Haying will be finished in this district in a few days and the harvesting of grain will be in full blast. Already the binders are at work on barley and the hull between planting and harvest has slipped away and we are back again to long hours and hard work.

The grain crop in the district will fall below the average on account of less acreage and unfavorable season, while the hay crop will not be sufficient for the actual needs of the district.

There will not be preaching services at the school house next Sunday on account of the union services at Ashland, which all through the county are invited to attend. It is expected that many from this district will be present as the man in charge of the service is said to be one of the best in his line on the coast.

At this writing we cannot give any date for the Red Cross concert to be held here in the future, but expect to be able to announce it fully next week.

John Cameron has installed a gasoline storage tank and is now retailing gas, which is proving a great convenience to motorists.

George Stacy, our road supervisor, was down from Beagle a few days ago and in speaking of crops said that many of his neighbors will not have enough feed to winter their stock.

The ladies of our Red Cross auxiliary met last Thursday in their new quarters at the Harry Nealon house and were much pleased with the convenient surroundings. The ladies have completely finished one hospital box and are ready to start in on the second, which is certainly doing wonders considering the number, the distance they must travel to get to and from their meeting place and that they all have many home duties to perform. Knowing them as we do, we know they are making sacrifices to keep up this noble work and as a citizen of Table Rock we are justly proud of our Red Cross ladies.

SAMS VALLEY

George Lyman is being visited by a sister and niece from near Los Angeles, whom he has not seen for a great many years.

Most of the sheep men have made use of the convenient dipping vat and have taken home a clean bunch of sheep and dogs.

Mrs. F. K. Deuel accompanied her husband out to his ranch this week to note the late improvements made.

Charles Clarke, our convenient meat man, made his last trip thru our precinct Monday.

Miss Agnes Phippen left this week for Rock Point where she is engaged

BELL-ANS Absolutely Removes Indigestion. One package proves it. 25c at all druggists.

in packing cherries. Her sister, Marie is assisting Mrs. Kenney with the house work.

Sam and Ed Moore of Central Point visited Sunday with Mr. and Mrs. W. C. Kenney.

Cherries are very plentiful in our precinct, as the trees were heavily loaded this year.

The lengthened dry spell of weather is causing many to long for rain. Some believe there is no hope of rain before the 18th when the new moon comes in.

James Oden of Evans Creek is employed on the Deuel & Strang ranch.

Frand DeFord left Thursday for the government sheep range with his and several other bunches of sheep whose owners have leased range for the summer.

Many from here took in the celebration and round up at Ashland and reported a fine time.

H. A. Tresham in coming down the grade above Ashland July 4 had the misfortune of tipping his car over. He and his occupants escaped injury but the car received considerable damage.

Those who sold sheep to Mr. Welch the Portland stock buyer, delivered them Thursday at the Russell ranch at Beagle.

Mrs. F. DeFord and children are in Portland at the home of Mrs. DeFord's parents, Mr. and Mrs. Enslay. Mrs. DeFord is in attendance with her mother who is ill.

Hurrah! How's This

Cincinnati authority says corns dry up and lift out with fingers.

Hospital records show that every time you cut a corn you invite lockjaw or blood poison, which is needless, says a Cincinnati authority, who tells you that a quarter ounce of a drug called frezone can be obtained at little cost from the drug store but is sufficient to rid one's feet of every hard or soft corn or callus. You simply apply a few drops of frezone on a tender, aching corn and soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain.

This drug is sticky but dries at once and is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin. If you wear high heels also will be glad to know of this.

BUSINESS OPPORTUNITIES

FOR RENT—Or sale, meat market in Grants Pass. Finest equipped shop and best location in town. For particulars address Mrs. Minnie Westheide, 293 Burgin St., Grants Pass, Oregon. 99

FOR SALE—Stock of general merchandise. Will invoice around \$2,500 with fixtures. I will rent building for a term of years at a very low rent, or sell at option of purchaser. Good country trade and bargain for the right man. Address Box 71, Butte Falls, Oregon. 117

FOR SALE—REAL ESTATE

FOR SALE—Will sell 34 acres deep black soil near Medford suitable for alfalfa, all below irrigation ditch, cleared and fenced. Price only \$25 per acre. Term negotiable. E. S. Tully, 219 Garnett-Corey building. 100*

LEMONS BRING OUT THE HIDDEN BEAUTY Make this lotion for very little cost and just see for yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to bleach the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain thru a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin. Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

FOR SALE—MISCELLANEOUS

FOR SALE—Tents, good condition, size 8x14, low prices. Phone 755. 191
