

# I. W. W. THREATEN NATIONAL STRIKE THRU HAYWOOD

CHICAGO, July 31.—Miners, harvest hands and lumbermen of the middle west threaten to go on a sympathetic strike unless deported I. W. W. members are returned to their homes in the Warren district of Arizona. A telegram voicing the intention of a walkout of more than a quarter of a million men was sent from Chicago to President Wilson yesterday by the Industrial Workers of the World.

The message to President Wilson said that miners of Michigan had begun a general strike, that Minnesota miners would follow and that harvest hands in North and South Dakota would fall into line unless the men deported from their homes were returned. The move on the part of Mr. Haywood was the result of summary dismissal from Bisbee, Arizona, of his attorney, Fred H. Moore.

When asked what he proposed to do, Haywood said: "What else is there to do but accept deportation; can you tell me any way to beat their game. If Arizona can stand the domination of high handed officials I guess the I. W. W. will be able to endure it."

"I have been forced to wire President Wilson that a general strike will be called in the middle west unless the men of Arizona are brought back to their families. When all the members and sympathizers walk out, 250,000 men will be idle. As yet I have received no reply from Washington." Suspension of harvest work, the I. W. W. leaders declare would mean the loss of thousands of dollars to the farmers and inactivity in the mines would prove a serious impediment to munitions manufacturers.

# SLACKERS RUSH TO SECURE BRIDES

NEW YORK, July 31.—United States Marshal Thomas D. McCarthy with fifteen of his deputies appeared at the marriage license bureau this afternoon where scores of young men of the draft age, with their prospective brides were waiting for licenses and within fifteen minutes cleared the room and hallways of half their number. He ejected from the place every man who was unable to produce his blue registration card.

Another "slacker" rush for marriage licenses happened yesterday, 351 being issued. Some of the applicants openly called attention to the ruling of the provost marshal general, Crowder, made last week, that a man with a wife solely dependent upon him is exempt from the army draft whether he married for love or safety.

# GERMANS SLAY ENTIRE FAMILY

LONDON, July 31.—A dispatch received today by the Wireless Press from Amsterdam says: "The German authorities at Liege, Belgium, arrested, tried and sentenced to death within three days an influential Liege merchant named Croneret, his wife and their two daughters, aged 24 and 14 years, on the unproved charge of espionage. The father and mother were both shot to death in the presence of their daughters. The latter were offered their freedom if they revealed the names of their parents' accomplices. The girls refused, the eldest saying, 'If we speak we might cause fifty people to be killed. We would rather die alone.' She was immediately shot. The youngest then was tortured, outraged and also shot."

# IRON RANGESTRIKE LEADERS ARRESTED

DESSEMER, Mich., July 31.—Joe Spers, local secretary of the iron mine strikers, was arrested today with two others in connection with the Gogebic Iron Range disturbances. With three more arrests at Ironwood today, sixteen men are now held while authorities are investigating to see whether or not they were registered for the draft. William Stranz, an I. W. W. organizer, is being sought by the police. The strikers did not attempt picketing today, but men who reported for work at several mines said intimidation had been attempted during the night and threats made.

# TEUTON LINES ARE CAPTURED IN GREAT DRIVE

(Continued from Page One.)

marine bases which line the shores of Belgium has also been in evidence and this purpose would be accomplished by any sweeping victory achieved on the Flanders front.

**South to River Lys.**  
The attack of the two allied armies is marked on the southern boundary of its field by the River Lys, about 30 miles from the coast. "A wide front" is the official British expression describing its scope which obviously does not make it clear how far towards the coast the thrust extends.

The opening gives every evidence of being a major one, however, and it is clear that it was successful in its initial stages, the war office account declaring that "satisfactory progress" was continuing at all points. Many prisoners already have been taken.

**Drive a Surprise.**  
The launching of the drive was seemingly a surprise to the Germans who only yesterday were boasting that the intensity of their reply to the British bombardment had caused the British gunners to lessen the violence of their fire. It comes, however, after the failure of the tremendous efforts of the German crown prince has been putting forth to break through the French front in the Aisne region. The French reserve force evidently is great enough not only to withstand such a powerful hammering successfully, but to allow of cooperation with the British in a stroke at another portion of the line.

In addition, General Petain last night made a successful attack on his own account on the Aisne front, carrying German positions 1500 yards wide on the Chemin Des Dames, breaking the German counter-attack and capturing more than 150 prisoners.

