STRANGERS MUST SHOW PASSPORTS TO ENTER BISBEE

BISBEE, Ariz., July 19.—Beginning today every stranger entering the Warren mining district must bear a passport from the mayor or recognized commercial bodies of certain designated cities if he wishes to pass the civilian guards posted along the roads in this region by Sheriff Harry Wheeler without being subjected to a searching questioning as to his business by the armed watchers. The duty of the guards is to prevent members of the Industrial Workers of the World or their sympathizers from entering the district and the passport idea was hit upon as a means of avoiding unnecessary annoyance to tourists and other reputable citizens.

Issuance of passports by the Douglas chamber of commerce was begun today. At the request of Governor Thomas E. Campbell, Sheriff Wheeler announced that passports also would be recognized by the chief of police, the secretary of the chamber of commerce of El Paso or the mayor of Tucson. This will enable tourists traveling by automobile along the borderland highway to pass thru the district.

Armed guards, some of them dressed in khaki and wearing leggingso so that they look like soldiers to the uninitiated are posted at strategic points along all the highways and airroads entering the district. These outposts are manned night and day and are visited daily by Sheriff Wheeler. Every automobile is stopped and inspected, and the occupants questioned closely. The various outposts are in communication by means of telephones and signals.

The censorship was said by the Douglas manager of the Western Union Telegraph company to have been ordered by H. H. Stout and Robert McRae, officials of the Copper Queen company, of the Phelps-Dodge corporation.

Every day is fish day this hot weather. Get it at the Fish Market, of course.

CENSUS ESTIMATES BASED ON FIGURES

WASHINGTON, July 19.—In response to Senator Brandegee's resolution calling for an explanation of the census bureau's population estimates to establish quotas for the forthcoming army draft, Secretary Redfield today submitted a report to the senate showing that the estimates were based upon actual registration figures in each state and substitute division.

He pointed out that the large estimates for certain localities, particularly industrial centers, was accounted for by the abnormal gathering of men of draft age at those places for work in munitions plants.

The resolution was introduced after several senators had charged that the population of northern cities had been "padded" and the southern estimates correspondingly reduced.

TEST COURT PLASTER ON GUINEA PIGS

KANSAS CITY, Mo., July 19.—Federal chemists and bacteriologists were preparing today to inoculate guinea pigs with cultures obtained from specimens of court plaster, believed to be impregnated with tetanus germs and alleged by the authorities to have been disseminated thruout Kansas by peddlars as part of a plot to plunge the state into an epidemic of disease.

Whether the alleged plot was believed to be of Germanic origin, has not been disclosed by Fred Robinson, United States district attorney for Kansas, in charge of the investigation but it is understood that the names of some of the three men under arrest are of Teutonic origin.

LENINE AGENT OF GERMAN STAFF

PETROGRAD, July 19.—A letter from General Brussloff's chief of staff states that Nikolai Lenine, the radical socialist leader, is an agent of the German general staff. The evidence was traced thru the confession of Lieutenant Ermolenko that he was sent to the front of the Sixth Russian army to make a propaganda in favor of early peace with Germany.

Lenine's task was to compromise the provisional government in the eyes of the people by every possible means. Funds were sent thru the intermediary of a friend in the German legation at Stockholm.

ORGANIZE COURTS FOR POLISH KINGDOM

WARSAW, July 16, via London, July 19.—The provisional state council has perfected a plan of judicial organization of the Polish Kingdom, county courts and courts of justice will retain their present functions, and new courts will be established as follows: A supreme court, made up of two presiding judges, and seven advisory judges; two courts of appeal at War-

FIFTY MILLION STORAGE PLANT FOR SAMMIES

WASHINGTON, July 19.—More than fifty million dollars will be expended on storage facilities on the Atlantic coast to supply the troops in France, it was announced today.

MARTIAL LAW IN PETROGRAD.

square are headquarters for the government force which are bivouacking there and have passed cannon. The general feeling is that the decisive stage between the forces of order and disorder is rapidly approaching.

to the ministerial crisis to the effect that the departure of the cabinet ministers cannot be made the pretext for depriving the government of the support of the revolutionary democracy. On the other hand, the resignation of the cabinet makes it imperative for democracy to redetermine its attitude regarding the organization of power.

Therefore general assembly councils of workmen and soldiers peasants must be convoked and such assembly will meet within a fortnight hence to discuss the reorganization which is to replace the cabinet ministers. Meanwhile all power must be concentrated in the present government which must act in conformity with the decisions reached at the last general congress.
