

NEW SCHEDULE LIGHT, POWER RATES ORDERED

Public Service Commission Establishes Uniformity of Electrical Rates, Elimination of Flat Rates and Substitution of Meter Rates in Southern Oregon, After Hearing.

Uniformity of lighting, power and heating rates, abolition of flat rates and substitution of meter rates and furnishing of transformers by the company, are the chief features of the findings and order of the Public Service Commission of Oregon in a decision just rendered after several years of investigation of California-Oregon Power Company's properties and service in southern Oregon.

The commission finds that the company has received a return amounting to less than five per cent upon its legitimate investment, has not received an unreasonably high return, but less than the investors were entitled to. No general reduction in rates is justified, nor is it believed that the total return can be satisfactorily increased by advanced charges.

Regarding Transformers. Power consumers using motors of one horse power or more have been required under the present rules to purchase and own suitable transformers for the operation of that equipment. This rule is unreasonable in that it prevents the most efficient and economical distribution of energy and forces upon the customer ownership of equipment which, on account of its unusual character he must rely upon the company to maintain.

Regarding Rates for Agricultural Power. The commission orders the abolition of the flat rate schedule. However, in so doing responsibility is left with the utility to so design its meter rate that any long-use customers, who have built up good load factors in their irrigation operations, upon the basis of existing flat rates, shall not under similar, normal conditions pay increased annual bills to the company.

The present meter rate for agricultural power (irrigation) appears to be well balanced on the proportionate cost of such service and, the commission believes, should be given sufficient trial to demonstrate the practicability of its application. Its operation in connection with the flat rate and the meter rate for general power purposes as has been the company's practice in the past, should afford a system of agricultural power rates sufficiently flexible to meet all reasonable conditions.

Must Extend Service. In order that the users of irrigation power may be able to make proper and profitable use of the service furnished, the company must extend its service to each customer as to the nature of the rates available and assist in obtaining for him the most economical combination of rate and operating plan that may be possible.

The commission believes that special effort should be made in this direction until the possibilities of this market are fully realized and this class of business has passed thru its development period.

New Schedules Issued. The commission being fully advised and possessing full knowledge of the conditions surrounding the business of this utility, now finds that the rates in effect for electric service, insofar as they differ from those herein after set forth, are unreasonable, unjust and unjustly discriminatory and that in lieu of such unreasonable rates the following schedules provide just, reasonable and not unjustly discriminatory charges for such service as is therein specified in both the Klamath and Rogue River divisions. As to rates not specifically superseded by

this order, no finding is made, and they may be continued or changed by the utility at its option. Such rates, as well as those herein fixed, are subject, of course, to revision by the commission at any time upon proper complaint.

Residence Lighting. First 7 kilowatt hours, or less, per month \$.90 Next 43 kilowatt hours, each... .10 Excess... .07

Commercial Lighting. First 50 hours used per month of the customer's active load will be at the primary rate.

Primary rate: First 8 kilowatt hours or less \$1.00 Next 92 kilowatt hours, each... .10 Excess... .07

Secondary rate: First 150 kilowatt hours, each... .05 Next 250 kilowatt hours, each... .07 Next 400 kilowatt hours, each... .02 Next 700 kilowatt hours, each... .02 Excess... .0135

Minimum charge—No monthly bill shall be less than \$1.00 plus 10 cents for each 100 watts, or major fraction thereof, of active load in excess of 500 watts.

Active load—No active load will be considered as less than 500 watts. The active load of all commercial lighting installations will be determined as follows:

One-third of the connected load—Apartment houses and hotels (except reception rooms, hallways and lobbies).

Basements, lofts and other rooms used only for storage. Warehouses and barns (except offices and workrooms).

Academies and schools (except night schools). Of all other lights and exceptions noted above— 80 percent of the first two kilowatts of connected load.

Lighting—Out of Town. This rate applies to rural customers where there are less than 15 connections per mile of line, as measured from the city limits or from the point of origin of the line if from out-door sub-station.

First 10 kilowatt hours or less, per month \$1.30 Next 40 kilowatt hours, each... .08 Excess... .05

Lighting—General Rule. Cooking and heating devices up to 800 watts individual capacity and single phase motors not exceeding 1/2 horse-power may be supplied thru the lighting meter under any of the above lighting rates without increasing the active load or the minimum charge.

Combined Lighting, Cooking and Heating. This rate applies to residences using complete lighting, cooking and heating equipment, and to commercial heating and cooking loads where lighting service is carried on the regular commercial lighting rate.

First 10 kilowatt hours or less, per month \$3.00 Next 10 kilowatt hours, each... .05 Excess... .02

Water heaters, when so connected with double-throw switch that the demand of the heater cannot be coincident with the demand of the cooking equipment, will be supplied with energy at a flat rate as follows: For each watt of connected load, 3 1/2 mills.

Power. First 50 hours used per month per horse-power (output) or first 60 hours used per month per kilowatt (input) of demand will be at the primary rate.

All additional use will be at the secondary rate.

Don't Experiment You Will Make No Mistake If You Follow This Advice. Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and no time to experiment. There are frequently symptoms of kidney trouble, and a remedy which is recommended for the kidneys should be taken in time.

