Sworn Circulation for 1916-2,491.

Full leased wire Associated Press dispatches.

ARRESTED FOR RUNNING WATER WITHOUT NOZZLE

John R. Allen was arrested by Chief of Police Hittson Wednesday on a charge of permitting water to run thru an open hose at his home on Rose avenue.

Before Police Judge Taylor Allen pleaded not guilty and his hearing was set for 4 p. m. yesterday, but at that hour Judge Taylor continued the hearing, because of the absence from the city of E. A. Reames, attorney for Allen, until 10 a. m. next Wednesday.

The violation of the ordinance was first reported several days ago and Mr. Allen was notified by the police to appear before Judge Taylor to answer to the charge.

Superintendent Arnsperger asks the water-using public to avoid all appearance of using open hose.

Many people, Arnsperger says, have the habit of taking short pieces of hose and sliding them over the nozzle of the hose they are using to irrigate, so as to prevent the water from cutting into the ground.

"I was fooled myself several days ago in passing by a yard by just such a contrivance," said Mr. Arnsperger. "And Mr. Allen has no doubt seen a number of such contrivances and that's what influences him probably to say that he is only doing what everybody else is doing."

"The water using public should avoid even the appearance of violating the ordinance in this regard. If they want to prevent the water from the hose nozzle cutting into the ground they should place the nozzle in a gunny sack."

COURT HOUSE REPORT

Reported by Jackson County Abstract Co., Sixth and Fir Sts.

Marriage Licenses. George J. Reinking and Grace Macfarlane.

Circuit Court. Belle Nickell vs. R. H. Bradshaw et al. Motion.

W. E. Jeter vs. Southern Pacific Co. Summons.

United States to Eddie Mayer, land in Sec. 8, T. 36-2 east.

EUROPE'S WAR MEASURES UPON KING ALCOHOL

What Belligerent Lands Have Done to Limit and Control Liquor During War—Reductions in Output and Commandeering of Distilleries the Rule Abroad.

By MILTON BRONNER. WASHINGTON, July 19.—With America in the midst of heated debate over the prohibition issue as a war measure, "wets" and "drys" are arming themselves with ammunition from European experience with the drink question.

Neither side has complete information, but here is gathered some outline of European war measures relating to King Alcohol as can be had in America.

England. In February this year an order was issued by the food controller practically preventing further use of food grains for malting purposes.

The maltsters had quite a large stock of malted barley on hand and the brewers were permitted to use this. It was estimated this would last until November this year. On or before that date new regulation will have to be put in effect, else the brewers will have to close down.

France. All plants that distill alcohol from grain have been commandeered by the government and the alcohol is used in manufacture of high explosives.

Russia. Under the czar manufacture of vodka, a highly alcoholic drink in which the government had a monopoly, was absolutely discontinued.

Germany. The government has prohibited the use of more than 40 per cent of the barley for malt that the brewers used to employ.

Austria-Hungary. So far as any information has been received—and it is very slight—restrictions practiced in Germany have been limited to some extent and the hours of sale largely limited.

Italy. Here, as in France, alcohol distilled from grain is used by the government in manufacture of explosives.

Spain. The government has prohibited the use of more than 40 per cent of the barley for malt that the brewers used to employ.

Sweden. The government has prohibited the use of more than 40 per cent of the barley for malt that the brewers used to employ.

Denmark. The government has prohibited the use of more than 40 per cent of the barley for malt that the brewers used to employ.

Norway. The government has prohibited the use of more than 40 per cent of the barley for malt that the brewers used to employ.

Finland. The government has prohibited the use of more than 40 per cent of the barley for malt that the brewers used to employ.

Poland. The government has prohibited the use of more than 40 per cent of the barley for malt that the brewers used to employ.

COMPLETE DETAILS OF DRAWINGS TO SELECT NEW ARMY

(Continued from page 1.)

first call to provide for probable exemptions. That means that 1,374,000 men will be notified to appear before examination within the next few days.

In some districts the 100 per cent allowance for exemption may be too large, and in others too small, but the local boards will be instructed in calling for men until the district quota is filled.

Each state governor is now allotting to his districts their respective portions of the state's quota. In each of the 4557 examination districts among which the ten million registration cards have been divided, the cards have been given serial numbers.

The number of registrants in each district varies from about 185 in the smallest to more than 10,000 in the largest, so that the serial numbers to be dealt with in the drawing range from one to between nine and ten thousand.

Master Key Devised. In order to reduce the mechanical process and make it possible for the 1000 numbers drawn to reach every man in every district, a so-called master key has been devised.

This will be obtained by drawing slips numbered from naught to ten, which will be listed in the order they are drawn to form the key.

Then will begin the drawing of the numbers one to one thousand. For the district with not more than one thousand registrants, there will be no problem to determine the order of appearance before the exemption board.

How It Is Applied. Application of the master key makes it possible to apply fairly each of the one thousand numbers drawn to district with more than 1000 registrants.

SCRAP OF PAPER REMARKS CLINGS TO CHANCELLOR

PARIS, July 19.—"One thing is certain, and that is that Emperor William wants to get rid of a man who trailed after him unpleasant recollections of the day preceding the war," Jules Cambon, general secretary of the ministry of foreign affairs, said to the Associated Press today.

"The emperor doubtless thought," added M. Cambon, "that by sacrificing Chancellor von Bethmann-Hollweg he would make easier the task of the peace negotiations, but whatever happens, Germany will make its war chancellor a scapegoat for its own faults and its own crimes."

