Unless there is rain soon Forest Supervisor M. L. Erickson fears one of the most disastrous forest fire seasons in many years.

"The conditions haven't been so alarming," said Mr. Erickson yesterday, "since 1910, when troops had to be sent to the valley to fight the fires. Of course we have a more efficient fire fighting organization now, but

there is danger of a labor shortage this year which more than offsets that advantage. The extreme heat and the constant hot wind has parched the soil and trees throughout the forest reserve and the department makes an urgent appeal to the people of southern Oregon to co-operate in preventing fires. Campers are particularly urged to be careful of their fires and of their cigar and cigarette stubs, also lighted matches. It would take very little to start a devastating blaze with the forests in their present condition."

The forest service is rushing the three fire-lookouts on Windy Peak, Mt. McLoughlin and Ruster Butte, so that there will be no delay in preparations for fire fighting. The trail from the Blue Ledge mine to Windy Peak, which runs from the mine through the rock precipices to the Buck and Sullivan Gap, is finished, the forest service and the Blue Ledge mine doing the work jointly. The trail will be used extensively by miners in order to get into the Buck Sullivan district.

The fire-lookout houses, knocked down, have been shipped from Portland as have ten government mules which are to be used to transport the houses to the peaks. It is hoped to have all the lookouts established in the very near future.

LONGING FOR A CHILD

Young Wife Almost in Despair. Now has Beautiful Baby Girl.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. Lydia E. Pinkham's Vegetable Compound has brought joy to many childless women by restoring them to normal health. Here is a notable case. Omaha, Neb.—"I suffered from female troubles when I was seventeen years old. At eighteen I was married and my trouble was no better so I consulted a physician who said that there was not much I could do and I could not have children. I read of Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has proved worth its weight in gold to me for I am not only well but have a baby girl, so when I hear of any woman suffering as I was I tell her of Lydia E. Pinkham's Vegetable Compound."—Mrs. W. HUGHES, 19 Majestic Apts., Omaha, Neb.

In many other homes, once childless, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.