Doan's Kidney Pills are a good remedy to use. It has acted effectively in many cases in this vicinity. Can Medford resident demand further proof than the following testimonial?

J. D. Samuels, R. F. D. No. 2, Central Point, Oregon, says: "Several years ago I worked at the stone mason trade and during that time my back gave me a great deal of trouble. I had hard work getting down to do anything and I could hardly straighten up. After I had taken Doan's Kidney Pills awhile I didn't have the lameness in my back and could get up and down as well as ever." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Samuels had. Foster-Milburn Co., Props., Buffalo, N. Y.

Primary rate: First 200 kilowatt hours, each... \$.80 Next 400 kilowatt hours, each... \$.50 Next 900 kilowatt hours, each... \$.30 Next 1500 kilowatt hours, each... \$.20

Secondary rate: First 1000 kilowatt hours, each... \$1.50 Next 4000 kilowatt hours, each... \$1.00 Excess... \$.50

Minimum charge: First 2 horse power, each... \$1.50 Next 8 horse power, each... \$1.25 Excess... \$1.00

In connection with the above power rates the utility shall file, subject to the approval of this commission, suitable rules and regulations for the equitable determination of the demands of consumers' equipment to be used thereunder.

Air and Water Heating—Temporary Rate. Altho service of the present water and air heating customers under existing rates has been found unreasonable, equity demands that these consumers, who have purchased equipment on the attraction of the present rates, be given due consideration for the good faith in which such purchases were made.

The present air heating rate will be continued for a period of only two years and for none other than present customers for heaters which have been in use during the past year.

All 2 kilowatt water heaters now used in connection with ranges will be supplied for a period of only two years, when installed with double-throw switch to prevent the coincidence of the demand of the heater with that of the cooking equipment, at a flat rate of \$5.00 per month.

Special Summer Cooking Rate. The company may, if it considers the demand of sufficient extent for justification, file special rates for small summer cooking loads. It appears that such service might become attractive to consumers not ordinarily cooking with electrical energy and the commission suggests that the following schedule be filed if it should become desirable to develop this class of business.

This rate is applicable only to customers connecting and using devices of from 500 to 1000 watts individual capacity during the five months period of service between the April and September meter readings.

First 30 hours use of the consumer's active load will be at the regular residence lighting rate. Excess over 30 hours use of the active load, per kw, 4c.

Cooking devices included above are ovens, hot plates, etc., for general cooking purposes. Irons, toasters, percolators, etc., alone do not entitle customer to this rate; but their consumption, when used in connection with cooking devices will be billed at this rate.

Fifty per cent of first 1000 watts connected.

Chicago Grain. Open. Close. July \$2.56 \$2.59 September 2.29 2.31 1/2

NOTICE OF ELECTION. Notice is hereby given that an election has been called by the Board of Directors of the Talent Irrigation District of Jackson County, Oregon, and the same will be held on Tuesday, the 21st day of August, 1917, between the hours of eight o'clock A. M. and five o'clock P. M. for the purpose of voting upon and determining whether or not the Talent Irrigation District shall issue bonds in the sum of six hundred thousand (\$600,000) dollars, for the purpose, necessary or convenient, of carrying out the provisions of a certain act passed by the general assembly of the state of Oregon, of 1917, and known as House Bill number 1158, being chapter 357 of the General Laws of Oregon, 1917.

The polling place for said election shall be in the Garage, on the ranch owned by the Talent Orchard Co., and located on the N. E. 1/4 of S. E. 1/4 of section 22, Twp. 38 N. 1 W. of the Willamette Meridian, and being within the boundaries of the Talent Irrigation District, Jackson County, Oregon.

The electors of said Talent Irrigation District are hereby required to cast ballots at said election which shall contain the words, "Bonds—Yes," and "Bonds—No."

Those in favor of the said District issuing bonds in the sum of \$600,000 shall cast their ballots "Bonds—Yes," and those opposed to the issuance of bonds in the sum of \$600,000 shall cast their ballots "Bonds—No."

Dated at Talent, Oregon, July 14, 1917. R. E. ROBINSON, Chairman. W. J. HARTZELL, O. A. MANNING, Board of Directors of the Talent Irrigation District, Jackson County, Oregon.

Attest: LOUIS BROWN, Secretary.

Young Women Awaiting The Great Crisis. Of all the vital times in life, the birth of a baby is the climax of nature's most wonderful evolution. After a period of anxious waiting, the advent of a new life. Nature must be added during this waiting period if the pain and danger of the crisis is to be avoided.

Three generations have found great relief from the many discomforts of approaching motherhood, by the safe, time-honored massage, "Mother's Friend." It gently softens every fibre, cord, tendon and ligament. The drawn skin becomes soft and elastic. Tension and strain upon the expanding abdominal muscles is relieved when baby arrives; heavy sickness or nausea usually is not felt and the crisis is passed with infinitely less pain and danger.

"Mother's Friend" has been used by expectant mothers with the greatest success for over forty years. Get a bottle from the Registrar today and write the Bradford Regulator Co., Dept. E, 200 Lamar Building, Atlanta, Ga. For a valuable book "Birth" and full information. The book will be mailed to you without charge. Do not by any means neglect to begin the use of "Mother's Friend"; the preparation is undoubtedly a real and wonderful aid to nature in her work.