Michaelis in Dual Role. "Herr Michaelis seems to be of the type of disciplined, brutal, Prussian functionary, a liberal, so long as he is not in power, but conservative as soon as he is charged with public functions. He will doubtless try, according to the method familiar to the Germans, to practice contradictory policies, supporting von Hindenburg and von Ludendorff and the military party energetically on the one hand, and trying, on the other, to flatter the socialists and the pacifist elements in Germany."

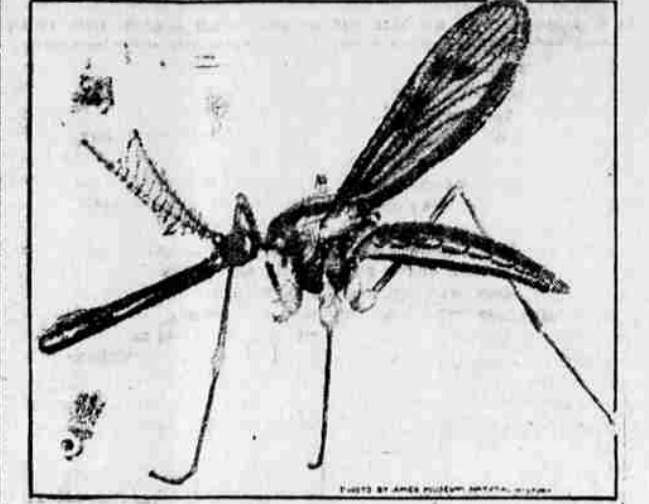

CHICHESTER'S PILLS

THE DIAMOND BRAND. Ladies! Ask your Druggist for Chichester's Diamond Brand Pills in Red and Gold wrapper. Take one or other. Buy of your Druggist. Ask for CHICHESTER'S DIAMOND BRAND PILLS. They are sold by DRUGGISTS EVERYWHERE.

CLEARANCE SALE on all WHITE CANVAS and BUCK SHOES and PUMPS at SCHMIDT'S "Good Shoes"

JOHN A. PERL UNDERTAKER. Lady Assistant. 25 SOUTH BARTLETT. Phone M. 47 and 47-J-2. Automobile Hearse Service. Ambulance Service. Coroner.

HERE ARE FIELD HOSPITAL REMEDIES FOR MOSQUITO BITE

A mosquito with bayonet set, ready for the charge.

As some war fiends are charged to inoculate prisoners with typhoid, so the mosquito oinoculates bedroom prisoners with malaria.

Keeping the family well in wartime means rousing the mosquito, for he preys on the human army itself, and not on its quartermaster's department.

Do away with stagnant water, in pools, bottles, old cans, rain barrels, eaves, gutters. Use crude oil on all stagnant ponds

MINERS FLOCK TO WORK IN ARIZONA CAMPS

BISBEE, Ariz., July 19.—Miners are coming into the Warren district at the rate of fifty a day to find work in the mines and mills of this copper camp. They are coming from Texas, Oklahoma, Michigan and other sections and are applying for employment after being examined by the investigating board of citizens here.

Every precaution is being taken by Sheriff Harry Wheeler and his 150 active deputies to prevent any active I. W. W.'s members from getting back into the district and finding employment, where they could start labor agitation. Every road and trail leading into this district is picketed and tonight the deputy sheriffs at the outpost stations were told by the sheriff to use every possible vigilance to prevent the return of men classed as "undesirables," and to personally conduct all persons to the dispensary, where the investigating board is in session every day.

WOODEN SHIPS TO EARN PROFITS FROM MALLIES

NEW YORK, July 19.—In reply to the suggestion that the nations allied with the United States assume a share in paying for wooden ships that would virtually be useless in trade service after the war, William Denman, chairman of the United States shipping board, expressed the opinion that freight earnings of the wooden ships during the war would more than pay for their construction, according to correspondence made public here today.

The suggestion was made in a telegram sent to Mr. Denman by P. H. W. Rosl, representative here of the National Mercantile league, an organization to extend American shipping. "The theory on which your telegram is based," said Mr. Denman in reply, "ignores the fact that the ship is paid for before its freight earnings and the freight is paid for by the consumer. Insofar as the wooden or other ships serve the allies, they will be paid for by the allies."

Advertisement for Red Crown Gasoline. Features a diagram of a continuous chain of boiling points and text: "Quick Acceleration", "RED CROWN The Gasoline of Quality", "A continuous chain of boiling points", "High Boiling Points for power & mileage", "Medium Boiling Points for quick and smooth acceleration", "Low Boiling Points for easy starting".

DENNEY & CO. Fruit Marketing Agents

Specializing in the distribution of northwestern boxed fruits.

M. E. ROOT, Representative Medford, Phone 294. Main Office Chicago, Ill. Western Office Payette, Idaho. F. H. Hogue, Western Manager.

Advertisement for Ford THE UNIVERSAL CAR. Text: "Ford cars are an important factor in every rural community. They help the family enjoy life, bring the pleasures and advantages of the city within reach, and give practical service every day. Ford cars require a minimum of attention; any one can run and care for them. Two million owners the world over prove these qualities every day. We pledge Ford owners the reliable Ford service with genuine Ford parts and standard Ford prices. Touring Car \$360, Runabout \$345, Coupelet \$505, Town Car \$595, Sedan \$64—all f. o. b. Detroit. On display and for sale by C. E. Gates Auto Co."

Two Big Days of Ashland Chautauqua

The Last Two Days of the Ashland Chautauqua are Among the Best of the Series