**Great Drive Under Way.**  
BRITISH FRONT IN FRANCE, July 31.—The entente allied forces which launched their offensive this morning have advanced well beyond the shell shattered front line German trenches. In many places they have reached the second line defenses on a twenty-mile front of attack, according to the early reports.

The British and French troops went into battle under cover of what perhaps was the greatest barrage fire ever seen during the war.

The entente artillery is moving forward and the whole situation is satisfactory in every particular.

**On Difficult Ground.**  
Between Dixmude and Goessinghe the attackers reported they had secured the two first lines of trenches after having fought over the most difficult terrain imaginable.

The British again have captured La Basse Ville, which they recently relinquished to the Germans.

The British and French forces are facing a large concentration of German artillery and fresh troops which have been rushed up.

The entente allies have established complete air superiority.

The entente military officials say the morale of the Germans here is not up to the old standard.

Six Bavarian divisions were withdrawn and replaced as they were demoralized by the inferno of fire.

At one point the British charged thru their own barrage fire to prevent the escape of fleeing Germans.

**Official British Report.**  
LONDON, July 31.—British troops in conjunction with the French forces on their left attacked the German positions along a wide front north of the River Lys at 2:50 this morning.

The text of the British statement announcing the offensive in Flanders says: "In conjunction with the French troops operating on our left we attacked at 2:50 o'clock this morning on a wide front north of the River Lys."

"The allied troops have captured their first objectives on the whole front attacked and are reported to be making satisfactory progress at all points."  
"Considerable numbers of prisoners already have been captured."

**Long in Preparation.**  
The offensive launched this morning by General Sir Douglas Haig, the British commander, in conjunction with General Petain, the commander of the French forces against the German lines on the Belgian front, is the culmination of the tremendous heavy gun bombardment which has been in progress almost continuously in this area for a week.

# MEDIATORS TRY TO END TIE-UP OF SEATTLE TROLLEYS

SEATTLE, July 31.—The strike of the 100 motormen and conductors of the Puget Sound Traction, Light and Power company for the right to join a national union entered upon its third week today with the tie-up as complete as ever, but with strong prospect of an early settlement of the strike.

A board of three men, one representing the strikers, one the traction company and the third occupying the position of arbitrator, met in this city shortly before noon to discuss the strike. H. G. Bradlee of Boston represents the street car company, James Duncan the strikers and Dr. Henry Suzzallo, chairman of the state council of defense and president of the University of Washington, is arbitrator.

The partisan members of the board will lay their case before Dr. Suzzallo, who is expected to make the award. The parties to the strike have signed no agreement to abide by the decision, but are morally bound. Before entering the meeting all three members of the board expressed themselves as confident of ending the strike. The settlement here will also end the street car strike in Tacoma, where 300 men are out.

fire with which the entente allies had been demolishing the Teuton trenches preparatory to today's assault has been described by the German general staff as the greatest in history of warfare, even surpassing the terrific fire maintained at the beginning of the Somme and Arras offensive. Military observers have attributed two objectives for the entente offensive—the capture of the Belgian North Sea coast, which has been used by the Germans as bases for their submarines, and to assist the hard pressed Russians on the Galician front.

The battle front north of the River Lys stretches from Warneton, on the Franco-Belgian border to the North Sea coast, the distance between these two points being thirty miles. Included in this battle area is the famous Wytshaeete-Messines front, where the British on June 7, after exploding one million pounds of high explosives under the German lines, attacked on a nine-mile front and captured the high riding, several towns, 47 heavy guns and more than 7000 prisoners.

# ALLIED SOCIALIST CONFERENCE CALLED FOR SEPTEMBER 9

PARIS, July 31.—At a meeting of the administrative committee of the French socialist party and the English and Russian socialist delegates called to fix a date for the international socialist and labor conference, regarding which the Russian council of soldiers' and workmen's delegates took the initiative, it was decided that the conference should be held from the 9th to the 16th of September at Stockholm, or if that city proved inconvenient, at Christiania or any other city.

It was also decided that all organizations affiliated with the international should be invited provided they had formed themselves into distinct groups.

There is more catarrh in this section of the country than all other diseases put together, and the last few years was supposed to be incurable. For a great many years doctors recommended it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. HALL'S CATARRH CURE, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only scientific cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Sent for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Tills for constipation.
